**Iron John** - Robert Bly 2020

"In this timeless and deeply learned classic, poet and translator Robert Bly offers nothing less than a new vision of what it means to be a man. Bly's vision is based on his ongoing work with men, as well as on reflections on his own life. He addresses the devastating effects of remote fathers and mourns the disappearance of male initiation rites in our culture. Finding rich meaning in ancient stories and legends, Bly uses the Grimm fairy tale "Iron John"--in which a mentor or "Wild Man" guides a young man through eight stages of male growth--to remind us of ways of knowing long forgotten, images of deep and vigorous masculinity centered in feeling and protective of the young. At once down-to-earth and elevated, combining the grandeur of myth with the practical and often painful lessons of our own histories, *Iron John* is an astonishing work that will continue to guide and inspire men--and women--for years to come"--

**The Story of Art** - E. H. Gombrich 1950

**Ben-Hur. A Tale of the Christ** - Lew Wallace 1887

**The Art Of Seduction** - Robert Greene 2010-09-03

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their

target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. *The Art of Seduction* is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*.

**How to Take the Suffering Out of Love** - Walter Riso 2014-02-01

I have written this guide in order to help you create a space for reflection within your life and as a result develop emotional and cognitive strategies that can make you more resistant to love-sickness. Once you learn exactly why we absurdly equate love to suffering, you'll know how to avoid falling into the trap and learn to foster more adaptive schemes of behaviour. Through the concepts of philosophy, psychology and his 30 years plus of experience as a therapist, in the 39 chapters of this book, Walter Riso guides us through a model or scheme of reflection to help us understand the characteristics of a love that is good (healthy, coherent, constructive) and one that is bad (sick, incoherent, destructive).

*Odyssey* - Homer 1895

*The Mark of Athena (The Heroes of Olympus, Book Three)* - Rick Riordan 2012-10-02

In *The Son of Neptune*, Percy, Hazel, and Frank met in Camp Jupiter, the Roman equivalent of Camp Halfblood, and traveled to the land beyond the gods to complete a dangerous quest. The third book in the *Heroes of Olympus* series will unite them with Jason, Piper, and Leo. But they number only six--who will complete the Prophecy of Seven? The Greek and Roman demigods will have to cooperate in order to defeat the giants released by the Earth Mother, Gaea. Then they will have to sail together to the ancient land to find the Doors of Death. What exactly are the Doors of Death? Much of the prophecy remains a mystery. . . . With old friends and new friends joining forces, a marvelous ship, fearsome foes, and an exotic setting, *The Mark of Athena* promises to be another unforgettable adventure by master storyteller Rick Riordan.

*Thus Spake Zarathustra* - Friedrich Wilhelm Nietzsche 2003

"*Zarathustra*" was Nietzsche's masterpiece, the first comprehensive statement of his mature philosophy, and the introduction of his influential and well-known (and misunderstood) ideas including the "overman" or "superman" and the "will to power." It is also the source of Nietzsche's famous (and much misconstrued) statement that "God is dead." This classic was due for an update and overhaul. A considerable part of Nietzsche's genius is his ability to make his language dance, and this is what becomes extraordinarily difficult to translate. Aphorist and punster Thomas Wayne puts the play back into this work.

[The Uses of Enchantment](#) - Bruno Bettelheim 2010-05-11

Winner of the National Book Award and National Book Critics Circle Award "A charming book about

enchantment, a profound book about fairy tales."—John Updike, The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to "The Three Little Pigs," "Hansel and Gretel," and "The Sleeping Beauty," Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one's life.

*Broca's Brain* - Carl Sagan 2011-07-06

A fascinating book on the joys of discovering how the world works, by the Pulitzer Prize-winning author of *Cosmos* and *Shadows of Forgotten Ancestors*. "Magnificent . . . Delightful . . . A masterpiece. A message of tremendous hope for humanity . . . While ever conscious that human folly can terminate man's march into the future, Sagan nonetheless paints for us a mind-boggling future: intelligent robots, the discovery of extraterrestrial life and its consequences, and above all the challenge and pursuit of the mystery of the universe."—Chicago Tribune "Go out and buy this book, because Carl Sagan is not only one of the world's most respected scientists, he's a great writer. . . . I can give a book no greater accolade than to say I'm planning on reading it again. And again. And again."—The Miami Herald "The brilliant astronomer . . . is persuasive, provocative and readable."—United Press International "Closely reasoned, impeccably researched, gently humorous, utterly devastating."—The Washington Post

*History of Christianity* - Paul Johnson 2012-03-27

First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known 'Jesus Sect', *A History of Christianity* explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

**The Individualized Society** - Zygmunt Bauman 2013-04-25

We are spurred into action by our troubles and fears; but all too often our action fails to address the true causes of our worries. When trying to make sense of our lives, we tend to blame our own failings and weaknesses for our discomforts and defeats. And in doing so, we make things worse rather than better. Reasonable beings that we are, how does this happen and why does it go on happening? These are the questions addressed in this new book by Zygmunt Bauman - one of the most original and perceptive social thinkers writing today. For Bauman, the task of sociology is not to censor or correct the stories we tell of our lives, but to show that there are more ways in which our life stories can be told. By bringing into view the many complex dependencies invisible from the vantage point of private experience, sociology can help us to link our individual decisions and actions to the deeper causes of our troubles and fears - to the ways we live, to the conditions under which we act, to the socially drawn limits of our imagination and ambition. Sociology can help us to understand the processes that have shaped the society in which we live today, a society in which individualization has become our fate. And sociology can also help us to see that if our individual but shared anxieties are to be effectively tackled, they need to be addressed collectively, true to their social, not individual, nature. The Individualized Society will be of great interest to students of sociology, politics and the social sciences and humanities generally. It will also appeal to a broader range of readers who are interested in the changing nature of our social and political life today.

**Azul** - Rubén Darío 2021-03-24

*Azul...* (1888) is a book of stories and poems by Rubén Darío. Written while the poet was living in Chile, *Azul...* has been recognized as a pioneering work of Hispanic Modernism that launched the career of a leading Latin American poet. Both experimental and traditional, *Azul...* blends Darío's concern over the sustainability of modern life with his abiding interest in the myths and magic of ancient cultures. Infused with classical symbolism, inspired by the myth and philosophy of Ancient Greece, Rubén Darío's *Azul...* bridges the gap between ancient and modern. Rather than focus on the differences between the two, he envisions the past as a living entity, allowing history and fantasy to coincide with the social realities of his time. In these poems and stories, fairies from the plays of Shakespeare appear alongside the working men and women of Latin America. Dreams coincide with a reality mired in poverty, labor, and passionless social climbing. Poets and port workers sing and die in a city of ghostly beauty. *Azul...* is less a book than it is an experience, and nearly a century and a half after its publication it remains one worth the taking. With a beautifully designed cover and professionally typeset manuscript, this edition of Rubén Darío's *Azul...* is a classic of Nicaraguan literature reimagined for modern readers.

**Inanna Returns** - V. S. Ferguson 1995-01-01

**The Dawn of Day** - Friedrich Wilhelm Nietzsche 1903

*Sperm Wars* - Robin Baker 2006-01-03

This classic work on the rules of sex -- updated for a new generation -- is still as provocative as the day it was published, providing simple explanations for any and all questions about what happens in the bedroom. Sex isn't as complicated as we make it. In *Sperm Wars*, evolutionary biologist Robin Baker argues that every question about human sexuality can be explained by one simple thing: sperm warfare. In the interest of promoting competition between sperm to fertilize the same egg, evolution has built men to conquer and monopolize women while women are built to seek the best genetic input on offer from potential sexual partners. Baker reveals, through a series of provocative fictional scene, the far-reaching implications of sperm competition. 10% of children are not fathered by their "fathers;" over 99% of a man's sperm exists

simply to fight off all other men's sperm; and a woman is far more likely to conceive through a casual fling than through sex with her regular partner. From infidelity, to homosexuality, to the female orgasm, Sperm Wars turns on every light in the bedroom. Now with new material reflecting the latest research on sperm warfare, this milestone of popular science will still surprise, entertain, and even shock.

*The Notebooks of Don Rigoberto* - Mario Vargas Llosa 2011-03-04

Set in Lima, the novel tells of a love story whose participants may be the fictional characters of Don Rigoberto. *The Fragility of Goodness* - Martha C. Nussbaum 2001-01-15

This book is a study of ancient views about 'moral luck'. It examines the fundamental ethical problem that many of the valued constituents of a well-lived life are vulnerable to factors outside a person's control, and asks how this affects our appraisal of persons and their lives. The Greeks made a profound contribution to these questions, yet neither the problems nor the Greek views of them have received the attention they deserve. This book thus recovers a central dimension of Greek thought and addresses major issues in contemporary ethical theory. One of its most original aspects is its interrelated treatment of both literary and philosophical texts. *The Fragility of Goodness* has proven to be important reading for philosophers and classicists, and its non-technical style makes it accessible to any educated person interested in the difficult problems it tackles. This edition, first published in 2001, features a preface by Martha Nussbaum.

[Euthydemus](#) - Plato 2015-09-01

THE Euthydemus, though apt to be regarded by us only as an elaborate jest, has also a very serious purpose. It may fairly claim to be the oldest treatise on logic; for that science originates in the misunderstandings which necessarily accompany the first efforts of speculation. Several of the fallacies which are satirized in it reappear in the Sophistici Elenchi of Aristotle and are retained at the end of our manuals of logic. But if the order of history were followed, they should be placed not at the end but at the beginning of them; for they belong to the age in which the human mind was first making the attempt to distinguish thought from sense, and to separate the universal from the particular or individual.
