**Into the Silence** - Wade Davis 2011-10-18

The definitive story of the British adventurers who survived the trenches of World War I and went on to risk their lives climbing Mount Everest. On June 6, 1924, two men set out from a camp perched at 23,000 feet on an ice ledge just below the lip of Everest's North Col. George Mallory, thirty-seven, was Britain's finest climber. Sandy Irvine was a twenty-two-year-old Oxford scholar with little previous mountaineering experience. Neither of them returned. Drawing on more than a decade of prodigious research, bestselling author and explorer Wade Davis vividly re-creates the heroic efforts of Mallory and his fellow climbers, setting their significant achievements in sweeping historical context: from Britain's nineteenth-century imperial ambitions to the war

that shaped Mallory's generation. There was a country broken, and the Everest expeditions emerged as a powerful symbol of national redemption and hope. In Davis's rich exploration, he creates a timeless portrait of these remarkable men and their extraordinary times.

Denali's Howl - Andy Hall 2015-04-28

In the summer of 1967, twelve young men ascended Alaska's Mount McKinley—known to the locals as Denali. Engulfed by a once-in-a-lifetime blizzard, only five made it back down. Andy Hall, a journalist and son of the park superintendent at the time, was living in the park when the tragedy occurred and spent years tracking down rescuers, survivors, lost documents, and recordings of radio communications. In Denali's Howl, Hall reveals the full story of the expedition in a powerful retelling that will mesmerize the climbing community as well as anyone interested in megastorms and man's sometimes deadly drive to

challenge the forces of nature.

**Blind Descent** - Brian Dickinson 2014

The author describes his harrowing journey descending Mount Everest while unable to see due to snowblindness, having only his Navy survival training, instinct, and faith on which to rely.

**Tears in the Wind** - Larry Semento 2016-05-26

An Extraordinary True Adventure Story "This is an incredible account of what it takes, physically and emotionally, to take on a climb like Denali.

The author endured so much on that mountain, and his description is vivid and emotional. I recommend this book to anyone. You don't have to be interested in climbing to enjoy this slice of adventure and terror. I could not recommend this book more!"-- K. Hymel In this riveting account of an expedition to climb Denali, the author describes how a childhood fascination with mountaineering led to the adventure of a lifetime. As an average middle-aged guy, he began mountain climbing as a pastime,

eventually signing on with a guided group to attempt an ascent of Denali. Formerly called Mt. McKinley, Denali is the highest peak in North America and well known for its vicious winds and dreadfully cold weather. During an expedition that was both triumphant and tragic, the team experienced the full force of the mountain's fury. They were forced to face life and death on terms that had a lasting effect on each of them. This is a rare peek into a world often shrouded in glamor and mystery. More than a description of the climb, this is an introspective look at the physical and mental demands of climbing a high mountain, and it provides thoughtful insight on the impact that this amazing adventure had on Larry and his family and friends. Come along on a journey from armchair to the top of the continent, and share in the drama of this epic journey. Enjoy!

**Snow in the Kingdom** - Ed Webster 2000

The story of Ed Webster's 5 years on and off of Everest.

*The Climb* - Anatoli Boukreev 2015-09-22  
Everest, the major motion picture from Universal Pictures, is set for wide release on September 18, 2015. Read *The Climb*, Anatoli Boukreev (portrayed by Ingvar Sigurðsson in the film) and G. Weston DeWalt's compelling account of those fateful events on Everest. In May 1996 three expeditions attempted to climb Mount Everest on the Southeast Ridge route pioneered by Sir Edmund Hillary and Tenzing Norgay in 1953. Crowded conditions slowed their progress. Late in the day twenty-three men and women-including expedition leaders Scott Fischer and Rob Hall-were caught in a ferocious blizzard. Disoriented and out of oxygen, climbers struggled to find their way down the mountain as darkness approached. Alone and climbing blind, Anatoli Boukreev brought climbers back from the edge of certain death. This new edition includes a transcript of the Mountain Madness expedition debriefing recorded five days after the tragedy, as well as G. Weston DeWalt's

response to *Into Thin Air* author Jon Krakauer.  
Buried in the Sky - Peter Zuckerman 2012-06-11  
Presents the stories of the sharps who have acted as expert consultants to Westerners climbing the Himalayas, focusing in particular on Chhiring Dorje Sherpa and Pasang Lama, who survived when 11 other climbers died on K2 in August 2008. 15,000 first printing.  
Dead Lucky - Lincoln Hall 2008-05-15  
Lincoln Hall's breathtaking account of surviving a night in Everest's "death zone." Lincoln Hall likes to say that on the evening of May 25, 2006, he died on Everest. Indeed, Hall attempted to climb the mountain during a deadly season in which eleven people perished. And he was, in fact, pronounced dead, after collapsing from altitude sickness. Two Sherpas spent hours trying to revive him, but as darkness fell, word came via radio from the expedition's leader that they should descend in order to save themselves. The news of Hall's death traveled rapidly from mountaineering websites to news media around

the world, and ultimately to his family back in Australia. Early the next morning, however, an American guide, climbing with two clients and a Sherpa, was startled to find Hall sitting cross-legged on a sharp crest of the summit ridge. In this page-turning account of survival against all odds, Hall chronicles in fascinating detail the days and nights that led up to his fateful night in Mount Everest's "death zone." His story is all the more miraculous given his climbing history. Hall had been part of Australia's first attempt to reach the top of Everest in 1984 but had not done any major climbing for many years, having set aside his passion in order to support his family. While others in the team achieved their dream during this 1984 expedition, Hall was forced to turn back due to illness. Thus, his triumph in reaching the summit at the age of fifty is a story unto itself. So, too, is Hall's description of his family's experience back in Australia, as sudden grief turned to relief and joy in a matter of hours. Rarely has there been

such a thrilling narrative of one man's encounter with the world's tallest mountain.

**Climbing High** - Lene Gammelgaard  
2000-06-20

On May 10, 1996, Lene Gammelgaard became the first Scandinavian woman to reach the summit of Mount Everest. But a raging storm and human error conspired to turn triumph into catastrophe. Eight of her team's climbers, including its renowned leader Scott Fischer, perished in a tragedy that would make headlines around the world. In her riveting account, Gammelgaard takes us from her weeks of determined training to the exhilaration of arriving in Nepal to the arduous climb and deadly storm that forced her and her fellow climbers to huddle throughout the night, hoping to stay alive. Gammelgaard also writes movingly of Everest's awesome beauty; of the passion and commitment required to face the daunting challenge of climbing to high altitudes; and of the complex personal relationships forged in the

pursuit of such dangerous ventures. Arlene Blum, author of the classic account of women and mountaineering, *Annapurna: A Woman's Place*, calls Climbing High "an honest and deeply personal account."

**Quit** - Annie Duke 2022-10-04

From the bestselling author of *Thinking in Bets* comes a toolkit for mastering the skill of quitting to achieve greater success. Business leaders, with millions of dollars down the drain, struggle to abandon a new app or product that just isn't working. Governments, caught in a hopeless conflict, believe that the next tactic will finally be the one that wins the war. And in our own lives, we persist in relationships or careers that no longer serve us. Why? According to Annie Duke, in the face of tough decisions, we're terrible quitters. And that is significantly holding us back. In *Quit*, Duke teaches you how to get good at quitting. Drawing on stories from elite athletes like Mount Everest climbers, founders of leading companies like Stewart Butterfield,

the CEO of Slack, and top entertainers like Dave Chappelle, Duke explains why quitting is integral to success, as well as strategies for determining when to hold em, and when to fold em, that will save you time, energy, and money. You'll learn: How the paradox of quitting influences decision making: If you quit on time, you will feel you quit early. What forces work against good quitting behavior, such as escalation commitment, desire for certainty, and status quo bias. How to think in expected value in order to make better decisions, as well as other best practices, such as increasing flexibility in goal-setting, establishing "quitting contracts," anticipating optionality, and conducting premortems and backcasts. Whether you're facing a make-or-break business decision or life-altering personal choice, mastering the skill of quitting will help you make the best next move.

*Dark Summit* - Nick Heil 2011-04-13

In the tradition of Jon Krakauer's *Into Thin Air*, Nick Heil recounts the harrowing story of the

deadly and controversial 2006 climbing season on Everest. In early May 2006, a young British climber named David Sharp lay dying near the top of Mount Everest while forty other climbers walked past him on their way to the summit. A week later, Lincoln Hall, a seasoned Australian climber, was left for dead near the same spot. Hall's death was reported around the world, but the next day he was found alive after spending the night on the upper mountain with no food and no shelter. If David Sharp's death was shocking, it was not singular: despite unusually good weather, ten others died attempting to reach the summit that year. In this meticulous inquiry into what went wrong, Nick Heil tells the full story of the deadliest year on Everest since the infamous season of 1996. He introduces Russell Brice, the outfitter who has done more than anyone to provide access to the summit via the mountain's north side—and who some believe was partially responsible for Sharp's death. As more climbers attempt the summit each year,

Heil shows how increasingly risky expeditions and unscrupulous outfitters threaten to turn Everest into a deadly circus. Written by an experienced climber and outdoor writer, *Dark Summit* is both a riveting account of a notorious climbing season and a troubling investigation into whether the pursuit of the ultimate mountaineering prize has spiraled out of control.

**The Next Everest** - Jim Davidson 2021-04-20

A dramatic account of the deadly avalanche on Everest—and a return to reach the summit. On April 25, 2015, Jim Davidson was climbing Mount Everest when a 7.8-magnitude earthquake released avalanches all around him and his team, destroying their only escape route and trapping them at nearly 20,000 feet. It was the largest earthquake in Nepal in eighty-one years and killed nearly 8,900 people. That day also became the deadliest in the history of Everest, with eighteen people losing their lives on the mountain. After spending two unsettling

days stranded on Everest, Davidson's team was rescued by helicopter. The experience left him shaken, and despite his thirty-three years of climbing and serving as an expedition leader, he wasn't sure that he would ever go back. But in the face of risk and uncertainty, he returned in 2017 and finally achieved his dream of reaching the summit. Suspenseful and engrossing, *The Next Everest* portrays the experience of living through the biggest disaster to ever hit the mountain. Davidson's background in geology and environmental science makes him uniquely qualified to explain why the seismic threats lurking beneath Nepal are even greater today. But this story is not about "conquering" the world's highest peak. Instead, it reveals how embracing change, challenge, and uncertainty prepares anyone to face their next "Everest" in life.

*The Mountain* - Ed Viesturs 2013-10-08

In national bestseller *The Mountain*, world-renowned climber and bestselling author Ed

Viesturs and cowriter David Roberts paint a vivid portrait of obsession, dedication, and human achievement in a true love letter to the world's highest peak. In *The Mountain*, veteran world-class climber and bestselling author Ed Viesturs—the only American to have climbed all fourteen of the world's 8,000-meter peaks—trains his sights on Mount Everest in richly detailed accounts of expeditions that are by turns personal, harrowing, deadly, and inspiring. The highest mountain on earth, Everest remains the ultimate goal for serious high-altitude climbers. Viesturs has gone on eleven expeditions to Everest, spending more than two years of his life on the mountain and reaching the summit seven times. No climber today is better poised to survey Everest's various ascents—both personal and historic. Viesturs sheds light on the fate of Mallory and Irvine, whose 1924 disappearance just 800 feet from the summit remains one of mountaineering's greatest mysteries, as well as the multiply tragic

last days of Rob Hall and Scott Fischer in 1996, the stuff of which *Into Thin Air* was made. Informed by the experience of one who has truly been there, *The Mountain* affords a rare glimpse into that place on earth where Heraclitus's maxim—"Character is destiny"—is proved time and again.

*Doctor on Everest* - Kenneth Kamler 2002-09-01

*Beyond Possible* - Nims Purja 2022-01-04

Nepali climber Nims Purja is the first man ever to summit all fourteen of the world's 8000 meter "Death Zone" peaks. He did so in less than seven months, breaking the previous record of seven years. In this spellbinding memoir, tied to the acclaimed Netflix documentary "14 Peaks," Purja reveals the man behind the climbs, explaining how his early life in Nepal and training as a soldier in Britain's elite Gurkha and SBS units allowed him to achieve a mountaineering mission few thought was attainable. Purja shows how leadership, integrity, and collaboration

drive world's greatest climbing feats, including the first-ever winter ascent of Pakistan's K2—another mountaineering milestone that he achieved in January 2021. Both profound and inspiring, this intimate book reveals what it takes to go miles beyond the possible.

**A Day to Die For** - Graham Ratcliffe 2011-02-03

On the night of 10-11 May 1996, eight climbers perished in what remains the worst disaster in Everest's history. Following the tragedy, numerous accounts were published, with Jon Krakauer's *Into Thin Air* becoming an international bestseller. But has the whole story been told? *A Day to Die For* reveals the full, startling facts that led to the tragedy. Graham Ratcliffe, the first British climber to reach the summit of Mount Everest twice, was a first-hand witness, having spent the night on Everest's South Col at 26,000 ft, sheltering from the deadly storm. For years, he has shouldered a burden of guilt, feeling that he and his teammates could have saved lives that fateful

night. His quest for answers has led to discoveries so important to an understanding of the disaster that he now questions why these facts were not made public sooner. History is dotted with high-profile disasters that both horrify and capture the attention of the public, but very rarely is our view of them revised to such devastating effect.

**Into the Wild** - Jon Krakauer 2009-09-22

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying...

Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most

of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest

that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

*Where Men Win Glory* - Jon Krakauer 2010-07-27  
NATIONAL BESTSELLER • A "gripping book about this extraordinary man who lived passionately and died unnecessarily" (USA

Today) in post-9/11 Afghanistan, from the bestselling author of *Into the Wild* and *Into Thin Air*. In 2002, Pat Tillman walked away from a multimillion-dollar NFL contract to join the Army and became an icon of American patriotism. When he was killed in Afghanistan two years later, a legend was born. But the real Pat Tillman was much more remarkable, and considerably more complicated than the public knew. Sent first to Iraq—a war he would openly declare was “illegal as hell” —and eventually to Afghanistan, Tillman was driven by emotionally charged, sometimes contradictory notions of duty, honor, justice, and masculine pride, and he was determined to serve his entire three-year commitment. But on April 22, 2004, his life would end in a barrage of bullets fired by his fellow soldiers. Though obvious to most of the two dozen soldiers on the scene that a ranger in Tillman’s own platoon had fired the fatal shots, the Army aggressively maneuvered to keep this information from Tillman’s family and the

American public for five weeks following his death. During this time, President Bush used Tillman's name to promote his administration's foreign policy. Long after Tillman's nationally televised memorial service, the Army grudgingly notified his closest relatives that he had "probably" been killed by friendly fire while it continued to dissemble about the details of his death and who was responsible. Drawing on Tillman's journals and letters and countless interviews with those who knew him and extensive research in Afghanistan, Jon Krakauer chronicles Tillman's riveting, tragic odyssey in engrossing detail highlighting his remarkable character and personality while closely examining the murky, heartbreaking circumstances of his death. Infused with the power and authenticity readers have come to expect from Krakauer's storytelling, *Where Men Win Glory* exposes shattering truths about men and war. This edition has been updated to reflect new developments and includes new material

obtained through the Freedom of Information Act.

**The Other Side of Everest** - Matt Dickinson  
2011-10-05

May 1996 began like most other climbing seasons on Mount Everest. The arrival of spring brought the usual pre-monsoon period, with teams of hopeful mountaineers ready to reach for the roof of the world. Among the dozens of climbers were Jon Krakauer and Anatoli Boukreev (who would both later write their own accounts of what followed) and Matt Dickinson. But on May 10, with ten different expeditions strung out along the mountain, the usual turned

deadly. Suddenly, the temperature dropped from merely frigid to 40 degrees below zero. A killer storm with howling winds swept in and climbers were soon blinded in white-out conditions.

Before it was over, the blizzard would claim a dozen lives, the worst loss of life in the modern history of climbing on Everest. Dickinson, an adventure filmmaker, was part of an expedition challenging the treacherous North Face of Everest, on the Tibetan side. Of the nearly 700 people who have scaled Everest since the first ascent in 1953, barely 230 have managed to ascend via the colder and technically more difficult route up the North Face. In addition to climbing through the storm, which would test him beyond his imagining, Dickinson also filmed the ascent. He and his team watched in awe as violent clouds gathered over the mountain and swept them all up in a frightening white force. Dickinson was a relative novice who had never climbed at this crushing altitude, and the storm preyed on his mind, throwing into question his

entire mission. Despite this uncertainty and the treacherous conditions, Dickinson and his partner Alan Hinkes continued their climb, compelled to reach the summit. Dickinson's first-person narrative--the only account of the killer storm written by a climber who was on the North Face--places the reader amid the swirl of the catastrophe, while providing rare insight into the very essence of mountaineering. The Other Side of Everest is a portrait of personal triumph set against the most disastrous storm to ever befall the world mountaineering community. Anyone who has ever pushed beyond familiar limits of physical and psychological endurance will cherish this book.

**Mount Everest** - Kevin Flynn 2006

A true story, warts and all, of what really happened to ad exec and amateur climber Kevin Flynn during his days at the top of the world. In May 2004, Flynn reached the summit of Mt. Everest - but not without tears, laughter, failures, near-death experiences and great

friendships. If you've ever wondered what it would be like for a mere mortal to attempt Mt. Everest, this book is as close as it gets.

Sheer Will - Michael Groom 1999

This is an updated and revised edition of the autobiography of extraordinary Australian mountaineer Michael Groom which we published in 1997. Even among the many achievement-against-all-setbacks books on the market, Michael Groom's story stands out. In 1987, he lost a third of both his feet to frostbite while climbing one of the world's highest mountains. He was told to forget about an active, outdoor life but by 1990 he had not only taught himself to walk again, he was back climbing the Himalayas. To increase the challenge, Michael climbs without supplementary oxygen, an extraordinary thing to do in the thin oxygen-deprived air at the top of the world. In 1999 Michael climbed Makalu in the Himalayas. Makalu is the fifth highest mountain in the world and it's generally considered to be a harder

climb than Everest, which is why so few people have done it. Michael is now one of the very few people in the world to have climbed all six of the six highest mountains. The book features two stunning 8-page colour photo sections, and has an introduction by respected mountaineer Lincoln Hall. Its appeal will reach far beyond those already interested in mountaineering--it is ideal for anyone with a taste for gripping biography, struggle-against-the-odds stories, inspirational books, or travel in Nepal.

**Above the Clouds** - Anatoli Boukreev  
2015-09-08

When Anatoli Boukreev died on the slopes of Annapurna on Christmas day, 1997, the world lost one of the greatest adventurers of our time. In *Above the Clouds*, both the man and his incredible climbs on Mt. McKinley, K2, Makalu, Manaslu, and Everest--including his diary entries on the infamous 1996 disaster, written shortly after his return--are immortalized. There also are minute technical details about the skill of

mountain climbing, as well as personal reflections on what life means to someone who risks it every day. Fully illustrated with gorgeous color photos, *Above the Clouds* is a unique and breathtaking look at the world from its most remote peaks.

**Into Thin Air** - Jon Krakauer 1998-11-12  
#1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to

exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for

himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer

recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and

disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

**Inscribed Identities** - Joan Ramon Resina  
2019-01-22

Autobiography is a long-established literary modality of self-exposure with commanding works such as Augustine's Confessions, Rousseau's book of the same title, and Salvador Dalí's paradoxical reformulation of that title in his Unspeakable Confessions. Like all genres with a distinguished career, autobiography has

elicited a fair amount of critical and theoretical reflection. Classic works by Käte Hamburger and Philippe Lejeune in the 1960s and 70s articulated distinctions and similarities between fiction and the genre of personal declaration. Especially since Foucault's seminal essay on "Self Writing," self-production through writing has become more versatile, gaining a broader range of expression, diversifying its social function, and colonizing new media of representation. For this reason, it seems appropriate to speak of life-writing as a concept that includes but is not limited to classic autobiography. Awareness of language's performativity permits us to read life-writing texts not as a record but as the space where the self is realized, or in some instances de-realized. Such texts can build identity, but they can also contest ascribed identity by producing alternative or disjointed scenarios of identification. And they not only relate to the present, but may also act upon the past by virtue

of their retrospective effects in the confluence of narrator and witness.

*False Summit* - Julie Rak 2021-04-14

The race to climb Everest catapulted mountain climbing, with its accompanying images of conquest and sport, into the public sphere on a global scale. But as a metaphor for the pinnacle of human achievement, mountaineering remains the preserve of traditional white male heroism. *False Summit* unpacks gender politics in the expedition narratives and memoirs of mountaineers in the Himalayas and the Karakoram. Why are women still a minority in the world's highest places? Julie Rak proposes that the genre has itself reached a "false summit" - a peak that proves not to be the pinnacle - and that mountaineering is not ready to welcome other ways of climbing or other kinds of climbers. For more than two centuries mountaineering, as an activity and as an ideal, has helped shape how the self is understood within the context of conquest, adventure, and

proximity to risk. As climbing shows signs of becoming more diverse, Rak asks why change is so hard to achieve and why gender bias and other inequities exist in climbing at all.

Exploring classic and lesser-known expedition accounts from Everest, K2, and Annapurna, *False Summit* helps us understand why mountaineering remains one of the most important ways to articulate gender identities and politics.

*The Death Zone* - Matt Dickinson 1999

Ten expeditions were on Everest. They set out in perfect conditions on 10 May 1996. But twenty-four hours later, eight climbers were dead and a further three were to die. On the North Face, a British expedition found itself in the storm. Filmmaker Matt Dickinson and climber Alan Hinkes battled through hurricane-force winds to reach the summit.

*Arc of Justice* - Kevin Boyle 2007-04-01

An electrifying story of the sensational murder trial that divided a city and ignited the civil

rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and

movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc of Justice* is the winner of the 2004 National Book Award for Nonfiction.

*When Breath Becomes Air* - Paul Kalanithi

2016-01-12

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the

future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and

everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can’t go on. I’ll go on.’” When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

could. A woman driven to succeed just to secure a future for herself and her family. \_\_\_\_\_ 'A riveting and incredibly moving story' *Irish News* 'Few realized the extent of her inner turmoil - and her courage. **The Storms** - Mike Trueman 2015-05-01  
In August 1979 twenty-seven-year-old Mike Trueman set sail from the south-west coast of Wales, en route to Cornwall. The young army helicopter pilot was helping to move his friend's yacht from Northern Ireland to the south coast of England. But as they sailed out into the Irish Sea, the sky turned progressively darker and the winds gathered pace. Over the next twenty-four hours the two young sailors battled to survive force-10 gales in what became known as the

Fastnet disaster and which claimed the lives of fifteen sailors off the coast of Ireland. Almost seventeen years later, Trueman was at Camp 2 at 6,400 metres on Mount Everest as the May 1996 tragedy unfolded high above him. As stricken guides, clients and Sherpas tried to survive the fierce storms which engulfed the upper mountain, Trueman was able to descend and - using his twenty-four years of experience as an officer in the British Army - coordinate the rescue effort from Base Camp. *The Storms* is the remarkable memoir of a British Army Gurkha officer. Trueman, a veteran of twenty expeditions to the Himalaya, gives a candid account of life inside expeditions to the highest mountain in the world. He gives a unique personal perspective on the 1996 Everest storm, as well as on the fateful day in May 1999 when Briton Mike Matthews disappeared high on the mountain after he and Trueman had summited. *Left for Dead (Movie Tie-in Edition)* - Beck Weathers 2015-09-15

With a new preface by the author • As featured in the upcoming motion picture *Everest*, starring Jason Clarke, Josh Brolin, John Hawkes, Robin Wright, Emily Watson, Keira Knightley, Sam Worthington, and Jake Gyllenhaal “I can tell you that some force within me rejected death at the last moment and then guided me, blind and stumbling—quite literally a dead man walking—into camp and the shaky start of my return to life.” In 1996 Beck Weathers and a climbing team pushed toward the summit of Mount Everest. Then a storm exploded on the mountain, ripping the team to shreds, forcing brave men to scratch and crawl for their lives. Rescuers who reached Weathers saw that he was dying, and left him. Twelve hours later, the inexplicable occurred. Weathers appeared, blinded, gloveless, and caked with ice—walking down the mountain. In this powerful memoir, now featuring a new Preface, Weathers describes not only his escape from hypothermia and the murderous storm that killed eight

climbers, but the journey of his life. This is the story of a man's route to a dangerous sport and a fateful expedition, as well as the road of recovery he has traveled since; of survival in the face of certain death, the reclaiming of a family and a life; and of the most extraordinary adventure of all: finding the courage to say yes when life offers us a second chance. Praise for Left for Dead "Riveting . . . [a] remarkable survival story . . . Left for Dead takes a long, critical look at climbing: Weathers is particularly candid about how the demanding sport altered and strained his relationships."—USA Today "Ultimately, this engrossing tale depicts the difficulty of a man's struggle to reform his life."—Publishers Weekly

**The Third Pole** - Mark Synnott 2022-04-05  
\*\*\*NPR Books We Love selection\*\*\* "If you're only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure."—Outside Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up

Mount Everest during the spring 2019 season that came to be known as "the Year Everest Broke." What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest's summit still "going strong" for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using

drones higher than any had previously flown. Readers witness first-hand how Synnott's quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

*After the Wind* - Lou Kasischke 2015-10-08

In the spring of 1996, Lou Kasischke joined renowned climber Rob Hall's Mount Everest expedition. When he said goodbye to his wife,

Sandy, he knew he faced major physical and mental challenges against rock, snow, ice, avalanches, and extreme high altitude to climb the highest mountain in the world. What Lou didn't know was that he also stood at the threshold of a living hell. Six weeks later near the top, things went wrong. Lou and his fellow climbers faced a challenge even greater than the mountain -- the internal struggle about what to do when you are close but out of time. There were no second chances. Decisions were made. Some lived. Some died. It was the worst tragedy in Mount Everest history. Lou wrote his account of the events 16 years ago in the aftermath of the tragedy, but only now is he ready to let it go. He tells two stories. One is about the historic events. His perspective and analysis about what happened and what went wrong have never been told, and his account differs markedly from what others have written. The truth in the story depends on who is telling it. Lou Kasischke believes that some of the truth may never be

told. Lou also tells a very personal story about how he came back home. An inspiring story about where to go for inner strength when

facing a tough decision. A story about his wife Sandy's part in his survival. A story about what he heard, after the wind -- the voice of the heart. A love story.
