This edited volume, Modern Slavery and Human Trafficking, is a collection of reviewed and relevant research chapters, offering a comprehensive overview of recent developments in the field of modern slavery and human trafficking. The book comprises single chapters

authored by various researchers and edited by an expert active in the aforementioned research area. Each chapter is complete in itself but united under a common research study topic. possible research paths for further novel developments.

Invisible Slaves - W. Kurt Hauser 2017-10-01

In *Invisible Slaves*, W. Kurt Hauser discusses slavery

around the world, with research and firsthand stories that reframe slavery as a modern-day crisis, not a historical phenomenon or third-world issue. Identifying four types of slavery—chattel slavery, debt bondage, forced labor, and sex slavery—he examines the efforts and failures of governments to address them. He explores the political, economic, geographic, and cultural factors that shape slavery today, illustrating the tragic human toll with individual stories. Country by country, the author illuminates the harsh realities of modern-day slavery. He explores slavery's effects on victims, including violence, isolation, humiliation, and the master-slave relationship, and discusses the methods traffickers use to lure the vulnerable, especially children, into slavery. He assesses nations based on their levels of slavery and efforts to combat the problem, citing the rankings of the United States' Trafficking Victims Protection Act. He concludes with an

appeal to governments and ordinary citizens alike to meet this humanitarian crisis with awareness and action.

Disposable People - Kevin Bales 2012-04-23

Slavery is illegal throughout the world, yet more than twenty-seven million people are still trapped in one of history's oldest social institutions. Kevin Bales's disturbing story of slavery today reaches from brick kilns in Pakistan and brothels in Thailand to the offices of multinational corporations. His investigation of conditions in Mauritania, Brazil, Thailand, Pakistan, and India reveals the tragic emergence of a "new slavery," one intricately linked to the global economy. The new slaves are not a long-term investment as was true with older forms of slavery, explains Bales. Instead, they are cheap, require little care, and are disposable. Three interrelated factors have helped create the new slavery. The enormous population explosion over the past three decades has flooded the world's labor markets with

millions of impoverished, desperate people. The revolution of economic globalization and modernized agriculture has dispossessed poor farmers, making them and their families ready targets for enslavement. And rapid economic change in developing countries has bred corruption and violence, destroying social rules that might once have protected the most vulnerable individuals. Bales's vivid case studies present actual slaves, slaveholders, and public officials in well-drawn historical, geographical, and cultural contexts. He observes the complex economic relationships of modern slavery and is aware that liberation is a bitter victory for a child prostitute or a bondaged miner if the result is starvation. Bales offers suggestions for combating the new slavery and provides examples of very positive results from organizations such as Anti-Slavery International, the Pastoral Land Commission in Brazil, and the Human Rights Commission in Pakistan. He

also calls for researchers to follow the flow of raw materials and products from slave to marketplace in order to effectively target campaigns of "naming and shaming" corporations linked to slavery. Disposable People is the first book to point the way to abolishing slavery in today's global economy. All of the author's royalties from this book go to fund anti-slavery projects around the world.

Sex Trafficking and Modern

Slavery - Marie Segrave

2017-09-13

The second volume of Sex Trafficking: International context and response Human trafficking and modern slavery have captured the imagination and attention of the international community. This book builds on the authors' first volume, Sex Trafficking: International context and response. Much has changed since the first volume was published, not least the shift away from sex trafficking to modern slavery as the dominant focus in policy and advocacy. Yet, as the authors

argue, little has changed with regards to how nations respond. This volume re-examines the international counter-trafficking scholarship and policy response, to offer an analysis based on original and new data. This book lays the ground for specific forms of research and inquiry that are necessary to better understand and respond to the range of exploitative practices and conditions that give rise to human trafficking. This book offers a detailed analysis of the dominant response to human trafficking, which is framed by the criminal justice process. Examining the identification of victims, the investigation of cases, victim support, prosecutorial decisions and repatriation practices, the authors draw upon original research from Australia, Serbia and Thailand: three diverse nations that, like nations across the globe, have invested heavily in criminalisation as the dominant response to counter trafficking. They argue that exploitation sits at the nexus of global migration patterns and

emphasise the importance of speaking to those directly affected by counter-trafficking policies and those directly involved in their implementation in order to produce empirical data to inform how we make sense of the numbers that are produced, the outcome of the policies and how we ought to determine success in this context. An empirical, criminologically informed opportunity to reconsider the dominant ways of understanding and strategies of responding to human trafficking, this multi-disciplinary book will be of interest to those engaged in criminology, sociology, law, political science, public policy and gender studies.

The SAGE Handbook of Human Trafficking and Modern Day Slavery - Jennifer Bryson Clark
2019-01-11

Millions of people around the world are forced to work without pay and under threat of violence. These individuals can be found working in brothels, factories, mines, farm

fields, restaurants, construction sites and private homes: many have been tricked by human traffickers and lured by false promises of good jobs or education, some are forced to work at gunpoint, while others are trapped by phony debts from unscrupulous moneylenders. The SAGE Handbook of Human Trafficking and Modern-Day Slavery provides a comprehensive, interdisciplinary and global look at the diverse issues surrounding human trafficking and slavery in the post-1945 environment. Covering everything from history, literature and politics to economics, international law and geography, this Handbook is essential reading for academics and researchers, as well as for policy-makers and non-governmental organisations

Modern Slavery - Ryan D. Cantrell
2013-01-04

Human trafficking may be one of the least understood crimes in the United States. Often referred to as "slavery without

chains," it is a widespread and highly profitable crime, largely hidden from public view out of ignorance or denial of its existence in the United States. After drug dealing, human trafficking is tied with the illegal arms trade as the second largest criminal industry in the world, and it is the fastest-growing. There are thousands of law enforcement officers within the United States that are confronted with the epidemic of human trafficking. While human trafficking is not a new crime, it has recently taken center stage as a criminal enterprise that is extremely profitable with less risk to the traffickers. As criminals invent new ways to profit and exploit people, law enforcement has to learn new techniques and tactics to adapt to changing trends. Topics include: RECOGNIZING HUMAN TRAFFICKING AND IDENTIFYING VICTIMS INVESTIGATING HUMAN TRAFFICKING CRIME SCENES, PHYSICAL EVIDENCE, AND EXAMINATIONS IN HUMAN

TRAFFICKING THE VICTIM'S PSYCHOLOGICAL REACTIONS AND IMMEDIATE NEEDS COMMUNICATING WITH VICTIMS OF HUMAN TRAFFICKING INTERVIEW CHECKLIST LEGAL TOOLS FOR PROSECUTION INTERNET INVESTIGATIONS TYPES OF RECOVERY/ENFORCEMENT OPERATIONS

Human Trafficking -

Natividad Gutiérrez Chong
2017-09-13

In the post-Cold War era, economic globalization has resulted in the buying and selling of human beings. Poverty, social instability, lawlessness, gender biases, and ethnic hostility have entrapped millions in the world of modern day slavery, with the result that human trafficking is one of the fastest growing criminal industries in the world. Every year, men, women, and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation. Despite the

plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon. Although groups from many different ideologies have embraced policies to end human trafficking, there are still many gaps and unanswered questions, particularly with regard to the amount of, and nature of the phenomenon. This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor, and how vulnerability is a growing cause of human trafficking, affecting traditional diasporic and migratory patterns. This book was originally published as a special issue of the Journal of Intercultural Studies.

The Slave Next Door - Kevin Bales 2010-06-15

Describes the practice of human trafficking that exists in the United States in the present day.

Survivors of Slavery - Laura T. Murphy 2014-03-25

Slavery is not a crime confined to the far reaches of history. It is an injustice that continues to entrap twenty-seven million people across the globe. Laura Murphy offers close to forty survivor narratives from Cambodia, Ghana, Lebanon, Macedonia, Mexico, Russia, Thailand, Ukraine, and the

United States, detailing the horrors of a system that forces people to work without pay and against their will, under the threat of violence, with little or no means of escape.

Representing a variety of circumstances in diverse contexts, these survivors are the Frederick Douglasses, Sojourner Truths, and Olaudah Equianos of our time, testifying to the widespread existence of a human rights tragedy and the urgent need to address it.

Through storytelling and firsthand testimony, this anthology shapes a twenty-first-century narrative that many believe died with the end of slavery in the Americas.

Organized around such issues as the need for work, the punishment of defiance, and the move toward activism, the collection isolates the causes, mechanisms, and responses to slavery that allow the phenomenon to endure.

Enhancing scholarship in women's studies, sociology, criminology, law, social work, and literary studies, the text establishes a common

trajectory of vulnerability, enslavement, captivity, escape, and recovery, creating an invaluable resource for activists, scholars, legislators, and service providers.

Human Trafficking - Joyce Hart 2009-01-15

[Human trafficking] is the term that is used today for modern-day slavery. Like African slaves in past centuries, many people from around the world are being held captive and forced to work. Some people are physically beaten to make them work. A few others are sold into slavery. Some are kidnapped. But most people are tricked into becoming a slave. They are given false promises of money, new jobs, educations, and better lives. Then the promises are broken. The victims of human trafficking are trapped. Human trafficking is taking place in almost every country of the world. In fact, there is a good chance that modern-day slaves live not too far from where you live. According to a 2008 report from the U.S. State

Department, human trafficking is one of the greatest human rights challenges of this century, both here and abroad.

Up for Sale - Alison Marie Behnke 2017-01-01

"Trafficking thrives in the shadows. And it can be easy to dismiss it as something that happens to someone else, somewhere else. But that is not the case. Trafficking is a crime that involves every nation on earth, and that includes our own."—US secretary of state Hillary Rodham Clinton, 2009 Human trafficking is as old as slavery and continues to be practiced in the modern world. Victims of human traffickers include workers in restaurants and in garment factories, maids and nannies in the homes of wealthy families, child sex workers, beggars on the street, boy soldiers, even infants kidnapped for foreign adoptions. Women and children are more likely to be coerced or seized than men and boys, especially if they are poor and uneducated. Traffickers sell their victims for their bodies or for their labor and reap an

enormous profit. Human trafficking is estimated to be a \$30 to \$45 billion industry on an annual basis, rivaling weapons and drug trafficking as one of the most profitable criminal undertakings in the world. *Up for Sale* takes a hard look at human trafficking, identifying perpetrators and telling the stories of victims through their own words. You'll discover why some people become vulnerable to trafficking and you'll read about what their lives are like on a daily basis. You'll also meet some of the courageous individuals and organizations working to free people from lives in bondage so that, in the words of US president Barack Obama, each person can "forge a life equal to [their] talents and worthy of [their] dreams."

Readers will first examine global trends, including learning about trafficking in Europe, the Philippines, Iceland, Bosnia, South Africa, and Israel. Over the remaining chapters, readers will evaluate factors that contribute to it, strategies to reduce it, and how we can aid victims of trafficking. Fighting Modern Slavery and Human Trafficking -

Genevieve LeBaron 2021-06-30

Over the last two decades, fighting modern slavery and human trafficking has become a cause célèbre. Yet large numbers of researchers, non-governmental organizations, trade unions, workers, and others who would seem like natural allies in the fight against modern slavery and trafficking are hugely skeptical of these movements. They object to how the problems are framed, and are skeptical of the “new abolitionist” movement. Why? This book tackles key controversies

surrounding the anti-slavery and anti-trafficking movements head on. Champions and skeptics explore the fissures and fault lines that surround efforts to fight modern slavery and human trafficking today.

These include: whether efforts to fight modern slavery displace or crowd out support for labor and migrant rights; whether and to what extent efforts to fight modern slavery mask, naturalize, and distract from racial, gendered, and economic inequality; and whether contemporary anti-slavery and anti-trafficking crusaders' use of history are accurate and appropriate.

Modern-Day Slavery - Linda Bickerstaff 2009-08-15

Most teenagers are familiar with the concept of slavery from studying history. However, many are unaware that slavery still flourishes around the world today, even within the borders of the United States. In fact, the modern slave trade is a lucrative criminal enterprise—the third most profitable in the world after

drug trafficking and the illegal sale of arms and munitions. It affects millions of people who are forced to work by threat of mental and physical abuse, in inhuman conditions, for little or no pay. This book illuminates this modern-day tragedy for teen readers with clear explanations and examples drawn from around the world. Current efforts to combat the problem and to provide reparations are discussed, and the author includes practical suggestions to help teens act as modern-day abolitionists.

Combating Human Trafficking - Michael J. Palmiotto 2014-12-01

A centuries-old crime, human trafficking occurs not only in undeveloped countries, but also in some surprising locations. Right here in the United States, individuals are recruited, transported, and held by unlawful means—either through deception or under threat of violence. Approaching the topic from a law enforcement perspective, *Combating Human Trafficking: A Multidisciplinary Approach* provides an unprecedented look at the investigation of this phenomenon in America. Beginning with historical,

sociological, and psychological perspectives, the book discusses how authorities can best conduct an investigation of trafficking. It reviews federal agencies responsible for confronting the problem, examines relevant laws and legal trends, and discusses law enforcement awareness and training. Individual chapters written by experts in law enforcement explore a host of topics, including: Border issues between Mexico and the U.S., including the trafficking of people, drugs, and firearms The role of the Internet in human trafficking Child victim recruitment into sex trafficking How sexually oriented businesses such as escort services, hostess bars, and massage parlors can be fronts for sex trafficking The prevalence of human trafficking among street gangs Forced labor aspects, especially with respect to illegal immigrants How victims are chosen Theoretical, practical, and ethical considerations in providing effective services to victims An

ideal resource for police investigators, police training, and community outreach organizations, the book is also suitable as a college text for criminal justice courses. It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern-day slavery.

[The Essential Abolitionist](#) - 2015-12-31

John Vanek, nationally recognized authority on the response to human trafficking, along with sixteen expert contributors, answers these and other commonly-asked questions about one of the greatest human rights violations today: human trafficking. The Essential Abolitionist offers context to

complex topics, reviews the challenges involved in fighting human trafficking and assisting victims, and examines head-on the myths and misconceptions related to modern slavery. Human Trafficking and Globalisation - Bettina Purcell-

Riederer 2013-02-06

Essay from the year 2013 in the subject Sociology - Law,

Delinquency, Abnormal Behavior, grade: keine,

Sheffield Hallam University (International Criminal

Justice), language: English, abstract: To understand the concept of globalisation, one has to recognize the process that led to globalisation. With the onset of industrialisation the focus changed, feudalism was replaced by modernity, whose aim was to create a functioning economy, and a solid profitable financial market, which led to capitalism. Sovereign states, increasingly moved towards nationwide financial and industrial markets. Due to the growing number and size of manufactures and extractive industries, mass employment was provided, which had a mayor influence on the defined class system at the time (Finday, 2005). The social middle class expanded and continued in a well defined class system. By the end of World War 2 modernity hit its peak and slowly changed into late modernity, which had its' beginnings in the early 70ies and could be found predominantly in advanced capitalist centres of the USA, Canada, Western Europe and

Japan. Late modernity includes the progress from the political eras of colonisation, the economic eras of industrialisation and the social eras of states (Findlay,1999). Therefor the driving force for late modernity is the increase of labor power in modern capitalism (Melossi, 2003). Human Trafficking Handbook - Parosha Chandran 2011 Edited and collated by award-winning human rights barrister Parosha Chandran, this precedent-setting text assembles the views of specialist lawyers, local authorities, doctors, non-governmental organisations, police officers and prosecutors as it surveys the major themes of human trafficking, ranging from domestic servitude to sexual and labour exploitation, and also carefully examines the impact of trafficking upon its victims.

Modern Day Slavery - Catherine Paris 2007
Modern Day Slavery: Human Trafficking Revealed brings to light the reality of human trafficking in today's world.

There are currently 600,000 to 800,000 persons being trafficked each year. The United States government estimates that human trafficking is close to tying with the second most common industry, arms dealing, which is just second to drug trafficking. Criminals are making billions of dollars each year on the blood, sweat, and tears of trafficking victims. Modern Day Slavery: Human Trafficking Revealed discusses the various laws, agencies, countries, and protocols dealing with human trafficking. Case studies have been included in this book, along with pertinent news items, and the latest information available from our government. Victims of human trafficking are enslaved, subjected to limited movement, isolation, or had their documents confiscated. Children are used for labor in sweatshops, migrant farming, construction, factories, fisheries, panhandling, janitorial jobs, hotel or tourist industries, restaurant services, domestic servitude, child camel

jockeys, child soldiers, and for child sex tourism. Children who are victimized by human traffickers are often mistaken for prostitutes, runaways, migrant farm workers, or domestic servants. It can be difficult to pick up on the subtle signals, however, if you look closely and ask the right questions, you may uncover children who are being exploited. Children who are exploited for labor are usually hungry or malnourished to the extent that they are poorly developed and may never reach their full height or development. Children who are forced into the commercial sex trade may show signs of having sexually transmitted diseases, including HIV/AIDS, kidney problems, and urinary tract infections.

Where Were You? - Matthew S. Friedman 2021-11

My boots-on-the-ground work to fight human trafficking throughout Asia. There are more slaves in the world today than any other time in history. Enter the world of human trafficking and explore what we can do together to end this global crime. *Where Were You?: A Profile of Modern Slavery* by Matthew Friedman provides an up-to-date overview of human trafficking, a largely ignored present-day evil, and recounts true stories of enslavement in Asia today. Former United Nations and USAID expert Matthew Friedman obtained in-depth

first-hand knowledge with boots-on-the-ground work over 30 years throughout Asia. Human trafficking exists in nearly every nation on earth and Friedman has personally interviewed hundreds of freed slaves and imprisoned traffickers throughout South and Southeast Asia. The modern slave trade operates in brothels, fisheries, clothing and chocolate industries, as well as a myriad of other manufacturing jobs and is a billion dollar business that continues to grow unchecked. Even with the collective response of governments, the UN and civil society partners, less than 0.2 percent of the victims are assisted.

- Uses primary source materials to illuminate efforts by human rights organizations, lawmakers, and slavery survivors to combat human trafficking and rescue millions

of men, women, and children from lives of backbreaking labor, forced prostitution, and other forms of enslavement • Illustrates how early survivor voices catalyzed the new abolitionist movement—that the brave actions of a few have benefited thousands of victims of human trafficking

Human Trafficking - Kathryn Cullen-DuPont 2009

"Despite the United Nations having officially abolished slavery and the slave trade more than 60 years ago, millions of human beings continue to be enslaved. Human trafficking - the official term for the modern-day slave trade - consists of buying and selling people with the intent of exploiting them through forced labor or sexual acts. Human Trafficking provides a thorough examination of this issue. It describes the suffering caused by human trafficking as well as the financial and cultural conditions that make modern slavery possible, both within and beyond national borders. The efforts of the United Nations, national governments,

and nongovernmental organizations to combat human trafficking are thoroughly discussed, as are those to provide direct aid to the individual victims. Human Trafficking is an eye-opening account that examines how the trade is conducted in the United States, the Netherlands, Nigeria, India, and Belize. Each case study analyzes the patterns of trade, the types of exploitation, why countries have failed to halt the practice, and the unrelenting efforts to eradicate human trafficking"-- Provided by publisher.

In actuality, this issue is not confined to a single nation or even a single continent. This challenge now demands a coordinated and cooperative worldwide response because of technology and globalization. The purpose of slavery in 21st century: the rise of modern day slavery in last 5 years is to accurately explain all types of human trafficking and contemporary countermeasures.

Modern Slavery - Siddharth Kara 2017-10-10

Siddharth Kara is a tireless chronicler of the human cost of slavery around the world. He has documented the dark realities of modern slavery in order to reveal the degrading and dehumanizing systems that strip people of their dignity for the sake of profit—and to link the suffering of the enslaved to the day-to-day lives of consumers in the West. In *Modern Slavery*, Kara draws on his many years of expertise to

demonstrate the astonishing scope of slavery and offer a concrete path toward its abolition. From labor trafficking in the U.S. agricultural sector to sex trafficking in Nigeria to debt bondage in the Southeast Asian construction sector to forced labor in the Thai seafood industry, Kara depicts the myriad faces and forms of slavery, providing a comprehensive grounding in the realities of modern-day servitude. Drawing on sixteen years of field research in more than fifty countries around the globe—including revelatory interviews with both the enslaved and their oppressors—Kara sets out the key manifestations of modern

slavery and how it is embedded in global supply chains. Slavery offers immense profits at minimal risk through the exploitation of vulnerable subclasses whose brutalization is tacitly accepted by the current global economic order. Kara has developed a business and economic analysis of slavery based on metrics and data that attest to the enormous scale and functioning of these systems of exploitation. Beyond this data-driven approach, *Modern Slavery* unflinchingly portrays the torments endured by the powerless. This searing exposé documents one of humanity's greatest wrongs and lays out the framework for a comprehensive plan to eradicate it.
