[The Age of Surveillance Capitalism](#) - Shoshana Zuboff 2019-01-15

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

[The Case for the Green New Deal](#) - Ann Pettifor 2020-09-15

What is the Green New Deal and how can we afford it? To protect the future of life on earth, we need to do more than just reimagine the economy—we have to change everything. One of the seminal thinkers of the program that helped ignite the US Green New Deal campaign, Ann Pettifor explains how we can afford what we can do, and what we need to do, before it is too late. The Case for the Green New Deal argues that economic change is wholly possible, based on the understanding that finance, the economy and the ecosystem are all tightly bound together. The GND demands total decarbonization and a commitment to an economy based on fairness and social justice. It proposes a radical new understanding of the international monetary system. Pettifor offers a roadmap for financial reform both nationally and globally, taking the economy back from the 1%. This is a radical, urgent manifesto that we must act on now.

**Two Birds in a Tree** - Ram Nidumolu 2013-10-07

The Higher Reality of Business The health of business is inextricably linked with the health of humanity and nature. But our current approaches to leadership treat business as entirely separate—and the result has been recurring economic, environmental, and human crises. In this extraordinary book, Ram Nidumolu uses evocative parables and stories from the ancient Indian wisdom texts, the Upanishads, to introduce Being-centered leadership. This new kind of leadership is anchored in the concept of Being, the fundamental reality that underlies all phenomena. Being-centered leaders are guided by an innate sense of interconnection—the good of the whole becomes an integral part of their decisions and actions. Using the experiences of over twenty trailblazing CEOs, as well as those from his own life, Nidumolu describes a four-stage road map every aspiring leader can use to reconnect business to the wider world—to the benefit of all.

**No Logo** - Naomi Klein 2000-12-04

The hotly debated report from the frontlines of mounting backlash against multinational corporations. A national bestseller, No Logo took Canadians by storm when it was published last year in hardcover. Equal parts cultural analysis, political manifesto, mall-rat memoir, and journalistic exposé, it is the first book to uncover a betrayal of the central promises of the information age: choice, interactivity, and increased freedom. No Logo takes apart our packaged and branded world and puts the pieces into clear pop-historical and economic perspective. Naomi Klein tracks the resistance and self-determination mounting in the face of our new branded world and explains why some of the most revered brands in the world are finding themselves on the wrong end of a bottle of spray paint, a computer hack, or an international anti-corporate campaign.

**No logo** - Naomi Klein 2014-04-15

Cómo pasó Bill Gates de trabajar en un garaje a convertirse en un magnate mundial? ¿Por qué el nombre de Nike suele identificarse con el trabajo clandestino y la explotación laboral? ¿Por qué algunas de las marcas más respetadas del mundo se están viendo acosadas por virulentas campañas en su contra? ¿Qué significa todo esto en el contexto del marketing actual y de la globalización? ¿Y qué nos dice sobre el futuro de nuestras comunidades y del mundo en que vivimos? Este libro es, a partes iguales, fruto de la investigación periodística y de la observación de nuestro entorno comercial. Su misión, en principio, es explicar la irritación que amplios sectores de la sociedad están empezando a sentir contra las grandes marcas, así como demostrar que las multinacionales han militarizado a sus oponentes. Pero, de paso, nos invita a un periplo fascinante: desde las más lujosas tiendas de ropa de las grandes ciudades a ciertos talleres de Indonesia en los que el trabajo se convierte en degradación, desde los grandes centros comerciales estadounidenses hasta los cuarteles de los activistas que atentan contra las vallas publicitarias o de los piratas informáticos que han declarado la guerra a las multinacionales que violan los derechos humanos en Asia. A través de un enfoque lúcido y honesto, Naomi Klein desenmascara a la llamada "nueva economía" y desvela el modo en que ha incumplido todas sus promesas. Y para ello no sólo utiliza anécdotas siempre

provocativas y a menudo hilarantes, sino que también nos descubre minuciosamente las razones de ese nuevo activismo contra las grandes empresas, un movimiento a escala mundial que ya se está convirtiendo en una verdadera fuerza sociopolítica con la que habrá que empezar a contar.

**The Sweet Science** - A. J. Liebling 2014-05-13

A.J. Liebling's classic New Yorker pieces on the "sweet science of bruising" bring vividly to life the boxing world as it once was. It depicts the great events of boxing's American heyday: Sugar Ray Robinson's dramatic comeback, Rocky Marciano's rise to prominence, Joe Louis's unfortunate decline. Liebling never fails to find the human story behind the fight, and he evokes the atmosphere in the arena as distinctly as he does the goings-on in the ring--a combination that prompted Sports Illustrated to name The Sweet Science the best American sports book of all time.

Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.

**Nonzero** - Robert Wright 2001-04-20

In his bestselling The Moral Animal, Robert Wright applied the principles of evolutionary biology to the study of the human mind. Now Wright attempts something even more ambitious: explaining the direction of evolution and human history--and discerning where history will lead us next. In Nonzero: The Logic of Human Destiny, Wright asserts that, ever since the primordial ooze, life has followed a basic pattern. Organisms and human societies alike have grown more complex by mastering the challenges of internal cooperation. Wright's narrative ranges from fossilized bacteria to vampire bats, from stone-age villages to the World Trade Organization, uncovering such surprises as the benefits of barbarian hordes and the useful stability of feudalism. Here is history endowed with moral significance--a way of looking at our biological and cultural evolution that suggests, refreshingly, that human morality has improved over time, and that our instinct to discover meaning may itself serve a higher purpose. Insightful, witty, profound, Nonzero offers breathtaking implications for what we believe and how we adapt to technology's ongoing transformation of the world.

**The Battle For Paradise** - Naomi Klein 2018-06-05

Fearless necessary reporting . . . Klein exposes the 'battle of utopias' that is currently unfolding in storm-ravaged Puerto Rico" (Junot Díaz, author of The Brief Wondrous Life of Oscar Wao) "We are in a fight for our lives. Hurricanes Irma and María unmasked the colonialism we face in Puerto Rico, and the inequality it fosters, creating a fierce humanitarian crisis. Now we must find a path forward to equality and sustainability, a path driven by communities, not investors. And this book explains, with careful and unbiased reporting, only the efforts of our community activists can answer the paramount question: What type of society do we want to become and who is Puerto Rico for?" —Carmen Yulín Cruz, Mayor of San Juan, Puerto Rico In the rubble of Hurricane Maria, Puerto Ricans and ultrarich "Puertopians" are locked in a pitched struggle over how to remake the island. In this vital and startling investigation, bestselling author and activist Naomi Klein uncovers how the forces of shock politics and disaster capitalism seek to undermine the nation's radical, resilient vision for a "just recovery." All royalties from the sale of this book in English and Spanish go directly to JunteGente, a gathering of Puerto Rican organizations resisting disaster capitalism and advancing a fair and healthy recovery for their island. "Klein chronicles the extraordinary grassroots resistance by the Puerto Rican people against neoliberal privatization and Wall Street greed in the aftermath of the island's financial meltdown, of hurricane devastation, and of Washington's imposition of an outside control board over the most important U.S. colony." —Juan González, cohost of Democracy Now! and author of Harvest of Empire: A History of Latinos in America

**Benjamin on Fashion** - Philipp Ekardt 2020-02-20

Benjamin on Fashion reconstructs and redefines Walter Benjamin's complex, fragmentary and yet influential fashion theory that he developed in the Arcades Project (1927-1940) and beyond, while situating it within the environment from which it emerged - 1930s Parisian couture. In this insightful new book, Philipp Ekardt brings Benjamin into discussion with a number of important, but frequently overlooked sources. Amongst many others, these include the German fashion critic Helen Grund, who introduced him to the contemporary fashion scene; Georg Simmel's fashion sociology; Henri Focillon's morphological art history; designs by Elsa Schiaparelli and Madeleine Vionnet; films by L'Herbier and others starring Mae West; and the photography of George Hoyningen-Huene and Man Ray. In doing so, Ekardt demonstrates how fashion and silhouettes became grounded in sex; how an ideal of the elegant animation of matter was pitted against the concept of an obdurate fashion form; and how Benjamin's idea of 'fashion's tiger's leap into the past' paralleled the return of 1930s couture to the depths of (fashion) history. The use of such relevant sources makes this crucial for understanding Benjamin both as a thinker and a cultural theorist.

**Love** - Tristan Sherwin 2015-10-23

You may be looking at the back of this book, watching as someone else is reading it—a book entitled: Love: Expressed. And you're thinking, 'They must have issues.' So to help them out for a moment: This isn't another one of those 'self-help' manuals. This isn't a book about romance and sex, or feelings and cuddles. This isn't a guidebook offering relationship advice, giving tips on how to find 'love' and 'look after' it. In those senses, this isn't even a book about love. It's a book about life—every part of it. About how it should be lived, how it should be explored, how it should be expressed. This is a book about meaning, about life's trajectories. It's about God. It's about you. It's about them. In that sense, this is all about love. But if I could capture here what I mean by 'love' in that sense, I wouldn't have needed to write a book. "Tristan Sherwin has written a smart and beautiful book showing us that Jesus Christ is the love of God expressed as a human life. This is the life we are called to imitate; this life of love is what we are made for." -Brian Zahnd; Author of A Farewell To Mars "Refreshing, authentic, inspiring, and yet practical—Tristan is a breath of fresh air." -Jeff Lucas; Author, Speaker, Broadcaster "Love: Expressed is a work of dirt-under-your-fingers spirituality." -Jonathan Martin; Author of Prototype

**The Next Age of Uncertainty** - Stephen Poloz 2022-02-22

NATIONAL BESTSELLER From the former Governor of the Bank of Canada, a far-seeing guide to the powerful economic forces that will shape the decades ahead. The economic ground is shifting beneath our feet. The world is becoming more volatile, and people are understandably worried about their financial futures. In this urgent and accessible guide to the crises and opportunities that lie ahead, economist and former Governor of the Bank of Canada Stephen Poloz maps out the powerful tectonic forces that are shaping our future, and the ideas that will allow us to master them. These forces include an aging workforce, mounting debt, and rising income inequality. Technological advances, too, are adding to the pressure, putting people out of work, and climate change is forcing a transition to a lower-carbon economy. It is no surprise that people are feeling uncertain. The implications of these tectonic tensions will cascade throughout every dimension of our lives—the job market, the housing market, the investment climate, as well as government and central bank policy, and the role of the corporation within society. The pandemic has added momentum to many of them. Poloz skillfully argues that past crises, from the Victorian Depression in the late 1800s to the more recent downturn in 2008, give a hint of what is in store for us in the decades ahead. Unlike the purely destructive power of earthquakes, the upheaval that is sure to come in the decades ahead will offer unexpected opportunities for renewal and growth. Filled with takeaways for employers, investors, and policymakers, as well as families discussing jobs and mortgage renewals around the kitchen table, *The Next Age of Uncertainty* is an indispensable guide for those navigating the fault lines of the risky world ahead.

**Consequences of Capitalism** - Noam Chomsky 2020-01-05

Is our "common sense" understanding of the world a reflection of the ruling class's demands of the larger society? If we are to challenge the capitalist structures that now threaten all life on the planet, Chomsky and Waterstone forcefully argue that we must look closely at the everyday tools we use to interpret the

world. Consequences of Capitalism make the deep, often unseen connections between common sense and power. In making these linkages we see how the current hegemony keep social justice movements divided and marginalized. More importantly, we see how we overcome these divisions.

**No Is Not Enough** - Naomi Klein 2017-06-13

The New York Times–bestselling roadmap to resistance in the Trump era from the internationally acclaimed activist and author of *On Fire* and *The Battle for Paradise*. The election of Donald Trump is a dangerous escalation in a world of cascading crises. Trump's vision—a radical deregulation of the US economy in the interest of corporations, an all-out war on "radical Islamic terrorism," and a sweeping aside of climate science to unleash a domestic fossil fuel frenzy—will generate wave after wave of crises and shocks, to the economy, to national security, to the environment. In *No Is Not Enough*, Naomi Klein explains that Trump, extreme as he is, is not an aberration but a logical extension of the worst and most dangerous trends of the past half-century. In exposing the malignant forces behind Trump's rise, she puts forward a bold vision for a mass movement to counter rising militarism, nationalism, and corporatism in the United States and around the world. Longlisted for the National Book Award "I hope that Klein's book is read by more than just her (mostly) leftwing fan base. For whatever you think about her economic arguments, she makes a powerful and an important point: that you cannot understand Trump without looking at how he reflects bigger cultural and social dynamics. And what is perhaps refreshing about *No Is Not Enough* is that Klein tries to move beyond mere outrage and hand-wringing to offer a practical manifesto for opposition." —Financial Times "Brimms with ideas rarely heard in the mainstream media. And her fiery, punchy writing style, which is occasionally laced with humor, makes it hard to put down." —The Georgia Straight

**The Commanding Heights** - Daniel Yergin 2008-12-26

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, *THE COMMANDING HEIGHTS* shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

*Winning the Green New Deal* - Varshini Prakash 2020-08-25

An urgent and definitive collection of essays from leaders and experts championing the Green New Deal—and a detailed playbook for how we can win it—including contributions by leading activists and progressive writers like Varshini Prakash, Rhiana Gunn-Wright, Bill McKibben, Rev William Barber II, and more. In October 2018, scientists warned that we have less than 12 years left to transform our economy away from fossil fuels, or face catastrophic climate change. At that moment, there was no plan in the US to decarbonize our economy that fast. Less than two years later, every major Democratic presidential candidate has embraced the vision of the Green New Deal—a rapid, vast transformation of our economy to avert climate catastrophe while securing economic and racial justice for all. What happened? A new generation of leaders confronted the political establishment in Washington DC with a simple message: the climate crisis is here, and the Green New Deal is our last, best hope for a livable future. Now comes the hard part: turning that vision into the law of the land. In *Winning a Green New Deal*, leading youth activists, journalists, and policymakers explain why we need a transformative agenda to avert climate catastrophe, and how our movement can organize to win. Featuring essays by Varshini Prakash, cofounder of Sunrise Movement; Rhiana Gunn-Wright, Green New Deal policy architect; Joseph Stiglitz, Nobel Prize-winning economist; Bill McKibben, internationally renowned environmentalist; Mary Kay Henry, the President of the Service Employees International Union, and others we'll learn why the climate crisis cannot be solved unless we also confront inequality and racism, how movements can redefine what's politically possible and overcome the opposition of fossil fuel billionaires, and how a Green New Deal will build a just and thriving economy for all of us. For anyone looking to understand the movement for a Green New Deal, and join the fight for a livable future, there is no resource as clear and practical as *Winning the Green New Deal*.

[What Were We Thinking](#) - Carlos Lozada 2021-10-12

In this “crisp, engaging, and very smart” (The New York Times Book Review) work, The Washington Post’s Pulitzer Prize-winning book critic digs into books of the Trump era and finds that our response to this presidency often reflects the same polarization, contradictions, and resentments that made it possible. It is an irony of our age that a man who rarely reads has unleashed an onslaught of books about his tenure and his time. Dissections of the white working class. Manifestos of political resistance. Works on identity, gender, and migration. Memoirs on race and protest. Revelations of White House mayhem. Warnings over the future of conservatism, progressivism, and of American democracy itself. As a book critic for The Washington Post, Carlos Lozada has read just about all of them. In *What Were We Thinking*, he draws on some 150 recent volumes to explore how we understand ourselves in the Trump era. Lozada’s characters are not the president, his advisers, or his antagonists but the political and cultural ideas at play—and at stake—in America. Just as Trump’s election upended the country’s political establishment, it shocked its intellectual class. Though some of the books of the Trump era skillfully illuminate the challenges and transformations the nation faces, too many works are more defensive than incisive, more righteous than right. Lozada offers a provocative argument: Whether written by liberals or conservatives, activists or academics, true believers or harsh critics, the books of Trump’s America are vulnerable to the same failures of imagination that gave us this presidency in the first place. In *What Were We Thinking*, Lozada’s selections range from bestselling titles to little-known works, from thoroughly reported accounts of the administration to partisan polemics, from meditations on the fate of truth to memoirs about enduring—or enabling—the Trump presidency. He also identifies books that challenge entrenched assumptions and shift our vantage points, the books that best help us make sense of this era. The result is an “elegant yet lacerating” (The Guardian) intellectual history of our time, a work that transcends daily headlines to discern how we got here and how we thought here. *What Were We Thinking* will help today’s readers understand America, and will help tomorrow’s readers look back and understand us.

Instant New York Times bestseller “Howard Zinn on acid or some bullsh\*t like that.” —Tim Heidecker The creators of the cult-hit podcast Chapo Trap House deliver a manifesto for everyone who feels orphaned and alienated—politically, culturally, and economically—by the lanyard-wearing Wall Street centrism of the left and the lizard-brained atavism of the right: there is a better way, the Chapo Way. In a guide that reads like “a weirder, smarter, and deliciously meaner version of The Daily Show’s 2004 America (The Book)” (Paste),

Chapo Trap House shows you that you don’t have to side with either sinking ships. These self-described “assholes from the internet” offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the “secret” history of the world, politics, media, and everything in-between that THEY don’t want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. A book that’s “as intellectually serious and analytically original as it is irreverent and funny” (Glenn Greenwald, New York Times bestselling author of *No Place to Hide*) *The Chapo Guide to Revolution* features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, “never before seen” drafts of Aaron Sorkin’s Newsroom manga, and the ten new laws that govern Chapo Year Zero (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you’re a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we’re in, then Chapo, let’s go...

[Just One Day](#) - Gayle Forman 2013

"Sparks fly when American good girl Allyson encounters laid-back Dutch actor Willem, so she follows him on a whirlwind trip to Paris, upending her life in just one day and prompting a year of self-discovery and the search for true love."--

[The Shock Doctrine](#) - Naomi Klein 2010-04-01

The bestselling author of *No Logo* shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. *The Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

[The Circle of Innovation](#) - Tom Peters 2010-09-08

Tom Peters--brilliant, original, and perhaps the most inspiring and listened-to business thinker of our time--has a lot on his mind these days. And he wants to share it in *The Circle of Innovation*. The world of business is in a permanent state of flux, he argues, a state of chaos in which constant innovation is the only survival strategy--for the individual and for the organization. And he presents here a lifesaving handbook--both provocative and practical--designed to turn any organization into a perpetual innovation machine. In 400 seminars in 47 states and 22 countries in the last five years, Peters has reexamined, refined, and reinvented his views on innovation. Now he brings those seminars--and his passion--to the reader in a landmark book. It is meant, he writes, to both "terrify" and "enlighten." These are "times of matchless peril for those who fail to grasp the nettle...and times of matchless opportunity for those who do." To keep us alert, limber, and ready for action, he provokes and cajoles in chapter after chapter. Among his institutions and revelations: *We Are All Michelangelos*. He shows how to transform every "jobholder" into a full-fledged businessperson. *All Value Comes from the Professional Services*. How to convert sluggish staff units into Vital Centers of Intellectual Capital Accumulation. *The System is the Solution*. *Chasing the Scream* - Johann Hari 2015-01-20

The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film *The United States vs. Billie Holiday* and the documentary series *The Fix*. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. *Chasing the Scream* is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

**Fences and Windows** - Naomi Klein 2010-08-27

*Fences and Windows: Dispatches from the Front Lines of the Globalization Debate* brings together two years of Naomi Klein's writings and tracks the globalization conflict from Seattle to September 11th and beyond. Since the publication of *No Logo*, Naomi Klein has continued tirelessly as a brilliant and informed contributor to contemporary debate. *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate*, intended as a companion to *No Logo*, includes her most notable essays, speeches and articles on issues from NAFTA to Genetically Modified Organisms to the violence in Genoa. It offers introduction and explanation, looking at where the movement has come from and where it is going. More than any other single voice, Naomi Klein articulates the concerns and complaints of a generation: about economic fundamentalism, the criminalization of dissent and the effects of Free Trade. But this book also reflects on the nature of resistance: the street protests that shocked and energized millions, carnival-style subversion and the apparent disorganization that is anti-globalization's great strength. *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate* is provocative, intelligent and passionate, a document, in its own right, of a unique time in our history.

**The Sponsored Life** - Leslie Savan 2010-06-17

How does a blatant lying in TV commercials—like Joe Isuzu's manic claims—create public trust in a product or a company? How does a company associated with a disaster, Exxon or Du Pont for example, restore its reputation? What is the real story behind the rendering of the now infamous Joe Camel? And what is the deeper meaning of living in an ad, ad, ad world? For a decade, journalist Leslie Savan has been exposing the techniques used by advertisers to push products and pump up corporate images. In the lively essays in this collection, Savan penetrates beneath the slick surfaces of specific ads and marketing campaigns to show how they reflect and shape consumer desires. Savan's interviews with ad agencies and corporate clients—along with her insightful analyses of influential TV spots—reveal how successful advertising works. Ads do more than command attention. They are signposts to the political, cultural, and social trends that infiltrate the individual consumer's psyche. Think of the products associated with corporate mascots—the drum-beating bunny, the cereal-pushing tiger, the doughboy—that have become pop culture icons. Think cool. Think of the clothing manufacturer that uses multiracial imagery. Think progressive. Buy their worldview, buy their product. When virtually every product can be associate with some positive self-image, we are subtly refashioned into the advertiser's concept of a good citizen. Like it or not, we lead "the sponsored life."
