A Taste for Poison - Neil Bradbury, Ph.D.

2022-02-01

“A fascinating tale of poisons and poisonous deeds which both educates and entertains.” -- Kathy Reichs A brilliant blend of science and crime, *A TASTE FOR POISON* reveals how eleven notorious poisons affect the body-- through the murders in which they were used. As any reader of murder mysteries can tell you,

poison is one of the most enduring—and popular—weapons of choice for a scheming murderer. It can be slipped into a drink, smeared onto the tip of an arrow or the handle of a door, even filtered through the air we breathe. But how exactly do these poisons work to break our bodies down, and what can we learn from the damage they inflict? In a fascinating blend of popular science, medical

history, and true crime, Dr. Neil Bradbury explores this most morbidly captivating method of murder from a cellular level. Alongside real-life accounts of murderers and their crimes—some notorious, some forgotten, some still unsolved—are the equally compelling stories of the poisons involved: eleven molecules of death that work their way through the human body and, paradoxically, illuminate the way in which our bodies function. Drawn from historical records and current news headlines, *A Taste for Poison* weaves together the tales of spurned lovers, shady scientists, medical professionals and political assassins to show how the precise systems of the body can be impaired to lethal effect through the use of poison. From the deadly origins of the gin & tonic cocktail to the arsenic-laced wallpaper in Napoleon's bedroom, *A Taste for Poison* leads readers on a riveting tour of the intricate, complex systems that keep us alive—or don't.

[The Confession](#) - John Grisham 2010-10-26

#1 NEW YORK TIMES BESTSELLER • An innocent man is about to be executed. Only a guilty man can save him. In 1998, in the small East Texas city of Sloan, Travis Boyette abducted, raped, and strangled a popular high school cheerleader. He buried her body so that it would never be found, then watched in amazement as police and prosecutors arrested and convicted Donté Drumm, a local football star, and marched him off to death row. Now nine years have passed. Travis has just been paroled in Kansas for a different crime; Donté is four days away from his execution. Travis suffers from an inoperable brain tumor. For the first time in his miserable life, he decides to do what's right and confess. But how can a guilty man convince lawyers, judges, and politicians that they're about to execute an innocent man?

The Innocent Man - John Grisham 2010-03-16

#1 NEW YORK TIMES BESTSELLER • John Grisham's first work of nonfiction: a true crime story that will terrify anyone who believes in the

presumption of innocence. • LOOK FOR THE NETFLIX ORIGINAL DOCUMENTARY SERIES "Both an American tragedy and [Grisham's] strongest legal thriller yet, all the more gripping because it happens to be true."—Entertainment Weekly In the town of Ada, Oklahoma, Ron Williamson was going to be the next Mickey Mantle. But on his way to the Big Leagues, Ron stumbled, his dreams broken by drinking, drugs, and women. Then, on a winter night in 1982, not far from Ron's home, a young cocktail waitress named Debra Sue Carter was savagely murdered. The investigation led nowhere. Until, on the flimsiest evidence, it led to Ron Williamson. The washed-up small-town hero was charged, tried, and sentenced to death—in a trial littered with lying witnesses and tainted evidence that would shatter a man's already broken life, and let a true killer go free. Impeccably researched, grippingly told, filled with eleventh-hour drama, *The Innocent Man* reads like a page-turning legal thriller. It is a

book no American can afford to miss.

The World Order - Our Secret Rulers -

Eustace Clarence Mullins 2016-01-20

Orwell laid down the dictum that slogans must be in Newspeak, "War is Peace, Freedom is Slavery, Ignorance is Strength". This is the program of the hegemony of parasitism through the World Order. The program of the World Order remains the same; Divide and Conquer. Orwell concludes "1984" with a denial that the victims of the World Order have any hope. He claims the World Order will always triumph, which is a great propaganda achievement for the hegemony of parasitism. He writes, "If you want a picture of the future, imagine a boot stamping on a human face - forever." He disposes of his "hero", a citizen who had vainly tried to oppose the Party, by ending the book with the "hero" whimpering that "He loved Big Brother". The peoples of the world not only will never love Big Brother, but they will soon dispose of him forever.

I Am Troy Davis - Jen Marlowe 2013-08-19

The true story of a woman's fight for her brother's life—and her own: "Essential for those interested in the U.S. justice system" (Library Journal). On September 21, 2011, Troy Anthony Davis was put to death by the State of Georgia. Davis's execution was protested by hundreds of thousands of people across the globe, and Pope Benedict XVI, Pres. Jimmy Carter, and fifty-one members of Congress all appealed for clemency. Davis's older sister, Martina, a former Army flight nurse who had served in the Gulf War, was one of Davis's strongest advocates—despite the fact that she was battling liver and metastatic breast cancer and died just weeks after her brother's death by lethal injection. This book, coauthored by Martina and writer Jen Marlowe, tells the intimate story of an ordinary man caught up in an inexorable tragedy. From his childhood in racially charged Savannah; to the confused events that led to the 1989 shooting of a police officer; to Davis's sudden arrest,

conviction, and two-decade fight to prove his innocence, *I Am Troy Davis* takes us inside a broken legal system where life and death hang in the balance. It is also an inspiring testament to the unbreakable bond of family and the resilience of love, and reminds us that even when you reach the end of justice, voices from across the world can rise together in chorus and proclaim, "I am Troy Davis." "Martina Correia's heroic fight to save her brother's life while battling for her own serves as a powerful testament for activists." —The Nation "Should be read and cherished." —Maya Angelou, author and civil rights activist

Murder by the Clock: A Lt. Valcour Mystery - Rufus King 2015-02-25

[Blind Faith](#) - Joe McGinniss 2012-10-17

The sordid, #1 New York Times bestselling true crime story of adultery, addiction, gambling debt, and murder in a privileged suburban town—from author and journalist Joe McGinniss. The Marshalls were the model family of Tom's River, New Jersey, living the American dream and seemingly in possession of all that money could buy. Rob Marshall, a successful insurance broker, was the big breadwinner, king of the country club set. Maria Marshall was his stunningly beautiful wife and the perfect mom to their three great kids. Then one night while the couple drove home from Atlantic City, Rob, his head bloodied, reported Maria had been brutally slain. Sympathy poured in—until disquieting facts began to surface...and the true story of adultery, gambling, drugs and murder tore the mask off Rob Marshall and the blinders off the town that thought he could do no wrong.

Hypothyroidism - Drahomira Springer

2012-02-08

Hypothyroidism is the most common thyroid

disorder and it is significantly more frequent than presented - millions of people suffer from this disease without knowing it. People with this condition will have symptoms associated with slow metabolism. Estimates of subclinical hypothyroidism range between 3 to 8 %, increasing with age, whereas it more likely affects women than men. About 10% of women may have some degree of thyroid hormone deficiency. Hypothyroidism may affect lipid metabolism, neurological diseases or other clinical conditions. The book includes studies on advancements in diagnosis, regulation and replacement therapy, thyroid ultrasonography and radioiodine therapy for hypothyroidism. "Hypothyroidism - Influences and Treatments" contains many important specifications, results of scientific studies and innovations for endocrine practice.

Anatomy of Injustice - Raymond Bonner

2013-01-08

From Pulitzer Prize winner Raymond Bonner,

the gripping story of a grievously mishandled murder case that put a twenty-three-year-old man on death row. In January 1982, an elderly white widow was found brutally murdered in the small town of Greenwood, South Carolina. Police immediately arrested Edward Lee Elmore, a semiliterate, mentally retarded black man with no previous felony record. His only connection to the victim was having cleaned her gutters and windows, but barely ninety days after the victim's body was found, he was tried, convicted, and sentenced to death. Elmore had been on death row for eleven years when a young attorney named Diana Holt first learned of his case. With the exemplary moral commitment and tenacious investigation that have distinguished his reporting career, Bonner follows Holt's battle to save Elmore's life and shows us how his case is a textbook example of what can go wrong in the American justice system. Moving, enraging, suspenseful, and enlightening, *Anatomy of Injustice* is a vital contribution to our nation's

ongoing, increasingly important debate about inequality and the death penalty.

Murder by Injection? - Terry L. Cook
2009-10-20

Drug-industry investigators have uncovered documents exposing that an international drug ring, operating from New York City, is behind the H1N1 swine "flu-fright" and mass-vaccination preparations. Dr. Leonard G. Horowitz and Sherri Kane, an investigative journalist, have released evidence in legal affidavits that leaders of a private global biotechnology "trust" are behind the pandemic flu, including its origin and alleged prevention via vaccinations. Their evidence proves that industrialists are operating a "crime-ring" within the "Partnership for New York City" (PNYC) and are behind the pandemic's creation, media persuasions, vaccination preparations, and health official promotions. "David Rockefeller's trust, that engages several powerful partners on Wall Street, including media moguls Ruppert

Murdock, Morton Zuckerman, Thomas Glocer, and former Chairman of the Board of Directors of the Federal Reserve Bank of New York, Jerry Speyer, are implicated in advancing global genocide," Dr. Horowitz has written to FBI directors. "This 'partnership' controls biotechnology research and development globally. Health commerce internationally is also controlled virtually entirely by this trust that also exercises near complete control over mainstream media to promote/propagandize its products and services for the drug cartel's organized crime. This trust, in essence, makes or breaks medical and natural healing markets, primarily through the mass media companies and propaganda it wields for social engineering and market building," Dr. Horowitz wrote. This book discloses the truth about the Swine-Flu hoax! Don't take the vaccine as it may seriously harm or kill you!

Conversations with John F. Kennedy - Eustace Clarence Mullins 2018-11-29

During the spring of 1966, the vision of the late John F. Kennedy, the martyred President of the United States, appeared to me on three separate occasions, in three different places, and engaged me in lengthy disquisitions about the condition of man, the dangers apparent in his present estate, and what must be done to avert them. I made it clear during these conversations that I was very dubious about the value of anything that I might be able to do, but John F. Kennedy assured me that for a number of reasons, which he explained, I was the likeliest person to proceed with this assignment. I have lost none of the doubts which assailed me during these conversations. If anything, they have increased. First of all, I can offer no evidence to a mechanist or materialist society that the conversations took place. They must start or fall according to the information which they contain. There are no signed documents; there is no blurred photograph of an evanescent mist which I could claim to be the spirit of John F. Kennedy

returning to his present mode of being. I cannot even say that I actually SAW John F. Kennedy during these conversations. The physical, or rather, non-physical, circumstances of these encounters were quite simple. On each occasion, I was engulfed by a strange radiance in which the physical world disappeared, and I was serenely aware that I was in the Presence of John F. Kennedy. There was absolute peace, and I was under the impression that nothing ever had or ever could disturb us in these surroundings. It was as though one had attained a state of ultimate beauty, and had left behind forever all the cares of earth.

Let the Lord Sort Them - Maurice Chammah
2021-01-26

NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America “If you’re one of those people who despair that nothing changes, and dream that something can,

this is a story of how it does.”—Anand Giridharadas, The New York Times Book Review
WINNER OF THE J. ANTHONY LUKAS AWARD
In 1972, the United States Supreme Court made a surprising ruling: the country’s death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty’s decline, a trend so durable that even in Texas the punishment appears again close to extinction. In Let the Lord Sort Them, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation’s death penalty

capital, before becoming a judge on the state's highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

Flesh and Blood - Nicola Tallant 2012-07-16
In *Flesh and Blood*, Sunday World Investigations Editor, Nicola Tallant looks at the rising phenomenon of murder-suicide in Ireland, at events which, while shocking in the extreme, happen in tight-knit communities, behind the

closed doors of apparently loving homes. She takes us inside these houses of horror and pieces together what happened in seventeen prominent cases, including the horrific murder of four-year-old Deirdre Crowley, whose abductor father shot her dead so that her mother would never see her again; the case of Caitlin Innes, murdered after her Communion Day; the tragic McElhill children, torched to death by their own father; and the case of mother Sharon Grace who, in a state of extreme desperation, drove off a pier with her children in the car. It examines what warning signs, if any, were there before loving fathers and mothers turned killer in their own homes, and looks at the roles of the HSE, the Gardai and families and friends in the build up to these tragic events. Is it too easy to whitewash these crimes as those of the mentally ill? Or can jealousy tip the scales in an otherwise balanced mind? Are there common factors that link these cases? And what steps can be taken to ensure that warning signs are heeded in the future

before tragedy strikes again?

Race, Rape, and Injustice - Barrett J. Foerster
2012-12-15

This book tells the dramatic story of twenty-eight law students—one of whom was the author—who went south at the height of the civil rights era and helped change death penalty jurisprudence forever. The 1965 project was organized by the NAACP Legal Defense and Educational Fund, which sought to prove statistically whether capital punishment in southern rape cases had been applied discriminatorily over the previous twenty years. If the research showed that a disproportionate number of African Americans convicted of raping white women had received the death penalty regardless of nonracial variables (such as the degree of violence used), then capital punishment in the South could be abolished as a clear violation of the Fourteenth Amendment's Equal Protection Clause. Targeting eleven states, the students cautiously made their way

past suspicious court clerks, lawyers, and judges to secure the necessary data from dusty courthouse records. Trying to attract as little attention as possible, they managed—amazingly—to complete their task without suffering serious harm at the hands of white supremacists. Their findings then went to University of Pennsylvania criminologist Marvin Wolfgang, who compiled and analyzed the data for use in court challenges to death penalty convictions. The result was powerful evidence that thousands of jurors had voted on racial grounds in rape cases. This book not only tells Barrett Foerster's and his teammates story but also examines how the findings were used before a U.S. Supreme Court resistant to numbers-based arguments and reluctant to admit that the justice system had executed hundreds of men because of their skin color. Most important, it illuminates the role the project played in the landmark Furman v. Georgia case, which led to a four-year cessation of capital punishment and a

more limited set of death laws aimed at constraining racial discrimination. A Virginia native who studied law at UCLA, Barrett J. Foerster (1942-2010) was a judge in the Superior Court in Imperial County, California. MICHAEL MELTSNER is the George J. and Kathleen Waters Matthews Distinguished Professor of Law at Northeastern University. During the 1960s, he was first assistant counsel to the NAACP Legal Defense Fund. His books include *The Making of a Civil Rights Lawyer* and *Cruel and Unusual: The Supreme Court and Capital Punishment*.

Renewed for Murder - Victoria Gilbert
2021-12-07

Librarian Amy Webber dances with death in critically acclaimed author Victoria Gilbert's sixth Blue Ridge Library mystery. August in Taylorsford, Virginia finds library director Amy Webber and her new husband, dancer Richard Muir, settling into married life--and a new project. Richard and his dance partner, Karla,

are choreographing a suite based on folk music and folk tales, while Amy scours the library's resources to supply background information on the dance's source material. But the mellifluous music comes to a jarring halt when an unknown woman's body turns up in Zelda Shoemaker's backyard gazebo. Chief Deputy Brad Tucker puts Zelda at the top of his suspect list, thanks to a blackmail letter he finds in the dead woman's pocket. Zelda's best friend, Amy's aunt Lydia Talbot, begs Amy to use her research skills to clear Zelda's name. But the task is confounded by Zelda's very out-of-character refusal to reveal why the victim might have blackmailed her. Complicating matters further, Amy unearths records of a long-ago tragedy that casts doubt on Zelda's innocence. She enlists hubby Richard, Aunt Lydia, art dealer Kurt Kendrick, Mayor Sunny Fields, and sundry other quirky townsfolk in a quest to exonerate Zelda. But will revealing the truth end up forcing Zelda to spend the rest of her life behind bars? Meanwhile, the killer is

still out there. Amy had better be fleet on her feet, because death is on her dance card, and her number may be up.

It's just astounding." — Paula Hawkins, author of *Into the Water* and *The Girl on the Train* "This book is a marvel. The Fact of a Body is equal parts gripping and haunting and will leave you questioning whether any one story can hold the full truth." — Celeste Ng, author of the New York Times bestselling *Everything I Never Told You* and *Little Fires Everywhere* Before Alex Marzano-Lesnevich

begins a summer job at a law firm in Louisiana, working to help defend men accused of murder, they think their position is clear. The child of two lawyers, they are staunchly anti-death penalty. But the moment convicted murderer Ricky Langley's face flashes on the screen as they review old tapes—the moment they hear him speak of his crimes -- they are overcome with the feeling of wanting him to die. Shocked by their reaction, they dig deeper and deeper into the case. Despite their vastly different circumstances, something in his story is unsettlingly, uncannily familiar. Crime, even the darkest and most unsayable acts, can happen to any one of us. As Alex pores over the facts of the murder, they find themselves thrust into the complicated narrative of Ricky's childhood. And by examining the details of Ricky's case, they are forced to face their own story, to unearth long-buried family secrets, and reckon with a past that colors their view of Ricky's crime. But another surprise awaits: They weren't the only

one who saw their life in Ricky's. An intellectual and emotional thriller that is also a different kind of murder mystery, *THE FACT OF A BODY* is a book not only about how the story of one crime was constructed -- but about how we grapple with our own personal histories. Along the way it tackles questions about the nature of forgiveness, and if a single narrative can ever really contain something as definitive as the truth. This groundbreaking, heart-stopping work, ten years in the making, shows how the law is more personal than we would like to believe -- and the truth more complicated, and powerful, than we could ever imagine. *Rockefeller Medicine Men* - E. Executing Grace - Shane Claiborne 2016-06-07
In this reasoned exploration of justice, retribution, and redemption, the champion of the new monastic movement, popular speaker, and author of the bestselling *The Irresistible*

Revolution offers a powerful and persuasive appeal for the abolition of the death penalty. The Bible says an eye for an eye. But is the state's taking of a life true—or even practical—punishment for convicted prisoners? In this thought-provoking work, Shane Claiborne explores the issue of the death penalty and the contrast between punitive justice and restorative justice, questioning our notions of fairness, revenge, and absolution. Using an historical lens to frame his argument, Claiborne draws on testimonials and examples from Scripture to show how the death penalty is not the ideal of justice that many believe. Not only is a life lost, so too, is the possibility of mercy and grace. In *Executing Grace*, he reminds us of the divine power of forgiveness, and evokes the fundamental truth of the Gospel—that no one, even a criminal, is beyond redemption.

Murder in Mind - Mystery Writers of America
1967

The Rape of Justice - Eustace Clarence Mullins
2016-05-07

The first codifications of law recorded in civilization acknowledged the importance of law to our human systems. Noah enjoined his sons to observe justice, to cover the shame of their flesh, to bless their Creator, to honor their father and mother, and to refrain from iniquity and uncleanness. These principles were later refined into the form in which we know them, the Ten Commandments. Man's very existence was predicated upon his obedience to the Law of God. Tradition maintains that this law was formulated as a verbal acknowledgement of the covenant between God and His People. It entailed consideration from both parties, and thus was a legal and binding contract according to the established principles of law. However, this Covenant did not encompass all of the known population of the world, but merely that group known as God's People, the People of Israel. As chronicled in Genesis, the first book of

the Bible, Man, that is, Adam, was ruddy of complexion. This ruddiness was the conscious reminder of his dedication to upholding the Law of God. Whenever he transgressed this law, he would blush, in conscious acknowledgement that he had been disobedient. The blood would rush to his face, in a visible blush, as the mark of his disobedience and the reminder that he must fulfill the Law.

The Secrets of the Federal Reserve -- The

London Connection - Eustace Mullins

2018-09-15

From the Foreword. In 1949, while I was visiting Ezra Pound who was a political prisoner at St. Elizabeth's Hospital, Washington, D.C. (a Federal institution for the insane), Dr. Pound asked me if I had ever heard of the Federal Reserve System. I replied that I had not, as of the age of 25. He then showed me a ten dollar bill marked ""Federal Reserve Note"" and asked me if I would do some research at the Library of Congress on the Federal Reserve System which had issued this bill. Pound was unable to go to

the Library himself, as he was being held without trial as a political prisoner by the United States government. After he was denied broadcasting time in the U.S., Dr. Pound broadcast from Italy in an effort to persuade people of the United States not to enter World War II. Franklin D. Roosevelt had personally ordered Pound's indictment, spurred by the demands of his three personal assistants, Harry Dexter White, Lauchlin Currie, and Alger Hiss, all connected with Communist espionage.

Murder by Injection: The Story of the Medical Conspiracy Against America - Eustace Clarence Mullins 2022-07-27

The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees,

foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The

trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through

"charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

Insulin Murders - Vincent Marks 2007-04-26
Insulin Murders is the first book on the market to describe real life cases of murder (and purported murder) using insulin (and other hypoglycaemic agents) as a murder weapon. Written by a leading authority on insulin and its use as a murder weapon, this is a gripping account of true life crime, intended for doctors

and laypeople alike. Insulin Murders is a unique collection of real life tales and includes details of the evidence that proved the innocence of Claus von Bulow, played by Jeremy Irons in the well known Hollywood film about the case, Reversal of Fortune, in the first criminal trial ever to be televised in the US. Insulin Murders is written by Vincent Marks, author of the well-known and critically acclaimed Panic Nation and world authority on insulin, and Caroline Richmond, a well known medical journalist and writer, with a foreword by Nick Ross, journalist and broadcaster. It will appeal to both the medical and non-medical communities, and especially to all those with an interest in forensic medicine or true life crime.

Joe Cinque's Consolation - Helen Garner
2007-11-10

NOW A MAJOR MOTION PICTURE A true story of death, grief and the law from the 2019 winner of the Australia Council Award for Lifetime Achievement in Literature. In October 1997 a

clever young law student at ANU made a bizarre plan to murder her devoted boyfriend after a dinner party at their house. Some of the dinner guests-most of them university students-had heard rumours of the plan. Nobody warned Joe Cinque. He died one Sunday, in his own bed, of a massive dose of rohypnol and heroin. His girlfriend and her best friend were charged with murder. Helen Garner followed the trials in the ACT Supreme Court. Compassionate but unflinching, this is a book about how and why Joe Cinque died. It probes the gap between ethics and the law; examines the helplessness of the courts in the face of what we think of as 'evil'; and explores conscience, culpability, and the battered ideal of duty of care. It is a masterwork from one of Australia's greatest writers. Winner of the Ned Kelly Award for Best True Crime 2005 Winner of the ABIA Book of the Year 2004 PRAISE FOR JOE CINQUE'S CONSOLATION "Garner's book is a writer's profound response to a tragedy and to questions

about human responsibility over time as well as at precise moments" The Age "This is a work of great passion and of countervailing humanity - a book of witness..." Australian Book Review

The Curse of Canaan - Eustace Clarence Mullins
2016-01-18

Indeed, the great movement of modern history has been to disguise the presence of evil on the earth, to make light of it, to convince humanity that evil is to be "tolerated, " "treated with greater understanding, " or negotiated with, but under no circumstances should it ever be forcibly opposed. This is the principal point of what has come to be known as today's liberalism, more popularly known as secular humanism. The popular, and apparently sensible, appeal of humanism is that humanity should always place human interests first. The problem is that this very humanism can be traced in an unbroken line all the way back to the Biblical "Curse of Canaan." Humanism is the logical result of the demonology of history.

Modern day events can be understood only if we can trace their implications in a direct line from the earliest records of antiquity

series from Apple TV+ • A landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and the suspenseful portrayal of the quest for truth and justice—from a Pulitzer Prize-winning physician and reporter “An amazing tale, as inexorable as a Greek tragedy and as gripping as a whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. Months later, a doctor and two nurses were arrested and accused of injecting some of those patients with life-ending drugs. *Five Days at Memorial*, the culmination of six years of reporting by Pulitzer Prize winner

Sheri Fink, unspools the mystery, bringing us inside a hospital fighting for its life and into the most charged questions in health care: which patients should be prioritized, and can health care professionals ever be excused for hastening death? Transforming our understanding of human nature in crisis, *Five Days at Memorial* exposes the hidden dilemmas of end-of-life care and reveals how ill-prepared we are for large-scale disasters—and how we can do better. Right Here, Right Now - Lynden Harris
2021-04-02

Upon receiving his execution date, one of the thousands of men living on death row in the United States had an epiphany: “All there ever is, is this moment. You, me, all of us, right here, right now, this minute, that's love.” *Right Here, Right Now* collects the powerful, first-person stories of dozens of men on death rows across the country. From childhood experiences living with poverty, hunger, and violence to mental illness and police misconduct to coming to terms with their executions, these men outline their struggle to maintain their connection to society and sustain the humanity that incarceration and its daily insults attempt to extinguish. By offering their hopes, dreams, aspirations, fears, failures, and wounds, the men challenge us to reconsider whether our current justice system offers actual justice or simply perpetuates the social injustices that obscure our shared humanity.

Murder by Injection - Eustace Clarence
Mullins 2016-04-21

The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls,

surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other

significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof

of this operation may be the most disturbing revelation of my work.

The Good Nurse - Charles Graeber 2013-04-15

The Netflix movie starring Academy Award-winners Eddie Redmayne and Jessica Chastain—based on this “stunning book...that should and does bring to mind In Cold Blood”—takes you inside the mind of America's most prolific serial killer, whose 16-year long "nursing" career left as many as 400 dead. (New

York Times) After his December 2003 arrest, nurse Charlie Cullen was quickly dubbed “The Angel of Death” by the media. But he was no mercy killer nor a simple monster. Cullen was, at times, a trusted colleague, a beloved father, and a best friend. He was also perhaps the most prolific serial killer in American history, implicated in the deaths of as many as 400 patients. Cullen’s murderous career spanned sixteen years and nine hospitals. Now, in a riveting piece of investigative journalism, Charles Graeber uncovers how Cullen gamed the system, and tells the unbelievable true story of the confidential informant asked to risk her life and career to betray a friend and finally stop a serial killer. Based on extensive never-before-seen evidence and years of exclusive jailhouse conversations with Cullen himself, *THE GOOD NURSE* is a mesmerizing and irresistibly paced portrait of medicine and madness. This book will make you look at hospitals and the people who work in them in an entirely different way.

The Study of The Federal Reserve and Its Secrets - Eustace Clarence Mullins 2013-04-24
In the fall of 1949 I went to the Library of Congress to get material for a newspaper article about the Federal Reserve Board of Governors. What I expected to be a week's labor turned into a lengthy research job of nineteen months, for I discovered, in my initial inquiry, that there existed not one narrative account of the origins and activities of this powerful organization. The standard works on the Federal Reserve System, almost entirely abstruse and technical works on economics, I found of little practical value. Even in the matter of acceptances, the usual textbooks contained no information upon such an important item in America's economic history as the changeover from the open-book system of credit to the acceptance system, which has wrought such vast changes in our practice of commerce, and for this information I found only one source, a few pamphlets published by the American Acceptance Council from 1915 to

1928. It is, then, little wonder that the student with a Master's Degree in Economics from one of the better universities will see here for the first time material which should have been before him in his elementary courses." Eustace Clarence Mullins, Jr was a populist American political writer and biographer. His most famous and influential work is *The Secrets of The Federal Reserve*, described by congressman Wright Patman as 'a very fine book [which] has been very useful to me'. He is generally regarded as one of the most influential authors in the genre of conspiracism.

Hypothyroidism Type 2 - Mark Starr 2005

"An astonishing book revealing the cause and successful treatment for the plague of illnesses affecting western civilization; including obesity, heart attacks, depression, diabetes, strokes, headaches, chronic fatigue, and many more. In Dr. Starr's description of Type 2 Hypothyroidism, he presents overwhelming evidence showing a majority of Americans suffer

this illness, which is due to environmental and hereditary factors. Laboratory testing used to diagnose hypothyroidism is completely inadequate, and current treatment for hypothyroidism is ineffective. Groundbreaking research shows how persistent environmental toxins prevent thyroid and other hormones from working properly. This book will lead you to understanding more about your health than anything you have ever read. Many of the more recent patients who have sought help from Dr. Starr have come to him with Hashimoto's and Graves' diseases. As a result, the updated 2011 version added a chapter on Hashimoto's and Graves' disease. Revised for 2013 with a contribution by Jerry Tennant, M.D."-- Amazon.com, viewed October 14, 2013.

Women Who Kill Men - Gordon Morris Bakken 2009

The late nineteenth and early twentieth centuries were a revolutionary period in the lives of women, and the shifting perceptions of

women and their role in society were equally apparent in the courtroom. *Women Who Kill Men* examines eighteen sensational cases of women on trial for murder from 1870 to 1958. The fascinating details of these murder trials, documented in court records and embellished newspaper coverage, mirrored the changing public image of women. Although murder was clearly outside the norm for standard female behavior, most women and their attorneys relied on gendered stereotypes and language to create their defense and sometimes to leverage their status in a patriarchal system. Those who could successfully dress and act the part of the victim were most often able to win the sympathies of the jury. Gender mattered. And though the norms shifted over time, the press, attorneys, and juries were all informed by contemporary gender stereotypes.

[Proof of Guilt](#) - Kathleen A. Cairns 2020-04-01
Barbara Graham might have been a diabolical dame in a hard-boiled detective story--beautiful,

sexy, and deadly. Charged alongside two male friends in the murder of an elderly widow during a botched robbery attempt, "Bloody Babs" became the third woman executed in California--after a 1953 trial that played out before standing-room-only crowds captured the imaginations of journalists, filmmakers, and death penalty opponents. Why, Kathleen A. Cairns asks, of all the capital cases in the twentieth century, did Graham's have such political resonance and staying power? Leaving aside the question of guilt or innocence--debated to this day--Cairns examines how Graham's case became a touchstone in the ongoing debate over capital punishment. While prosecutors positioned the accused woman as a *femme fatale*, the media came to offer a counternarrative for Graham's life highlighting her abusive and lonely beginnings. Cairns shows how Graham's case became crucial to the abolitionists of the time, who used instances of questionable guilt to raise awareness of the

arbitrary and capricious nature of death penalty prosecutions. Critical in keeping capital punishment in the forefront of public consciousness until abolitionists homed in on a winning strategy, Graham's case illustrates the power of individual stories to shape wider perceptions and ultimately public policies.

Murder by Family - Kent Whitaker 2008-09-23

This is the tragic story of Kent Whitaker's heart-wrenching journey toward forgiveness and faith after the brutal murder of his wife and one of his sons. Straight from the headlines comes an incredible true story of a son's treachery. For the first time, readers are offered inside access to the emotional drama that went on behind the scenes. At the core is the remarkable healing power of forgiveness, demonstrated by Kent Whitaker, which shows how the survivors of such atrocious events can still forgive those who have permanently damaged their lives. One evening, the Whitaker family returned home after dinner, celebrating a son's impending

graduation from college. On opening the front door, they faced a gunman lying in wait. The gunman opened fire, instantly killing the younger son and Kent's wife, leaving Kent and his older son lying wounded until police and ambulances arrived. While recovering in the hospital, Kent resolved in his heart to forgive whoever was responsible for the deaths of his wife and son. Over the next few weeks, it was discovered that the whole murder plot had been orchestrated by the surviving son -- whom Kent had unknowingly forgiven. After a trial that resulted in a death sentence for his son, Kent emerged from this harrowing ordeal to share their astonishing journey toward forgiveness and redemption.

End of Its Rope - Brandon L. Garrett
2017-09-25

Today, death sentences in the U.S. are as rare as lightning strikes. Brandon Garrett shows us the reasons why, and explains what the failed death penalty experiment teaches about the effect of

inept lawyering, overzealous prosecution, race discrimination, wrongful convictions, and excessive punishments throughout the criminal justice system.

Cruel & Unusual - John D. Bessler 2012

This indispensable history of the Eighth Amendment and the founders' views of capital punishment is also a passionate call for the abolition of the death penalty based on the notion of cruel and unusual punishment
