**The African History Book of All Times: The Ultimate Pitch of What is Wrong with Black People?** - Joe Mintsu 2013-03-13

African History Books have been written and rewritten thousands of times. But what is bizarre about all these African History Books is that they are divided into three groups: one that deals with Colonial History, one that deals with Mediterranean History, and one that deals with Pre-history. The first one tells us about the Europeans all over the African continent. The second one tells us about the Kemets, the Persians and the Greeks in North Africa. And the last one tells us about primitive Negroes who did not themselves have any idea of the notion of History; so someone else has had to write their History in their place. There is no wonder that Basil Davidson has had to come to the embittering conclusion that what is referred to as African History today is nothing but "African History Without Africans" (1999). This is the book in which the true face of what may be referred to as African History is shown in full beam to a world that has ceased to believe in it.

*Why Learn History (When It's Already on Your Phone)* - Sam Wineburg 2018-09-17

Let's start with two truths about our era that are so inescapable as to have become clichés: We are surrounded by more readily available information than ever before. And a huge percentage of it is inaccurate. Some of the bad info is well-meaning but ignorant. Some of it is deliberately deceptive. All of it is pernicious. With the internet always at our fingertips, what's a teacher of history to do? Sam Wineburg has answers, beginning with this: We definitely can't stick to the same old read-the-chapter-answer-the-questions-at-the-back snoozefest we've subjected students to for decades. If we want to educate citizens who can

sift through the mass of information around them and separate fact from fake, we have to explicitly work to give them the necessary critical thinking tools. Historical thinking, Wineburg shows us in *Why Learn History (When It's Already on Your Phone)*, has nothing to do with test prep-style ability to memorize facts. Instead, it's an orientation to the world that we can cultivate, one that encourages reasoned skepticism, discourages haste, and counters our tendency to confirm our biases. Wineburg draws on surprising discoveries from an array of research and experiments—including surveys of students, recent attempts to update history curricula, and analyses of how historians, students, and even fact checkers approach online sources—to paint a picture of a dangerously mine-filled landscape, but one that, with care, attention, and awareness, we can all learn to navigate. It's easy to look around at the public consequences of historical ignorance and despair. Wineburg is here to tell us it doesn't have to be that way. The future of the past may rest on our screens. But its fate rests in our hands.

The Journal Book - Toby Fulwiler 1987

"In this book journals are seen in every situation and from every angle, as if mounted on a slow turntable under a spotlight. The conclusion of most of the teachers and students using them is that they get people thinking, they help them test their own experience against the ideas of many others-- the authorities they're studying, their teachers, their fellow students ... The payoffs from using journals in classrooms are here shown to be astounding. Students learn from making mistakes and half-forming ideas. They learn to think, not by doing exercises in a faddish "critical thinking" textbook, but by working their way through real questions, with real interest and real intent"--Back cover.

**The Modern Library Essential World History 4-Book Bundle** - Edward Gibbon 2012-02-27

Revisit a world of conquest, exploration, and imperial adventure with this Modern Library eBook bundle that includes Edward Gibbon's *The Decline and Fall of the Roman Empire*, Francis Parkman's *Montcalm and Wolfe*, William H. Prescott's *History of the Conquest of Mexico*, and Theodore Roosevelt's *The Naval War of 1812*. THE DECLINE AND FALL

OF THE ROMAN EMPIRE (ABRIDGED) Edward Gibbon's masterpiece, which narrates the history of the Roman Empire from the second to the fifteenth centuries, is widely considered the greatest work of history ever written. This abridgment retains the full scope of the original, while emphasizing elements ignored in all other abridgments—in particular the role of religion in the empire and the rise of Islam. MONTCALM AND WOLFE The result of more than forty years of passionate research, Montcalm and Wolfe is the epic story of Europe's struggle for dominance of the New World. Thought by many to be Francis Parkman's greatest work, it is a riveting read and an essential part of any military history collection. HISTORY OF THE CONQUEST OF MEXICO William H. Prescott's sweeping account of Cortés's subjugation of the Aztec people has endured as a landmark work of scholarship and dramatic storytelling. This pioneering study presents a compelling view of the clash of civilizations that reverberates in Latin America to this day. THE NAVAL WAR OF 1812 Published when its author, Theodore Roosevelt, was only twenty-three years old, The Naval War of 1812 was immediately hailed as a literary and scholarly triumph, and it is still considered the definitive book on the subject. Roosevelt's inimitable style and robust narrative make The Naval War of 1812 enthralling, illuminating, and utterly essential to every armchair historian.
