The Philosophy Handbook - Lennox Johnson 2019-10-09

Featuring ten beginner-friendly readings from classic works of philosophy and a collection of over 100 quotations, The Philosophy Handbook distils the greatest insights from the history of philosophy into one compact volume. Each reading in this collection addresses an issue that philosophers have been grappling with for centuries, including: Socrates on the Unexamined Life Plato on the Human Condition Epictetus on Reason and Emotion John Stuart Mill on Freedom and Individuality Bertrand Russell on the Value of Philosophy The Philosophy Handbook is an essential collection for anyone seeking to use philosophy to understand to the big questions in life.

Aristotle and Atlantis - Thorwald C. Franke 2012-10-15

Aristotle considered Plato's Atlantis to be an invention; so we read time and again - but is this really true? Until the late 19th century, academia still held the opposite opinion. How did this shift in opinion take place? And was it justified? Over 100 works from the Atlantis and Aristotle literature, from antiquity to the Renaissance, from the 18th to the 21st century, were examined in order to track down the truth. A scientific adventure regarding Aristotle's opinion about Atlantis unfolds step by step, starting 200 years ago and reaching into the present. What did the great philosopher and disciple of Plato really think? All the relevant passages from Aristotle's works as well as all the steps taken during the literary research are documented in the appendix.

Game of Thrones and Philosophy - Henry Jacoby 2012-03-13

An in-depth look at the philosophical issues behind HBO's Game of Thrones television series and the books that inspired it George R.R. Martin's New York Times bestselling epic fantasy book series, A Song of Ice and Fire, and the HBO television show adapted from it, have earned critical acclaim and inspired fanatic devotion. This book delves into the many philosophical questions that arise in this complex, character-driven series, including: Is it right for a "good" king to usurp the throne of a "bad" one and murder his family? How far should you go to protect your family and its secrets? In a fantasy universe with medieval mores and ethics, can female characters reflect modern feminist ideals? Timed for the premiere of the second season of the HBO Game of Thrones series Gives new perspectives on the characters, storylines, and themes of Game of Thrones Draws on great philosophers from ancient Greece to modern America to explore intriguing topics such as the strange creatures of Westeros, the incestuous relationship of Jaime and Cersei Lannister, and what the kings of Westeros can show us about virtue and honor (or the lack thereof) as they play their game of thrones Essential reading for fans, Game of Thrones and Philosophy will enrich your experience of your favorite medieval fantasy series.

The Naturally Good Man - Rod E. Keays 2013-03-13

Men inherit definitions about manhood, but many of these definitions no longer fit. A society that was once based on power, assumptions, and stereotypes is changing. Few people take time to learn about the history of male oppression, the foundations of male masculinity, and the evolution of the modern man. Join author Rod E. Keays as he examines these important topics and more, including why boys and men accept certain roles; why men bully each other; why its important to deal with emotions; and why its so hard for men to talk about sexuality. Keays explores his own experiences coping with the twists and turns that come with being a man. One thing he learns early on is that most men dont talk about their emotional highs and lows.

As someone who likes to talk openly and frankly, he feels isolated, but he continues living life on his terms. Discover what good men have been doing for thousands of years and how mens groups can help men achieve their goals. The world may have its share of problems, but The Naturally Good Man continues to contribute to society.

Feminism And Philosophy - Nancy Tuana 2018-02-06

The past twenty years have seen an explosion of work by feminist philosophers and several surveys of this work have documented the richness of the many different ways of doing feminist philosophy. But this major new anthology is the first broad and inclusive selection of the most important work in this field. There are many unanswered questions about the future of feminist philosophy. Which of the many varieties of feminist philosophy will last, and which will fade away? What kinds of accommodations will be possible with mainstream non-feminist philosophy? Which will separate themselves and flourish on their own? To what extent will feminists change the topics philosophers address? To what extent will they change the very way in which philosophy is done? However these questions are answered, it is clear that feminist philosophy is having and will continue to have a major impact on the discipline of philosophy. This volume is the first to allow the scholar, the student, and other interested readers to sample this diverse literature and to ponder these questions for themselves. Organized around nine traditional "types" of feminist philosophy, Feminism and Philosophy is an imaginatively edited volume that will stimulate readers to explore many new pathways of understanding. It marks a defining moment in feminist philosophy, and it will be an essential text for philosophers and for feminist theorists in many other fields.

The Cambridge Companion to Plato - Richard Kraut 1992-10-30

Fourteen new essays discuss Plato's views about knowledge, reality, mathematics, politics, ethics, love, poetry, and religion in a convenient, accessible guide that analyzes the intellectual and social background of his thought as well.

The Philosopher's Handbook - Stanley Rosen 2009-02-19

An ideal introduction for the casual reader and a beneficial reference for the student, The Philosopher's Handbook features the writings of some of the world's most influential philosophers. Based on the premise that all human beings are curious about their existence, Rosen's collection brings together primary excerpts from the works of prominent thinkers such as Plato, Nietzsche, Descartes, Machiavelli, and Kant. Experts in each field have carefully selected the sources and provided brief introductions to help readers gain insight into the readings. Newly revised in order to emphasize its broad appeal, The Philosopher's Handbook is a solid introduction to Western philosophy for all inquiring minds.

Stories of Peace Volume II - Christian C. Anieke 2016-08-17

This volume represents a collection of stories and essays that highlight the importance of creating and sustaining peace. Put together, the contributions here propose that peace can be created and sustained through people's actions. Likewise, some actions could lead to violence. If we can vanquish the vices of envy, distrust, greed, and their like, and if we support social and economic justice and come together in charity, we can intentionally bring peace to our lives, homes, institutions, and communities. If we are socially responsible, we shall indeed work together for social justice, and, thus, create and sustain peace. The loud and deferring voices of conflicts, wars, and terrorism must continue to be drowned out by strong

voices of peace. As part of the effort to make peace heard in order to match the voices and stories of war and terrorism, this book collects these stories of peace to inspire the reader to work for peace and join the community of people sharing peace stories.

Complete Works - Plato 1997-01-01

Gathers translations of Plato's works and includes guidance on approaching their reading and study

Routledge Philosophy Guidebook to Plato and the Republic - Nickolas Pappas 2003

In the second edition of this title, Nickolas Pappas extends his exploration of Plato's text to include substantial revisions and new material. The chapters on Plato's ethics and politics have been revised and enlarged to include two brand new sections, plus further discussion of Plato on aesthetics.

Social and Political Philosophy - John Somerville 2012-09-12

An anthology of basic statements by the most influential social and political philosophers of Western civilization. Includes Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, Jefferson, Thoreau, Mill, Marx and Engels, Lenin, Mussolini, Hitler, Dewey, and Gandhi.

Plato: A Very Short Introduction - Julia Annas 2003-02-13

This lively and accessible introduction to Plato focuses on the philosophy and argument of his writings, drawing the reader into Plato's way of doing philosophy, and the general themes of his thinking. This is not a book to leave the reader standing in the outer court of introduction and background information, but leads directly into Plato's argument. It looks at Plato as a thinker grappling with philosophical problems in a variety of ways, rather than a philosopher with a fully worked-out system. It includes a brief account of Plato's life and the various interpretations that have been drawn from the sparse remains of information. It stresses the importance of the founding of the Academy and the conception of philosophy as a subject. Julia Annas discusses Plato's style of writing: his use of the dialogue form, his use of what we today call fiction, and his philosophical transformation of myths. She also looks at his discussions of love and philosophy, his attitude to women, and to homosexual love, explores Plato's claim that virtue is sufficient for happiness, and touches on his arguments for the immortality of the soul and his ideas about the nature of the universe.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Reading Plato - Thomas Alexander Szlezák 1999

Reading Plato offers a concise and illuminating insight into the complexities and difficulties of the Platonic dialogues, providing an invaluable text for any student of Plato's philosophy. Taking as a starting point the critique of writing in the Phaedrus -- where Socrates argues that a book cannot choose its reader nor can it defend itself against misinterpretation -- Reading Plato offers solutions to the problems of interpreting the dialogues. In this ground-breaking book, Thomas A. Szlezak persuasively argues that the dialogues are designed to stimulate philosophical enquiry and to elevate philosophy to the realm of oral dialectic.

Philosophies of Art and Beauty - Albert Hofstadter 2009-02-04

This anthology is remarkable not only for the selections themselves, among which the Schelling and the Heidegger essays were translated especially for this volume, but also for the editors' general introduction and the introductory essays for each selection, which make this volume an invaluable aid to the study of the powerful, recurrent ideas concerning art, beauty, critical method, and the nature of representation.

Because this collection makes clear the ways in which the philosophy of art relates to and is part of general philosophical positions, it will be an essential sourcebook to students of philosophy, art history, and literary criticism.

A Brief History of the Paradox - Roy Sorensen 2003-12-04

Can God create a stone too heavy for him to lift? Can time have a beginning? Which came first, the chicken or the egg? Riddles, paradoxes, conundrums--for millennia the human mind has found such knotty logical problems both perplexing and irresistible. Now Roy Sorensen offers the first narrative history of paradoxes, a fascinating and eye-opening account that extends from the ancient Greeks, through the Middle Ages, the Enlightenment, and into the twentieth century. When Augustine asked what God was doing before He made the world, he was told: "Preparing hell for people who ask questions like that." A Brief History of the

Paradox takes a close look at "questions like that" and the philosophers who have asked them, beginning with the folk riddles that inspired Anaximander to erect the first metaphysical system and ending with such thinkers as Lewis Carroll, Ludwig Wittgenstein, and W.V. Quine. Organized chronologically, the book is divided into twenty-four chapters, each of which pairs a philosopher with a major paradox, allowing for extended consideration and putting a human face on the strategies that have been taken toward these puzzles. Readers get to follow the minds of Zeno, Socrates, Aquinas, Ockham, Pascal, Kant, Hegel, and many other major philosophers deep inside the tangles of paradox, looking for, and sometimes finding, a way out. Filled with illuminating anecdotes and vividly written, A Brief History of the Paradox will appeal to anyone who finds trying to answer unanswerable questions a paradoxically pleasant endeavor.

The Philosopher's Handbook - Stanley Rosen 2003-04-08

An ideal introduction for the casual reader and a beneficial reference for the student, The Philosopher's Handbook features the writings of some of the world's most influential philosophers. Based on the premise that all human beings are curious about their existence, Rosen's collection brings together primary excerpts from the works of prominent thinkers such as Plato, Nietzsche, Descartes, Machiavelli, and Kant. Experts in each field have carefully selected the sources and provided brief introductions to help readers gain insight into the readings. Newly revised in order to emphasize its broad appeal, The Philosopher's Handbook is a solid introduction to Western philosophy for all inquiring minds.

The Little Book of Philosophy - Rachel Poulton 2021-10-05

If you want to know your Socrates from your Sartre and your Confucius from your Kant, strap in for this whirlwind tour of the highlights of philosophy. Including accessible primers on: The early Ancient Greek philosophers and the 'big three': Socrates, Plato and Aristotle Key schools of philosophy and their impact on modern life Insights into the main questions philosophers have explored over the years: Who am I? What is the meaning of life? Do I have free will? Practical applications for the theories of Descartes, Kant, Wollstonecraft, Marx, Nietzsche and many more. This illuminating little book will introduce you to the key thinkers, themes and theories you need to know to understand how human ideas have sculpted the world we live in and the way we think today.

Research Handbook on Law and Religion - Rex Ahdar 2018-09-28

Offering an interdisciplinary, international and philosophical perspective, this comprehensive Research Handbook explores both perennial and recent legal issues that concern the modern state and its interaction with religious communities and individuals.

Plato - Constance Meinwald 2016-05

In this outstanding introduction, Constance Meinwald covers all of Plato's philosophy and shows how he shaped the landscape of Western philosophy. Beginning with a helpful overview of what is known about Plato's life and times, she clearly explains and assesses Plato's fundamental arguments and ideas. These include the importance of Plato's view of what philosophy is and the distinctive way in which his most important arguments are presented in dialogues; his theories of ethics addressed through the fundamental and enduring questions happiness and virtue; his influential treatments of the soul and immortality; the lasting contributions he made to the study of metaphysics and the nature of knowledge through his theory of the Forms; and his enduring and controversial insights into political and social thought in the context of his theories of human nature. Throughout, Constance Meinwald draws expertly on Plato's most important dialogues to present a thorough and lively picture of his philosophy. Essential reading for students of ancient philosophy and Classics, Plato is an ideal introduction to arguably the greatest of all Western philosophers.

Plato - Constance Meinwald 2016-05-05

In this engaging introduction, Constance Meinwald shows how Plato has shaped the landscape of Western philosophy. She provides much-needed historical context, and helps readers grapple with Plato's distinctive use of highly crafted literary masterpieces for philosophical purposes. Meinwald examines some of Plato's most famous discussions of human questions, concerning *erōs*, the capacities and immortality of our psyche, human excellence and the good life, and Plato's controversial ideas about culture, society, and political organization. She shows how Plato makes a sketch of his theory of Forms foundational in this work, and she offers illuminating readings of texts concerned with the development of the theory and its

relationship to Greek science and mathematics. Throughout, Meinwald draws expertly on Plato's dialogues to present a lively and accessible picture of his philosophy. Including a chronology, glossary of terms, and suggestions for further reading, Plato is an ideal introduction to arguably the greatest of all Western philosophers, and is essential reading for students of ancient philosophy and classics.

Princeton Readings in Political Thought - Mitchell Cohen 2018-07-31

A thoroughly updated and substantially expanded edition of an acclaimed anthology This is a thoroughly updated and substantially expanded new edition of one of the most popular, wide-ranging, and engaging anthologies of Western political thinking, one that spans from antiquity to the twenty-first century. In addition to the majority of the pieces that appeared in the original edition, this new edition features exciting new selections from more recent thinkers who address vital contemporary issues, including identity, cosmopolitanism, global justice, and populism. Organized chronologically, the anthology brings together a fascinating array of writings—including essays, book excerpts, speeches, and other documents—that have indelibly shaped how politics and society are understood. Each chronological section and thinker is presented with a brief, lucid introduction, making this a valuable reference as well as an essential reader. A thoroughly updated and substantially expanded edition of an acclaimed anthology of political thought Features a wide range of thinkers, including Thucydides, Plato, Aristotle, Cicero, Augustine, Aquinas, Christine de Pizan, Machiavelli, Luther, Calvin, Hobbes, Spinoza, Locke, Swift, Hume, Rousseau, Adam Smith, Jefferson, Burke, Olympe de Gouges, Wollstonecraft, Kant, Hegel, Bentham, Mill, de Tocqueville, Frederick Douglass, Lincoln, Marx, Nietzsche, Lenin, John Dewey, Gaetano Mosca, Roberto Michels, Weber, Emma Goldman, Freud, Einstein, Mussolini, Arendt, Hayek, Franklin D. Roosevelt, T. H. Marshall, Orwell, Leo Strauss, de Beauvoir, Fanon, Martin Luther King Jr., Malcolm X, Havel, Fukuyama, Habermas, Foucault, Rawls, Nozick, Walzer, Iris Marion Young, Martha Nussbaum, Peter Singer, Amartya Sen, and Jan-Werner Müller Includes brief introductions for each thinker

Big Ideas for Little Philosophers: Kindness with Confucius - Duane Armitage 2021-07-20

Explore the importance of kindness with the youngest readers in a wonderfully accessible way. Even little children have big questions about life. Confucius believed always treating people with kindness can make us wise, and Kindness with Confucius brings his philosophy to the youngest thinkers. He believed we should use our own feelings as a guide to how to treat others. We feel good when people are kind to us and should want to make others feel that way. Emphasizing the importance of being in touch with your own emotions in order to be kind to others, this book will lead to inspiring conversations about human dynamics between people of all ages. Look for all six Big Ideas for Little Philosophers board books: Equality with Simone de Beauvoir, Happiness with Aristotle, Imagination with René Descartes, Kindness with Confucius, Love with Plato, and Truth with Socrates.

Ancient Philosophy - Nick Smith 2008-02-04

Part of The Blackwell Readings in Philosophy Series, this survey of ancient philosophy explores the scope of ancient philosophy, focusing on the key philosophers and their texts, examining how the foundations of philosophy as we know it were laid. Focuses on the key philosophers and their texts, from Pre-Socratic thinkers through to the Neo-Platonists Brings together the key primary writings of Thales, Xenophanes, Parmenides, Anaxagoras, Gorgias, Plato, Aristotle, Epicurus, Lucretius, Seneca, Sextus Empiricus, Plotinus, and many others Is broken down into eight chronological sections for easy comprehension and comparison The readings are accompanied by expert commentary from the editors

Breakfast With Socrates - Robert Rowland Smith 2010-08-06

What does it mean to be awake? What exactly is therapeutic about retail therapy? And what are you really working on when you're at your desk, in the gym, or having dinner? From getting ready in the morning, through heading to work, going to a party, having sex and falling back to sleep, Breakfast with Socrates provides an hour-by-hour commentary on what history's greatest philosophers have said about the meaning behind everything we do. A fascinating exploration of our daily lives, Breakfast with Socrates also draws on literature, art, politics and psychology to offer an informal introduction to the history of ideas that will help anyone to think more healthily. Breakfast will never be the same again...

History of Ethics - Daniel Star 2019-05-06

Is there an objective moral standard that applies to all our actions? To what extent should I sacrifice my

own interests for the sake of others? How might philosophers of the past help us think about contemporary ethical problems? As the most recent addition to the Blackwell Readings in Philosophy series, History of Ethics: Essential Readings with Commentary brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume. Editors Star and Crisp, noted scholars in their fields, expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection, and connect them to broader themes. These detailed and incisive editorial commentaries make the primary source texts accessible to students while guiding them chronologically through the history of Western ethics. Structured around a thematic table of contents divided into three distinct sections, History of Ethics charts patterns in the development of ethical thought across time to highlight connections between intellectual movements. Selections range from the work of well-known figures such as Plato, Aristotle, Nietzsche, and Mill to the work of philosophers often overlooked by such anthologies, including Butler, Smith, Sidgwick, Anscombe, Foot, and Frankena. Star and Crisp skillfully arrange the collection to connect readings to contemporary issues and interests by featuring examples such as Aquinas on self-defense and the doctrine of double effect, Kant on virtue, and Mill's The Subjection of Women. Written for students and scholars of ethics, History of Ethics is a comprehensive collection of readings with expert editorial commentary that curates the most important and influential work in the history of ethics in the Western world.

The Essence of Truth - Martin Heidegger 2002-06-18

The Essence of Truth must count as one of Heidegger's most important works, for nowhere else does he give a comparably thorough explanation of what is arguably the most fundamental and abiding theme of his entire philosophy, namely the difference between truth as the "unhiddenness of beings" and truth as the "correctness of propositions". For Heidegger, it is by neglecting the former primordial concept of truth in favor of the latter derivative concept that Western philosophy, beginning already with Plato, took off on its "metaphysical" course towards the bankruptcy of the present day. This first ever translation into English consists of a lecture course delivered by Heidegger at the University of Freiburg in 1931-32. Part One of the course provides a detailed analysis of Plato's allegory of the cave in the Republic, while Part Two gives a detailed exegesis and interpretation of a central section of Plato's Theaetetus, and is essential for the full understanding of his later well-known essay Plato's Doctrine of Truth. As always with Heidegger's writings on the Greeks, the point of his interpretative method is to bring to light the original meaning of philosophical concepts, especially to free up these concepts to their intrinsic power.

Voices of Zimbabwean Orphans - Manasa Dzirikure 2014-10-30

The voices of orphans and other vulnerable children and young people and of their carers and the professional development workers are documented and used to both criticise the inadequacies of current social development work and to create a new, alternative theory and practice of project management in Zimbabwe and southern Africa.

50 Philosophy Classics - Tom Butler-Bowdon 2017-05-30

For over 2000 years, philosophy has been our best guide to the experience of being human, and the true nature of reality. From Aristotle, Plato, Epicurus, Confucius, Cicero and Heraclitus in ancient times to 17th century rationalists Descartes, Leibniz and Spinoza, from 20th-century greats Jean-Paul Sartre, Jean Baudrillard and Simone de Beauvoir to contemporary thinkers Michael Sandel, Peter Singer and Slavoj Žižek, 50 Philosophy Classics explores key writings that have shaped the discipline and had an impact on the real world. Philosophy can no longer be confined to academia, and 50 Philosophy Classics shows how powerful it can be as a tool for opening our minds and helping us think. Whether you are fascinated or daunted by the big questions of how to think, how to be, how to act and how to see, this is the perfect introduction to some of humanity's greatest minds and their landmark books.

Stories of a Recovering Fundamentalist - James C. Alexander 2008-04-30

It has been said that the opposite of faith is not doubt, but certainty. Drawing on this notion, Stories of a Recovering Fundamentalist: Understanding and Responding to Christian Absolutism recounts the author's journey as a member of the fundamentalist subculture as a child and his life among the Jesus Freaks (Jesus Movement)-- a congregation of deserters from the hippie drug culture of the late 1960's and early 1970's. This movement, though of great importance in the culture of the times, now largely goes unrecognized--

although the Jesus Movement provided the cover stories for many prominent secular magazines chronicling the youth culture of the late 60's and early 70's. While, not devoted to a history of the Jesus Movement, the book does a service in bringing a discussion of the Jesus Freak phenomenon to the attention of today's readers. The book goes on to recount the author's eventual abandonment of fundamentalism. As the story unfolds, critical research related to the psychology, sociology, and history of the subculture provides a framework for understanding Christian fundamentalism. *Stories of a Recovering Fundamentalist* recounts a gripping personal pilgrimage—at times both humorous and painful— that is rooted in honest reflection and informed by theory and research. It offers worthwhile reading for mainline Christians, curious evangelicals, recovering fundamentalists or anyone wanting to understand this timely topic.

[Reason and Sexuality in Western Thought](#) - David West 2005-05-06

This book traces the genealogy of ideas of reason, self and sexuality in the West, opening the way to a richer and more diverse understanding of sexual experience. Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far-reaching constellations of reason, self and sexuality. Thinkers like Plato, Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and sexual diversity. By contrast, philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure. But this approach of thinkers like Hume, Bentham, La Mettrie and de Sade is still one-sided and limiting. A third constellation, Romanticism avoids the limitations of both forms of rationalism, but in the name of a religion of love and passion that ultimately threatens the integrity of the self. In *Reason and Sexuality in Western Thought*, a richer understanding of sexual experience is traced to a dissident philosophical tradition. In their different ways Montaigne, Spinoza, Hegel and Kierkegaard, Marcuse and Foucault contribute to a more holistic, multi-layered and open conception of reason, sexuality and the self. This book will be essential reading for all students of philosophy and gender studies.

[Philosophy in Minutes](#) - Marcus Weeks 2014-02-06

Philosophy in Minutes distills 200 of the most important philosophical ideas into easily digestible, bite-sized sections. The core information for every topic - including debates such as the role of philosophy in science and religion, key thinkers from Aristotle to Marx, and introductions to morality and ethics - is explained in straightforward language, using illustrations to make the concepts easy to understand and remember. Whether you are perplexed by existentialism or pondering the notion of free will, this accessible small-format book will help any reader to quickly grasp the basics of this highly nuanced subject. Chapters include: Truth and logic, Marxism, Communism and Socialism, Ontology, Philosophy and literature, Existence of God, Feminist theory, Consciousness, The future of philosophy.

[Philosophy 101](#) - Paul Kleinman 2013-09-18

Discover the world's greatest thinkers and their groundbreaking notions! Too often, textbooks turn the noteworthy theories, principles, and figures of philosophy into tedious discourse that even Plato would reject. *Philosophy 101* cuts out the boring details and exhausting philosophical methodology, and instead, gives you a lesson in philosophy that keeps you engaged as you explore the fascinating history of human thought and inquiry. From Aristotle and Heidegger to free will and metaphysics, *Philosophy 101* is packed with hundreds of entertaining philosophical tidbits, illustrations, and thought puzzles that you won't be able to find anywhere else. So whether you're looking to unravel the mysteries of existentialism, or just want to find out what made Voltaire tick, *Philosophy 101* has all the answers—even the ones you didn't know you were looking for.

[Readings in Ancient Greek Philosophy](#) - S. Marc Cohen 2016-09-06

Soon after its publication, *Readings in Ancient Greek Philosophy* was hailed as the favorite to become "the 'standard' text for survey courses in ancient philosophy."* More than twenty years later that prediction has been borne out: *Readings in Ancient Greek Philosophy* still stands as the leading anthology of its kind. It is now stronger than ever: The Fifth Edition of *Readings in Ancient Greek Philosophy* features a completely revised Aristotle unit, with new translations, as well as a newly revised glossary. The Plato unit offers new translations of the *Meno* and *Republic*. In the latter, indirect dialogue is cast into direct dialogue for greater readability. The Presocratics unit has been re-edited and streamlined, and the pages of every unit have been completely reset. * APA Newsletter for Teaching Philosophy

Robert Fludd - William Huffman 2001-09-24

Renaissance man, Elizabethan philosopher, and scholar Robert Fludd sought to integrate the whole of human knowledge within a divine and hierarchically ordered cosmology. After completing his education at Oxford University, he journeyed throughout Europe seeking the knowledge of mystics, scientists, musicians, physicians, and alchemists, leading to the publication of many historically influential works on science, medicine, and philosophy.

The Philosophy Book - DK 2015-03-02

What existed before the Universe was created? Where does self-worth come from? Do the ends always justify the means? *The Philosophy Book* answers the most profound questions we all have. It is your visual guide to the fundamental nature of existence, society, and how we think. Discover what it means to be free, whether science can predict the future, or how language shapes our thoughts. Learn about the world's greatest philosophers, from Plato and Confucius to modern thinkers such as Chomsky and Derrida and follow charts and timelines that graphically show the progression of ideas and logic. Written in plain English, with concise explanations of branches of philosophy such as metaphysics and ethics, it untangles complicated theories and makes sense of abstract concepts. It is an ideal reference whether you're a student or a general reader, with simple explanations of big ideas, including the four noble truths, the soul, class struggle, moral purpose, and good and evil. If you're curious about the deeper questions in life, *The Philosophy Book* is both an invaluable reference and illuminating read.

Plato - Bernard Arthur Owen Williams 1999

Takes the reader back to first principles, re-reading the key texts to reveal what the philosopher actually said.

The Routledge Guidebook to Plato's Republic - Nickolas Pappas 2013

Plato, often cited as a founding father of Western philosophy, set out ideas in the *Republic* regarding the nature of justice, order, and the character of the just individual, that endure into the modern day. *The Routledge Guidebook to Plato's Republic* introduces the major themes in Plato's great book and acts as a companion for reading the work, examining: The context of Plato's work and the background to his writing. Each separate part of the text in relation to its goals, meanings and impact. The reception the book received when first seen by the world. The relevance of Plato's work to modern philosophy, its legacy and influence. With further reading included throughout, this text follows Plato's original work closely, making it essential reading for all students of philosophy, and all those wishing to get to grips with this classic work.

The Allegory of the Cave - Plato 2021-01-08

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work *Republic* (514a-520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

The Big Bang Theory and Philosophy - Dean A. Kowalski 2012-04-20

A lighthearted meditation on the philosophical quandaries of the hit television show *The Big Bang Theory*. Ever wonder what Aristotle might say about the life Sheldon Cooper leads? Why Thomas Hobbes would applaud the roommate agreement? Who Immanuel Kant would treat with "haughty derision" for weaving "un-unravelable webs?" And—most importantly—whether Wil Wheaton is truly evil? Of course you have. Bazinga! This book mines the deep thinking of some of history's most potent philosophical minds to explore your most pressing questions about *The Big Bang Theory* and its nerdy genius characters. You might find other philosophy books on science and cosmology, but only this one refers to Darth Vader Force-chokes, cloning Leonard Nimoy, and oompa-loompa-like engineers. Fo-shizzle. Gives you irresistibly geek-worthy insights on your favorite *Big Bang Theory* characters, story lines, and ideas. Examines important themes involving ethics and virtue, science, semiotics, religion, and the human condition. Brings the thinking of some of the world's greatest philosophers to bear on *The Big Bang Theory*, from Aristotle and Plato to

Nietzsche, Wittgenstein, Simone de Beauvoir, and more Essential reading for every Big Bang Theory fan, this book explores whether comic-book-wielding geeks can lead the good life, and whether they can know

enough science to "tear the mask off nature and stare at the face of God."
The Story of Philosophy - Will Durant 1926
