**Fluent Forever** - Gabriel Wyner 2014-08-05

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

**500 Words You Should Know** - Caroline Taggart 2014-09-25

Ever wanted to ameliorate your atavistic lexicon, engage in a little intellectual badinage or been discombobulated by tricky diction? 500 Words You Should Know has you covered. Words are beautiful and versatile things, but when used incorrectly they can lose a lot in transition, and the more complex the word, the more misused it can become. And as words eternally evolve in their everyday use, they can begin to be interpreted as something other than their original meaning. 500 Words You Should Know will inspire the reader to use uncommon words in their correct context, to utilize the English language to its full potential, and to test themselves on the words they think they already know.
