MRCP 1 - Philippa J. Easterbrook 2004

Struggling with your basic science revision for MRCP 1?

This title helps you to overcome that hurdle so that you are better equipped for the

exam. It includes 318 questions that cover genetics, molecular medicine, immunology, microbiology, anatomy, physiology, clinical chemistry, statistics & epidemiology and clinical pharmacology.

**MRCP** - Shibley Rahman  
2018-12-20

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as

candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.

**MRCP 1 'Best of Five' Key Topic Summaries** - W.

Stephen Waring 2004

This new edition is completely in the Best of Five format to be relevant to the current Part 1 examinations. Chapters are by subject areas following the MRCP Part 1 syllabus. The questions have excellent clinical scenarios and the answers have topic summaries to aid revision in the specific subject areas.

*MRCP Part 1* - Philip A. Kalra  
1992

Designed for doctors studying for their MRCP exams, this edition has been rewritten and updated to include major areas which have increased in importance (AIDS etc). 300 multiple choice questions are arranged by subject chapters including one complete mock exam. Basic sciences and statistics are represented and correct answers, teaching notes and hints on examination technique are also included.

*Basic Medical Sciences for MRCP* - Philippa J. Easterbrook 2005

A revision book intended primarily for candidates sitting their MRCP Part 1 examination and which covers all the essential basic sciences. It focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and epidemiology which is rarely covered in other texts, but is often included in the exam. Despite the changes to the teaching of the undergraduate in medicine and the integration of the basic sciences with clinical education, the junior doctor, faced with postgraduate examinations, is always going to be poorly prepared for those increasingly important subjects. This book presents the essential information in the form of lists, tables, diagrams and flow

charts.

**Self-assessment Questions for MRCP Part 2** - Bilal Iqbal 2021

"Structured in the same way as the MRCP part 2 written exam, the two volumes of this self-assessment book together contain over 270 questions based on clinical scenarios which address the more difficult aspects of the medical curriculum. Chapters are divided by clinical specialties. Volume 1 includes: cardiology, dermatology, endocrinology and metabolic medicine, gastroenterology, haematology, and infectious diseases.

Volume 2 includes: neurology and ophthalmology, oncology and palliative care, psychiatry and clinical pharmacology, nephrology, respiratory medicine and rheumatology.

The first section of each chapter contains a clinical scenario followed by a multiple-choice, 'best-of-five', question written in the style of

the MRCP exam. The second section of each chapter contains the answer, a concise and clear explanation of the reasoning behind the given answer being correct, as well as a comprehensive tutorial on the subject matter which uses high-quality diagrams and tables to help readers absorb and retain information quickly and orderly. References for further reading are also then given for those interested in a broader review"--

**Medicine for MRCP** - Rupa

Bessant 2020-08-17

Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-

assessment questions. Drawing on the authors' expertise, Medicine for MRCP is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

*Complete MRCP(UK) Parts 1 and 2 Written Examination Revision Guide* - Shibley Rahman 2011-11-14

A practical manual of clinical medicine, arranged systematically and concisely as a wide-ranging systems-based survey of the main points of clinical practice - perfectly geared towards study for the MRCP(UK) Part 1 examination. Neil Black, in the Foreword The MRCP exam is not only a necessary hurdle to pass for any junior doctor wishing to become a hospital physician in the UK, but also an excellent training in the theory and clinical skills needed to be a senior physician. This book is a comprehensive revision text covering all the clinical subjects of the MRCP Part 1 and 2 examination. It adheres to the MRCP official syllabus and also reflects UK clinical guidelines as well as peer-reviewed medical research papers. The information is set out in an easily accessible way,

making studying for this important exam productive and enjoyable. Organised by subject area, salient points are noted and the contents give appropriate weighting to the individual topics. Boxed text, tables and figures all add to this concise guide's appeal.

Whilst it covers much traditional material such as lists of causes and differential diagnoses, this is the only book written entirely according to the current evidence-base as published by NICE, SCIE and the Cochrane Collaboration. This is a one-stop manual for candidates of the MRCP Part 1 and 2 but is also highly recommended for MRCP Part 2 written candidates and undergraduates sitting their final year examinations.

Best of Five Clinical Scenarios for the MRCP: Volume 1, Part 1
