Lotus Europa - Colin Chapman's mid-engined masterpiece - Matthew Vale 2022-04-13

The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

The book of the Lamborghini Murciélago - Thillainathan Pathmanathan 2021-10-21

The wedge-shaped V12 Lamborghini flagships were always spectacular - in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murciélago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

Ferrari 333 SP - Terry O'Neil 2015-06-01

This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.

Alfa Romeo 155/156/147 Competition Touring Cars - Peter Collins 2012-09-03

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.
