Writing Violence and Buddhism in Sri Lanka - Nimmi N. Menike
2022-04-19

This book examines the idea of violence in the context of religion and literature. It addresses the question of freedom and peace, and violence, with reference to the Buddhist nationalist discourse in Sri Lanka, against the backdrop of Shyam Selvadurai's novel, *The Hungry Ghosts*. The book discusses love, compassion, emancipation, ethics and responsibility through the concepts of identity, deconstruction and decolonization to view religion as language or writing. With a blend of philosophical insights from Emmanuel Levinas, Jacques Derrida, Maurice Blanchot, and Mahatma Gandhi on ideas of being and the other, differences, nonviolence and forgiveness, it insists on the ethical exigency of reinventing Buddhism in Sri Lanka. Delving into some the central motifs of Selvadurai's novel, suffering, desire, hate, and vengeance, it questions popular Sinhala Buddhist readings to argue for the promise of inclusive and diverse approaches towards various groups, linguistic communities, women, and homosexuality. This book will be useful for scholars and researchers of literature and languages, South Asian literature, literary criticism and theory, linguistics, cultural studies, philosophy, religion, Buddhist studies, diaspora studies, and Sri Lankan literature and sociology.

A Thematic Commentary on the Qur'an - Muḥammad Ghazali 2000
In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly

controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

Sri Lanka in the Modern Age - Nira Wickramasinghe 2014-01-03

Sri Lanka in the Modern Age recounts the modern history of the island in an accessible yet unconventional manner. Where other histories have tended to focus on the state's failure to accommodate the needs and demands of minority communities, Wickramasinghe places their claims alongside the political, social and economic demands of other communities, parties, associations and groups, tracing their lineages to the colonial period. This updated second edition carries the book into the present, covering the brutal end of Sri Lanka's civil war and the making of oppressive stability that has grown in its wake. Drawing on recent work as well as on her own research in the field, Wickramasinghe has written above all a history of the people of Sri Lanka rather than a history of the nation-state.

Deep Work - Cal Newport 2016-01-05

Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep—spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In Deep Work, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, Deep Work takes the reader on a journey through memorable stories—from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air—and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. Deep Work is an indispensable guide to anyone seeking focused success in a distracted world. Studies in South Asian Linguistics - James W. Gair 1998

This volume collects twenty-nine published and unpublished papers by the linguist James Gair, considered the foremost western scholar of the Sri Lankan languages Sinhala and Jaffna Tamil. Ranging over thirty years, his work also considers issues in a variety of Indian languages, including Hindi, Marathi, Tamil, Malayalam, and Bengali. The collection reflects the wide range of Gair's interests, from morpho-syntactic questions to questions regarding historical and areal linguistics, especially language contact and diglossia, and extending to language acquisition. By collecting these papers and making them newly accessible, this volume will provide an important resource not only for scholars of these languages but for linguists interested in the theoretical issues Gair explores.

The owner of London's most popular gaming hell, wealthy and powerful Silas Masters, is feared by men and desired by women—except Mercy Kittinger. When the blackguard wins her family home in a game of cards, Mercy steals into Silas's rooms, intent on destroying the proof. But things don't go to plan... She would have her way with him... Caught in the act, Mercy must be bold to save herself...even if it means seducing the dangerous rogue and then disappearing with the dawn, debt voucher in hand. Safe at

home and determined to settle back into her quiet, uneventful life, Mercy burns at the memory of her night spent ravishing the most compelling man she'd ever met. Thank goodness she'll never see him again! He didn't see her coming... No one trifles with Silas Masters. Even if he could forget the dark-haired seductress who undid him, he can't allow anyone to steal from him. He will hunt down the sultry woman who haunts his dreams and show her just how sweet payback can be.

Casting Aluminum Alloys - Michael V Glazoff 2018-09-03

Casting Aluminum Alloys, Second Edition, the follow up to the fall 2007 work on the structure, properties, thermal resistance, corrosion and fatigue of aluminum alloys in industrial manufacturing, discusses findings from the past decade, including sections on new casting alloys, novel casting technologies, and new methods of alloys design. The book also includes other hot topics, such as the implementation of computational technologies for the calculation of phase equilibria and thermodynamic properties of alloys, the development of software for calculation of diffusion processes in aluminum alloys, computational modeling of solidification microstructure and texture evolution of multi-component aluminum materials. In addition to changes in computational predictive abilities, there is a review of novel casting aluminum alloy compositions and properties, as well as descriptions of new casting technologies and updates to coverage on the mechanical properties of aluminum casting alloys. Presents a discussion of thermodynamic calculations used for assessing non-equilibrium solidifications of casting aluminum alloys Expands coverage of mathematical models for alloy mechanical properties, helping facilitate the selection of the best prospective candidate for new alloy development Contains a new section that describes the self-consistent evaluation of phase equilibria and thermodynamic properties of aluminum alloys

WHO Guidelines for Indoor Air Quality - World Health Organization 2010

This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

The Diary of a Young Girl - Anne Frank 1996-02-01

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.
