The Lawful and the Prohibited in Islam -

Yusuf al-Qaradawi 2013-10-11

Since its first publication in 1960, this famous work by Yusuf al-Qaradawi has enjoyed a huge readership in the Muslim world, and has been translated into many languages. It dispels the ambiguities surrounding the Sharī'ah to fulfil the essential needs of the Muslims in this age. It clarifies the ḥalāl (lawful) and why it is ḥalāl, and the ḥarām (prohibited) and why it is ḥarām, referring to the Qur'an and the Sunnah of the Prophet. It answers questions which may face the Muslims today, and refutes the ambiguities and lies about Islam. Dr al-Qaradawi delves into

the authentic references in Islamic jurisprudence, extracting judgements of interest to contemporary Muslims in the areas of worship, business dealings, family life, food and drink, dress and ornaments, patterns of behaviour, individual and group relations, family and social ethics, habits and social customs.

The Land of Five Towers (English Edition) - A. Fuadi 2013-12-17
"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for

fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The

Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. Birth of the Persian Empire - Vesta Sarkhosh Curtis 2010-01-08

Of the great ancient civilizations, that of Persia is the least known and the most enigmatic. This book explores the formation of the first Persian Empire under the Achaemenid Persians. It

brings together a multi-disciplinary view of ancient Iran in the first millennium BC and concentrates on the art, archaeology, history and religion of a geographical area far beyond the present borders of modern Iran in the period beginning just before the formation of the Persian empire in the middle of the 6th century up to its collapse following conquest by Alexander the Great in the late 4th century BC. Eminent scholars here give a critical approach to some of the traditional interpretations and discuss topics which help the reader towards a better understanding of the formation of the Persian empire. This is the first volume in the "Idea of Iran" series which will be a four-volume collection encompassing the history of that country.

Debriefing the President - John Nixon
2016-12-27

Debriefing the President presents an astounding, candid portrait of one of our era's most notorious strongmen. John Nixon, the first man to conduct a prolonged interrogation of Hussein after his capture, offers expert insight into the history and mind of America's most enigmatic enemy. In December 2003, after one of the

largest, most aggressive manhunts in history, US military forces captured Iraqi president Saddam Hussein near his hometown of Tikrit. Beset by body-double rumors and false alarms during a nine-month search, the Bush administration needed positive identification of the prisoner before it could make the announcement that would rocket around the world. At the time, John Nixon was a senior CIA leadership analyst who had spent years studying the Iraqi dictator. Called upon to make the official ID, Nixon looked for telltale scars and tribal tattoos and asked Hussein a list of questions only he could answer. The man was indeed Saddam Hussein, but as Nixon learned in the ensuing weeks, both he and America had greatly misunderstood just who Saddam Hussein really was. After years of parsing Hussein's leadership from afar, Nixon faithfully recounts his debriefing sessions and subsequently strips away the mythology surrounding an equally brutal and complex man. His account is not an apology, but a sobering

examination of how preconceived ideas led Washington policymakers—and the Bush White House—astray. Unflinching and unprecedented, *Debriefing the President* exposes a fundamental misreading of one of the modern world's most central figures and presents a new narrative that boldly counters the received account.

100 Birds and How They Got Their Names -
Diana Wells 2001-10-30

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers-- from Coleridge's albatross in "The Ancient

Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

novel *The Monkey Wrench Gang*, are back—and not a moment too soon” (The New York Times). George Washington Hayduke III, ex-Green Beret, was last seen clinging to a rock face in the wilds of Utah as an armed posse hunted him down for his eco-radicalist crimes. Now he’s back, with a fiery need for vengeance . . . This sequel to Edward Abbey’s cult classic brings back the old gang of environmental warriors, as they battle a fundamentalist preacher intent on turning the Grand Canyon into a uranium mine—in “a fine novel, combative and comic, anarchistic and ultimately redemptive” (Albuquerque Journal). “I laughed out loud reading this book.” —Los Angeles Times

The Monkey Wrench Gang - Edward Abbey
2011-08-19

A motley crew of saboteurs wreak outrageous havoc on the corporations destroying America's Western wilderness in this classic, comic extravaganza. When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The

pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, *The Monkey Wrench Gang* is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los

Angeles Times Book Review that we should all
“praise the earth for Edward Abbey!”

Raumanen - Marianne Katoppo 2018-12

Raumanen, a prize-winning novel by Marianne Katoppo, tells the story of Monang, a handsome but wayward Batak man, and Raumanen, a young Minahasa woman who, though educated and intelligent, is also a 'soft touch' when it comes to love. As is deftly revealed by the author in this novel, even in modern day Indonesia, matters of religion and ethnicity can greatly affect--for better or worse--the course of a couple's relationship.
