The Helping Conversation - Gerard Egan 2021-06-20

If you don't want to study counseling formally but do want to understand the basics thoroughly enough to be an effective everyday counselor, this is where you start. Step by step, we show you how to become a skilled helper in all the roles you play in life, personal and professional. The book draws on the work of Professor Gerard Egan, whose approach has been followed by trained counselors and therapists around the world for well over 40 years. We've distilled these time-tested principles and practices to their essence but without compromising on their authenticity. Simplified, yes, but never simplistic. The book introduces a fresh and easy-to-follow way of looking at the helping process, breaking it down into a series of nine conversations that each represent a critical step on a logical journey from problem to some life-enhancing outcome. This flexible, all-purpose approach is independent of any psychological theory and makes sense to everyone, regardless of background. In short, it feels natural, and with practice becomes second nature, providing you with a framework for helping yourself as well as others deal with the challenges of living. We

describe the seven essential communication skills you need to have at your command when helping people to make beneficial decisions about their problems, issues and opportunities. Throughout, key concepts are supported with examples and structured exercises.

Crisis Intervention - Lennis G. Echterling 2017-08-03

Developed by a team of experts in counseling and crisis intervention, and informed by the growing body of literature documenting the resilience of individuals, families, groups, and communities, Crisis Intervention: Building Resilience in Troubled Times is rooted in an evidence-based framework that provides a clear rationale for planning successful intervention strategies. Readers are introduced to the concepts of crisis and emergency, resolution and the process of change, the power of connecting with others, and the importance of translating crisis narratives into survivor stories. They learn strategies for managing emotions and developing coping skills. Each chapter highlights fundamental principles and practices with diverse populations and different emergency situations. All chapters include pedagogical features that support learning and skill development, including goals and overviews, crisis case scenarios, and tools to use in real-world application. Crisis Intervention prepares students to address the high-stakes needs of individuals, families, groups, and communities in emergency situations. It is ideal for use as the core text in graduate-level classes in crisis counseling. Prerequisite completion of courses in counseling theories and techniques is recommended for students using this text. Open My Heart, Heal My Soul - David P. Mann 2013-01-29

Living in this world can be hazardous to one's health. Struggles to deal with pain and suffering drive a number of people to counselors, pastors, and popular "how to" books on Christian living to find healing. The experience of feeling deeply wounded by life's events not only hinders people from enjoying life, it also undermines the idea that God has a plan for our lives that surpasses many of our wildest dreams. Grappling with the place of God's grace in our lives, how to effectively deal with our problems, and attaining authenticity of being and purpose in life blend into our daily walk as followers of Christ. Building upon the belief that there is far more to the Christian life than simply making it into heaven, *Open My Heart, Heal My Soul: Living the Grace-Saturated Life* helps readers who have found the journey of life to be frustrating and painful gain new insight into living. This book will inspire those who have felt discouraged by their attempts to overcome problems and provide guidelines for dealing with life's challenges as a Christian.

Integrative and Eclectic Counselling and Psychotherapy - Stephen Palmer 1999-12-30

Stephen Palmer is Joint award winner of the Annual Counselling Psychology Award for outstanding professional and scientific contribution to Counselling Psychology in Britain for 2000. 'The editors' support for the integrative project is clear, but the book will hold its own with the sceptics too. I recommend it' - Counselling at Work This innovative and timely book examines the issues and ideas surrounding integration

and eclecticism in a therapeutic context, and provides a detailed account of a wide range of approaches in use. Following an exploration of the origins of integrative and eclectic processes, 10 approaches are explained in detail. Chapters on each approach: describe its central concepts, assumptions and therapeutic goals; outline its view of how psychological disturbance is acquired, perpetuated and resolved; examine how the theory relates to practice - including examples of typical sessions and case studies; and consider which clients might benefit. Further chapters explore the implications of using integrative and eclectic approaches for training, supervision, for working in a time-limited context and from a multicultural perspective.

Counselling for Maternal and Newborn Health Care - World Health Organization 2010

The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. Counselling for Maternal and Newborn Health Care is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labor; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a review at the end of each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

Helping - Edgar H. Schein 2011-02-07

A Strategy+Business Best Leadership Book of the Year: An “uncommonly wise” analysis of the psychological and social dynamics of helping relationships (Warren Bennis, author of On Becoming a Leader). Helping is a fundamental human activity, but it can also be a frustrating one. All too often, to our bewilderment, our sincere offers of help are resented, resisted, or refused—and we often react the same way when people try to help us. Why is it so difficult to provide or accept help? How can we make the whole process easier? Many words are used for helping: assisting, aiding, advising, caregiving, coaching, consulting, counseling, guiding, mentoring, supporting, teaching, and more. In this seminal book on the topic, corporate culture and organizational development guru Ed Schein analyzes the social and psychological dynamics common to all types of helping relationships, explains why help is often not helpful, and shows what any would-be helpers must do to ensure that their assistance is both welcomed and genuinely useful. He shows how to navigate the delicate acts of asking for or offering help; avoid pitfalls; mitigate power imbalances; and establish a solid foundation of trust—and how these techniques can be applied to teamwork and organizational leadership. From the bestselling author of Organizational Culture and Leadership, and illustrated with examples from many types of relationships—husbands and wives, doctors and patients, consultants and clients—Helping is a concise, definitive analysis of what it takes to establish successful, mutually satisfying helping relationships.

What Therapists Say and Why They Say It - Bill McHenry 2015-02-11

What Therapists Say and Why They Say It, 2nd ed, is one of the most practical and flexible textbooks available to counseling students. The new edition includes more than one hundred techniques and more than a thousand specific therapeutic responses that elucidate, in the most concrete possible way, not just why but how to practice good therapy. Transcripts show students how to integrate and develop content during sessions, and practice exercises help learners develop, discuss, combine, and customize various approaches to working with clients. The second edition is designed specifically for use as a main textbook, and it includes more detailed explanations of both different counseling modalities and the interaction between techniques and the counseling process—for example, the use of Socratic and circular questions within the art therapy process. What Therapists Say and Why They Say It, 2nd ed, is also designed to help students make clear connections between the skills they learn in prepracticum and practicum with other courses in the curriculum—especially the 8 core CACREP areas.
