Practice Skills in Social Work and Welfare - Jane Maidment 2020-07-16
Practice Skills in Social Work and Welfare has established itself as the essential text to prepare students for the wide-ranging challenges they will face in today's human service sector. This new third edition

continues the text's core strength of combining grounded theory with practical examples to build the reader's confidence and expertise in key areas of practice. Part I outlines the anti-oppressive and strengths-based practices that underpin the book's approach and provides the

context for learning practice skills in a group setting, during community development projects and with individuals. Part II focuses on developing effective relationships with clients, illustrating through realistic scenarios how social work and human service workers can apply their practice skills in a range of settings. In Part III the essential elements of client assessment are explored, including risk assessment and cross-cultural perspectives. Issues surrounding intervention are examined in Part IV from working with families and groups to challenging constructively and safely, while research, evaluation and facilitating closure are covered in the final part. This third edition is fully revised and updated, and features new material on using information technology, working with Indigenous Aboriginal and Torres Strait Islander peoples and Maori, and engaging with families in the statutory system. 'The main strength of the book is the

consistency of its themes throughout the text.' - Karen Heycox in *Australian Social Work Sentencing by English Magistrates as a Human Process* - Andreas Kapardis 1985

The Social Consequences of Conviction - John Powell Martin 1971

Sentencing and Criminal Justice - Andrew Ashworth 2010-02-04

Andrew Ashworth expertly examines the key issues in English sentencing policy and practice including the mechanisms for producing sentencing guidelines. He considers the most high-profile stages in the criminal justice process such as the Court of Appeal's approach to the custody threshold, the framework for the sentencing of young offenders and the abiding problems of previous convictions in sentencing. Taking into account the Criminal Justice and Immigration Act 2008 and the

Coroners and Justice Act 2009, the book's inter-disciplinary approach places the legislation and guidelines on sentencing in the context of criminological research, statistical trends and theories of punishment. By examining the law in relation to elements of the wider criminal justice system, including the prison and probation services, students gain a rounded perspective on the relevant principles and problems of sentencing and criminal justice.

Anarchism - Carissa Honeywell
2021-01-28

Is it possible to abolish coercion and hierarchy and build a stateless, egalitarian social order based on non-domination? There is one political tradition that answers these questions with a resounding yes: anarchism. In this book, Carissa Honeywell offers an accessible introduction to major anarchist thinkers and principles, from Proudhon to Goldman, non-domination to prefiguration. She helps students understand the nature of anarchism by

examining how its core ideas shape important contemporary social movements, thereby demonstrating how anarchist principles are relevant to modern political dilemmas connected to issues of conflict, justice and care. She argues that anarchism can play a central role in tackling our major global problems by helping us rethink the essentially militarist nature of our dominant ideas about human relationships and security. Dynamic, urgent, and engaging, this new introduction to anarchist thought will be of great interest to both students as well as thinkers and activists working to find solutions to the multiple crises of capitalist modernity.

Understanding Great Expectations - George Newlin
2000

After 140 years, *Great Expectations* is still one of the West's most admired, read and studied works of fiction. This casebook of primary documents, collateral readings and essays brings to life both Dickens' masterpiece and the social issues reflected in it. Newlin has collected significant primary sources on the question, "What is a 'Gentleman'?" and on the dilemma of Victorian women, supplying extracts from the writings of Lord Chesterfield, Anthony Trollope, and Harold Laski, as well as long passages from Mary Wollstonecraft's 1792 *A Vindication of the Rights of Women*, and John Stuart Mill's 1861 *The Subjection of Women*. The work also covers blacksmithing and crime and punishment in early 19th century England, the transportation of convicts, and the state of the London theatre during the period. There are first-hand accounts of life on prison ships and the travails and opportunities facing transportees in Australia. Essays and original

materials on class distinctions, with demographic data from the 1812 Census, and on the feminist movement, point up the socioeconomic hierarchies and strata that characterized the early Industrial Revolution and subsequent Victorian society. Other documents depict physical settings such as the Marsh County and the Thames, and Bow Street in London. This collection of sources will help broaden students' understanding of *Great Expectations* and places it within its historical context. *ID Theft* - United States. Congress. Senate. From Juvenile Delinquency to Adult Crime - Rolf Loeber
2012-07-12

What makes a juvenile delinquent develop into an adult criminal? Edited by two leading authorities in the fields of psychology and criminology, *Transitions from Juvenile Delinquency to Adult Crime* examines why the period of

transition to adulthood is important and how it can be better understood and addressed both inside and outside of the justice system. With serious scholarly analysis and practical policy proposals, this book addresses what can be done to ensure that today's juvenile delinquents do not become tomorrow's adult criminals.

How Groups Encourage Misbehavior - Kevin R Murphy
2021-05-27

How Groups Encourage Misbehavior explores the psychological and social processes by which groups develop a tolerance for and even encourage misbehavior. Drawing from decades of research on social, cognitive and organizational psychology, as well as a deep well of historical research, this book shows how commitment to groups, organizations and movements can turn moral individuals into amoral agents. Pulling together what have been traditionally distinct areas of study, How Groups Encourage Misbehavior provides a detailed and unified account of how good

organizations go bad and how groups of all types can push otherwise honest and upright individuals to behave in ways that violate laws and social norms. This text describes how social norms, rationalization, the characteristics of formal and informal groups, attachment to groups and organizations, and the structure of organizational life can all contribute to misbehavior. Each chapter includes one or more sidebar discussions of relevant and interesting examples to illustrate the ways groups and organizations encourage and support misbehavior. The final two chapters discuss how many of these same attributes and processes can be used to encourage positive behaviors and foster recovery from dysfunctional and corrupt cultures and modes of behavior. A valuable text for a broad range of psychology courses, *How Groups Encourage Misbehavior* will especially appeal to practitioners, scholars, and students interested in ethics in

organizations and the intersection between social psychology and organizational behavior.

The KGB Campaign against Corruption in Moscow,

1982-1987 - Luc Duhamel 2010

The 1980s brought a whirlwind of change to Communist Party politics and the Soviet Republic. By mid-decade, Gorbachev's policies of perestroika and glasnost had opened the door to democratic reform. Later, mounting public unrest over the failed economy and calls for independence among many republics ended with the dissolution of the Soviet Union in 1991. Often overlooked in these events, yet monumental to breaking the Communist Party's institutional stranglehold, were the KGB anticorruption campaigns of 1982 to 1987. In this original study, Luc Duhamel examines the KGB at its pinnacle of power. The appointment of former KGB director Yuri Andropov as general secretary of the Communist Party in 1982 marked the height of KGB influence. For the first time

since Stalin, Beria, and the NKVD, there was now an unquestioned authority to pursue violators of Soviet law, including members of the Communist Party. Duhamel focuses on the KGB's investigation into Moscow's two largest trade organizations: the Chief Administration of Trade and the Administration of the Moscow Fruit and Vegetable Office. Like many of their Soviet counterparts, these state-controlled institutions were built on a foundation of bribery and favoritism among Communist Party members, workers, and their bosses. This book analyzes the multifarious networks of influence peddling, appointments, and clientelism that pervaded these trade organizations and maintained their ties to party officials. Through firsthand research into the archives of the Andropov-era KGB and the prosecutor general's office, Duhamel uncovers the indictment of thousands of trade organization employees, the reprimand of Communist

Party members, and the radical change in political ideology manifested by these proceedings. He further reveals that despite aggressive prosecutions, the KGB's power would soon wither, as the agency came under intense scrutiny because of its violent methods and the ghosts of the NKVD. The reinstatement of Moscow city government control over the trade organizations, the death of Andropov, and the rising tide of democratic reform would effectively end the reign of the KGB and its anticorruption campaigns.

The Enemy Among Us - David

Fiedler 2003

"Life as a POW in the thirty camps scattered across Missouri was a surprisingly pleasant experience. The men ate well and were quartered under the same conditions as the Americans assigned to guard them, and the prisoners often enjoyed a great deal of freedom. The internees worked on local farms, often "guarded" only by a bored GI snoozing under a shade tree. They organized camp theater troupes, sports leagues, and orchestras, and some prisoners studied at the camp library for classes at the POW "university.""

Social Work and the Law - Chris Maylea 2019-12-04

This exciting new textbook introduces students to the key aspects of the law and legal frameworks essential for social work practice in Australia.

Simple and easy to read, it communicates the complex legal concepts in practice in ways students can easily understand. With a focus on human rights and ethical conduct, it's both concept based, examining the ways of thinking and understanding law and social work interactions, and topic based,

exploring the different specific areas of law which social workers are most likely to come into contact with. This is essential reading for any student taking a unit in Social Work Law. Specific to Australia, it accounts for Australian jurisdictions, and can be easily integrated into the classroom context, with case studies, questions for discussion and links to further resources, including interactive resources and a website to support further learning and provide updates to changes in the law between editions.

Reforming Community

Penalties - Sue Rex

2013-01-11

This book sets out to explore the role of community penalties in sentencing, arguing that the absence of a strong intellectual framework or underpinning has hampered their development in policy and practice. The research undertaken for this

book involved asking people with a particular stake in criminal justice what the point of punishment was and what the courts were trying to achieve in sentencing offenders. It identifies the role of communication as crucial, and looks at ways in which 'communication' can be used to make punishment more constructive, exploring the role of restorative processes and considering the implications of the custody-community provisions in the Criminal Justice Act 2003. *Reforming Community Penalties* is a major contribution to penological theory and thinking about sentencing and role in criminal justice, and will be essential reading for all with a practitioner or academic interest in this subject. Its findings are likely to play a key role in aiding the development and practice of community penalties, and enabling them to command greater support, and to become a genuine alternative to the increasing use of custody in sentencing and punishment.

Social Psychology - John

Root and Branch - Graham

Russell Gao Hodges

2005-10-12

In this remarkable book, Graham Hodges presents a comprehensive history of African Americans in New York City and its rural environs from

the arrival of the first African-- a sailor marooned on

Manhattan Island in 1613--to the bloody Draft Riots of 1863.

Throughout, he explores the intertwined themes of freedom and servitude, city and countryside, and work,

religion, and resistance that shaped black life in the region through two and a half

centuries. Hodges chronicles the lives of the first free black settlers in the Dutch-ruled city, the gradual slide into

enslavement after the British takeover, the fierce era of

slavery, and the painfully slow process of emancipation. He

pays particular attention to the black religious experience in all its complexity and to the

vibrant slave culture that was shaped on the streets and in

the taverns. Together, Hodges shows, these two potent forces

helped fuel the long and

arduous pilgrimage to liberty.

Encyclopedia of Human Services and Diversity - Linwood H. Cousins 2014-09-05

Encyclopedia of Human Services and Diversity is the first encyclopedia to reflect the changes in the mission of human services professionals as they face today's increasingly diverse service population. Diversity encompasses a broad range of human differences, including differences in ability and disability, age, education level, ethnicity, gender, geographic origin, religion, sexual orientation, socioeconomic class, and values.

Understanding the needs and problems of Asian Americans, Hispanic Americans, the deaf, the blind, the LGBT community, and many other groups demands an up-to-date

and cutting-edge reference. This three-volume encyclopedia provides human services students, professors, librarians, and practitioners the reference information they need to meet the needs of an increasingly diverse population. Features: 600 signed entries are organized A-to-Z across three volumes. Entries, authored by key figures in the field, conclude with cross references and further readings. A Reader's Guide groups related articles within broad, thematic areas, such as aging, community mental health, family and child services, substance abuse, etc. A detailed index, the Reader's Guide, and cross references combine for search-and-browse in the electronic version. A helpful Resource Guide guides students to classic books, journals, and web sites, and a glossary assists them with the terminology of the field. Available in both print and electronic formats, Encyclopedia of Human Services and Diversity is an ideal reference for students,

practitioners, faculty and librarians.

Photography and History in Colonial Southern Africa -

Lorena Rizzo 2019-09-16

This book studies the relationship between

photography and history in colonial Southern Africa, using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form. Through use of private and public archives, images produced by African itinerant photographers, white settlers, and colonial state institutions, this book explores the relationship between photography and history in colonial Southern Africa. Late nineteenth century Cape Colonial prison albums, police photographs from German Southwest Africa, African studio portraits, identity documents, travel permits and passports from the 1920s and 1930s, visual studies of whiteness and blackness authored by settler photographers, South African dompas photographs from the 1950s and 1960s, and aerial photography from the Eastern Cape in the mid-twentieth century are examined to highlight the ways in which photographic images cut across conventional

institutional boundaries and complicate rigid distinctions between the private and the public, the political and the aesthetic, the colonial and the vernacular, or the subject and the object. Photography and History in Colonial Southern Africa argues that rather than understanding photographs as a means of preserving and recreating the past in the present, we can value them for how they evoke at once the need for and the limits of historical reconstruction. This book will be of interest to students and scholars of colonial history, photographic history, visual media, and African studies.

The Global Cybercrime Industry - Nir Kshetri

2010-06-25

The Internet's rapid diffusion and digitization of economic activities have led to the emergence of a new breed of criminals. Economic, political, and social impacts of these cyber-criminals' activities have received considerable attention in recent years. Individuals, businesses, and

governments rightfully worry about the security of their systems, networks, and IT infrastructures. Looking at the patterns of cybercrimes, it is apparent that many underlying assumptions about crimes are flawed, unrealistic, and implausible to explain this new form of criminality. The empirical records regarding crime patterns and strategies to avoid and fight crimes run counter to the functioning of the cyberworld. The fields of hacking and cybercrime have also undergone political, social, and psychological metamorphosis. The cybercrime industry is a comparatively young area of inquiry. While there has been an agreement that the global cybercrime industry is tremendously huge, little is known about its exact size and structure. Very few published studies have examined economic and institutional factors that influence strategies and behaviors of various actors associated with the cybercrime industry. Theorists are also debating as to the best way to

comprehend the actions of cyber criminals and hackers and the symbiotic relationships they have with various players. *Information Systems and Technology Education: From the University to the Workplace* - Lowry, Glenn R. 2007-05-31

Criminal Justice - Peter Joyce 2022-07-29

This book offers a comprehensive and engaging introduction to the criminal justice system of England and Wales. Starting with an overview of the main theories of the causes of crime, this book explores and discusses the operation of the main

criminal justice agencies including the police, probation and prison services and the legal and youth justice systems. The fourth edition has been revised, updated, expanded and features a new expert co-author. This book offers a lively and critical discussion of some of the main themes in criminal justice, from policy-making and crime control, to diversity and discrimination, to the global dimensions of criminal justice, including organised crime and the role performed by transnational policing organisations to combat it. Key updates to this new edition include: increased discussion of the measurement, prevention and detection of crime; a revised chapter on the police which discusses the principle of policing by

consent, police methods, power and governance, and the abuse of power; further discussion of pressing contemporary issues in criminal justice, such as privatisation, multi-agency working, community-based criminal justice policy and the impact of the Covid-19 pandemic on the delivery of criminal justice policy; a revised chapter that deals in detail with new and emerging forms of criminality and the response of the UK and global criminal justice system to these developments. This accessible text is essential reading for students taking introductory courses in criminology and criminal justice. A wide range of useful features include review questions, lists of further reading, timelines of key events and a glossary of key terms.
