Sequencing - Michael Metzger 2010-04

Watson and Crick discovered the human DNA. What made the difference was deciphering it. Like the human body, every organization has a DNA. What will make the difference is not seeing it, but sequencing it. It's the key to long-term success at innovation. Sequencing, written by business consultant Michael Metzger, explores what is required for a company to develop a culture that promotes innovation for the long haul. Harvard's Clayton Christensen reports that few companies have the capacity to innovate. The more success a company achieves, the harder it is for the company to innovate. And yet the reality is that companies innovate or die. Metzger outlines the steps necessary to sustain innovation - the culture, conscience, and C-level leadership required. It begins by having an accurate assessment of human nature and reality. Institutional leaders ignore this book at their peril.

Lead Generation - Ksenia Andreeva 2016-04-29

Presently, marketing has undergone serious change. Marketers have faced increasing demand to provide quantitative data representative of their work, particularly focusing on sales growth in correlation with a narrow target audience. As marketers strive to cultivate new customers directly, they have turned to a growing area of interest: lead generation - a marketing activity aimed at acquiring direct contacts of prospective customers that have demonstrated some interest in the seller's goods and services. This book has a purely practical purpose, serving as an introductory resource to principles and methods that will enable marketing professionals to raise the number of potential customers and multiply the number of sales typically received. The book describes: - lead generation theory, its basic concepts, and methods of evaluating a return on marketing investments; - customer detection techniques (cold calls, pay-per-click, mailings, events, etc.); - peculiarities and challenges of lead generation campaigns and methods to overcome obstacles; - real stories about the way companies do lead generation and calculate its results. Outstanding Features of the Book - 14 real life case studies. - New trends of lead generation: cadence, market places, content management. - Up-to-date statistics for 2015 and plans for 2016. - Based on multi-industry experience (IT, automotive, education and even public organizations). - The style of the book is simple, charismatic and with humor (contains caricatures, jokes, wise quotes of great businessmen). - Applicable to both B2B and B2C. - The author explains all the lead generation concepts but also gives reasons why they should not be treated rigorously, as every company has its own business features and, thus, ROI and lead criteria. - A special section is dedicated to the challenge of lead generation outsourcing. - As lead generation is based on constant testing and statistics, the author also speaks about software tools helping to run your campaigns and calculate ROI efficiently. The book presents the results of a global benchmark report: "Lead Generation: Strategies and tactics for 2016". This survey covered 259 respondents from information and telecommunication technologies, consulting, banking, wholesale, insurance, auto-dealers, etc.

The Unique Technique - Maria Higgins 2016-02-02

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not

perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

At the end of the day we all gotta go, so which one are you willing to die for?
