Fanny J. Crosby An autobiography - Fanny J. Crosby 2020-06-24

For those friends and acquaintances, who have expressed a wish to read the complete story of my life, from my childhood to the present time, I have undertaken the writing of this book. By including even some incidents that, in themselves, may seem trivial, I have tried to make this account a full and accurate autobiography. In modesty, however, I have also desired to render my story as simple as possible, in fact, to give a vivid picture of my work, my opinions and my aspirations, not only as a teacher but also as a writer of sacred songs; and if I have spoken with a frankness that may seem akin to egotism, I hope that I may be pardoned; for I am fully aware of the immense debt I owe to those numberless friends, only a few of whom I have been able to mention, and especially to that dear Friend of us all, who is our light and life.

[From Social Media to Social Ministry](#) - Nona Jones 2020-06-23

This book outlines digital discipleship principles for building an online community and provides practical instruction for how to do it no matter how big or small a local church may be. There are more than 2.3 billion professing Christians in the world and more and more new churches launching globally, yet statistics show that in-person church attendance is declining or plateauing in every nation. Although social technology has been around for more than two decades, church leaders have long bristled at the idea of church online, ranking it as the last concern on their minds in Barna's 2020 state of the church report published February 3, 2020. And then, three weeks later, COVID-19 closed the doors of every church on earth and suddenly forced them entirely online. Nona Jones, a globally acclaimed thought leader on leveraging

technology for ministry, had been leading a movement and sounding the alarm for several years to make digital discipleship a central part of every church's ministry approach. In *From Social Media to Social Ministry*, she outlines her digital discipleship principles and provides practical instruction for how to do it no matter how big or small a local church may be. There are plenty of books to help churches build a social media strategy, but this is the first book of its kind that goes beyond digital marketing to digital ministry. Readers will leave this book with: Clarity on what discipleship truly is The data that underscores the urgency for digital discipleship Understanding of the resources required to do it well A step-by-step guide on how to implement digital discipleship into ministry plans Knowledge of the differences among and purposes of the most popular social platforms, as well as the tools best positioned for digital ministry

Protest & Praise - Jon Michael Spencer 1991

Here is a skillful tracing of two tracks in the evolution of musical genres that have evolved from black religion. Songs of protest developed from the spiritual through social-gospel hymnody to culminate in songs of the

civil-rights movement and the blues. Born in rebellion, they envision the Kingdom of God. Songs of praise, by contrast, express adoration.

Beginning with the "ring-shout," Spencer follows the history of intoned declamation through the tongue song, Holiness-Pentecostal music, and the chanted sermon of the black preacher. Spencer's approach, termed theomusicology, unlocks the wealth of African-American sacred music with a theological key. The result is a fascinating account of a people's struggle with God in history.

Immediately following the articles is an extended four-part catechism that more fully explicates the meanings and implications of the doctrinal statements. A DOCSOUTH BOOK. Information needs and Information seeking behaviour of Namibian pastors - David Matsveru 2014-06-01

This study investigates the information needs and seeking behaviour of pastors in Namibia. The purpose of this study is to establish the information required by pastors to carry out their work, how they seek information and the problems they encounter in doing so. A mixed-method approach research was used to meet the objectives of the study.

A stratified quota sample of 200 pastors was used based on Walpole's formula for proportions. One hundred and thirty-eight (69%) participants responded to the questionnaire, while 16 pastors from different denominations in Windhoek, purposively selected as key informants, were interviewed. The Statistical Package for Social Sciences (SPSS) basic level descriptive statistics were used to analyse quantitative data from the questionnaires, while content analysis was used to analyse qualitative data from the interviews.

American Methodist Worship - Karen B. Westerfield Tucker 2011-04-27

"American Methodist Worship is the most comprehensive history of worship among John Wesley's various American spiritual descendents that has ever been written. It will be a foundational book for anyone who wishes to understand how American Methodists have worshipped."- Sacramental Life "This groundbreaking study will help to reshape the way that we think about early American Methodist worship and how it connects to more recent trends."-- The Journal of Religion "Karen Westerfield Tucker's exhaustive examination of the history of American Methodist worship may indeed launch a new genre in liturgical historiography: denominational liturgical histories. The genius of this contribution is its comprehensiveness in examining for the first time the worship life of an American ecclesiological tradition."--Doxology

Cape Town Harmonies - Gaulier, Armelle 2017-07-19

"Cape Town's public cultures can only be fully appreciated through recognition of its deep and diverse soundscape. We have to listen to what has made and makes a city. The ear is an integral part of the 'research tools' one needs to get a sense of any city. We have to listen to the sounds that made and make the expansive 'mother city'. Various of its constituent parts sound different from each other ... [T]here is the sound of the singing men and their choirs ("teams" they are called) in preparation for the longstanding annual Malay choral competitions. The lyrics from the various repertoires they perform are hardly ever written down. [...] There are texts of the hallowed 'Dutch songs' but these do not circulate easily and widely. Researchers dream of finding lyrics from

decades ago, not to mention a few generations ago - back to the early 19th century. This work by Denis Constant Martin and Armelle Gaulier provides us with a very useful selection of these songs. More than that, it is a critical sociological reflection of the place of these songs and their performers in the context that have given rise to them and sustains their relevance. It is a necessary work and is a very important scholarly intervention about a rather neglected aspect of the history and present production of music in the city." — Shamil Jeppie, Associate Professor, Department of Historical Studies, University of Cape Town

The Creation of Tribalism in Southern Africa - Leroy Vail 1991-01-07

Despite a quarter century of "nation building," most African states are still driven by ethnic particularism—commonly known as "tribalism." The stubborn persistence of tribal ideologies despite the profound changes associated with modernization has puzzled scholars and African leaders alike. The bloody hostilities between the tribally-oriented Zulu Inkhata movement and supporters of the African National Congress are but the most recent example of tribalism's tenacity. The studies in this volume offer a new historical model for the growth and endurance of such ideologies in southern Africa.

The Black Church in the African American Experience - C. Eric Lincoln 1990-11-30

Black churches in America have long been recognized as the most independent, stable, and dominant institutions in black communities. In *The Black Church in the African American Experience*, based on a ten-year study, is the largest nongovernmental study of urban and rural churches ever undertaken and the first major field study on the subject since the 1930s. Drawing on interviews with more than 1,800 black clergy in both urban and rural settings, combined with a comprehensive

historical overview of seven mainline black denominations, C. Eric Lincoln and Lawrence H. Mamiya present an analysis of the Black Church as it relates to the history of African Americans and to contemporary black culture. In examining both the internal structure of the Church and the reactions of the Church to external, societal changes, the authors provide important insights into the Church's relationship to politics, economics, women, youth, and music. Among other topics, Lincoln and Mamiya discuss the attitude of the clergy toward women pastors, the reaction of the Church to the civil rights movement, the attempts of the Church to involve young people, the impact of the black consciousness movement and Black Liberation Theology and clergy, and trends that will define the Black Church well into the next century. This study is complete with a comprehensive bibliography of literature on the black experience in religion. Funding for the ten-year survey was made possible by the Lilly Endowment and the Ford Foundation.

Performing Religion - Gregory F. Barz 2016-08-09

Performing Religion considers issues related to Tanzanian kwayas [KiSwahili, "choirs"], musical communities most often affiliated with Christian churches, and the music they make, known as nyimbo za kwaya [choir songs] or muziki wa kwaya [choir music]. The analytical approach adopted in this text focusing on the communities of kwaya is one frequently used in the fields of ethnomusicology, religious studies, culture studies, and philosophy for understanding diversified social processes-consciousness. By invoking consciousness an attempt is made to represent the ways seemingly disparate traditions coexist, thrive, and continue within contemporary kwaya performance. An East African kwaya is a community that gathers several times each week to define its spirituality musically. Members of kwayas come together to sing, to pray, to support individual members in times of need, and to both learn and pass along new and inherited faith traditions. Kwayas negotiate between multiple musical traditions or just as often they reject an inherited musical system while others may continue to engage musical repertoires from both Europe and Africa. Contemporary kwayas comfortably coexist in the urban musical soundscape of coastal Dar es Salaam along with jazz dance bands, taarab ensembles, ngoma performance groups, Hindi film music, rap, reggae, and the constant influx of recorded American and European popular musics. This ethnography calls into question terms frequently used to draw tight boundaries around the study of the arts in African expressive religious cultures. Such divisions of the arts present well-defended boundaries and borders that are not sufficient for understanding the change, adaptation, preservation, and integration that occur within a Tanzanian kwaya. Boundaries break down within the everyday performance of East African kwayas, such as Kwaya ya Upendo

["The Love Choir"] in Dar es Salaam, as repertoires, traditions, histories, and cultures interact within a performance of social identity.

Sounding the Cape - Denis Martin 2013

For several centuries Cape Town has accommodated a great variety of musical genres which have usually been associated with specific population groups living in and around the city. Musical styles and genres produced in Cape Town have therefore been assigned an "identity" which is first and foremost social. This volume tries to question the relationship established between musical styles and genres, and social - in this case pseudo-racial - identities. In *Sounding the Cape*, Denis-Constant Martin recomposes and examines through the theoretical prism of creolisation the history of music in Cape Town, deploying analytical tools borrowed from the most recent studies of identity configurations. He demonstrates that musical creation in the Mother City, and in South Africa, has always been nurtured by contacts, exchanges and innovations whatever the efforts made by racist powers to separate and divide people according to their origin. Musicians interviewed at the dawn of the 21st century confirm that mixture and blending characterise all Cape Town's musics. They also emphasise the importance of a rhythmic pattern particular to Cape Town, the ghoema beat, whose origins are obviously mixed. The study of music demonstrates that the history of Cape Town, and of South Africa as a whole, undeniably fostered creole societies. Yet, twenty years after the collapse of apartheid, these societies are still divided along lines that combine economic factors and "racial" categorisations. Martin concludes that, were music given a greater importance in educational and cultural policies, it could contribute to fighting these divisions and promote the notion of a nation that, in spite of the violence of racism and apartheid, has managed to invent a unique common culture.
