The Federalist Papers - Alexander Hamilton 2018-08-20

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

[Love Knows No Death](#) - Piero Calvi-Pariseti 2016-04-25

It is often said that that one never completely recovers from the loss of a loved one and the shock of bereavement leaves an indelible scar on one's soul that remains forever. Despite this, most bereaved people do return

to living productive and meaningful lives, understanding that such pain is unavoidable and part of the human experience. However, in some cases the negative feelings and emotions do not subside over time and what psychologists refer to as "complicated grief" takes hold. This is a serious and debilitating condition that can take a toll on emotional and physical well-being. The good news is that, with appropriate help and support, even sufferers of complicated grief can transform their lives. This workbook is an essential part of the method known as "Love Knows No Death," an innovative approach to grief transformation. This counseling approach, which integrates both written and video lessons, reflects an "unbelievable truth" that the human mind, consciousness and personality do not end with the death of the physical body. In other words, your deceased love one is not, in fact, deceased. As one progresses through the workbook it becomes apparent that there is no religious agenda. The reality that we survive death is based upon established evidence and not blind faith, and the reader is encouraged to do their own reading, learning and thinking. The entire approach is based upon education and not preaching. This innovative approach to grief transformation is based upon established techniques of cognitive therapy. In other words, "The way you feel depends entirely on the way you think." When we learn to think "non-negatively" and replace negative, unrealistic and distorted

thoughts with more balanced, neutral and realistic ones, dramatic results can be attained. The chapters and videos in this approach will take readers on a journey of exploration as they examine possible stumbling blocks, what really dies at death, and learn about the substantial evidence for life after life. Some of the phenomena examined include the powers of the mind, deathbed visions, near death experiences, apparitions, mediumship and instrumental trans-communication. Mental health professionals are coming to realize that patients who believe that their deceased loved ones still survive do better than those who do not believe in survival. The "Love Knows No Death" approach recognizes that vague hope or wishful thinking does not have the power to transform grief. Such transformation can only come from "knowing," which can be attained only through personal experiences, thorough examination of the evidence, and changing the way we think. Those who put the effort into diligently following this workbook may very well experience life changing effects. The "afterlife perspective," once integrated into the grieving process, will allow you to lead a better life and truly honor those who have passed before you.

American Government 3e - Glen Krutz 2021-07-28

Flight of Remembrance - Marina Dutzmann Kirsch 2011-12

Now an Award-Winning Finalist in the Non-Fiction: Narrative category of The 2012 USA Best Book Awards, sponsored by USA Book News. Obtain a free 40-page excerpt on www.kirschstonebooks.com. Against the backdrop of World War II tragedy and devastation in Latvia, Poland and Germany and three decades of European history, this true narrative provides a window into the palpating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull-two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after

they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2 rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.

Which Way? - Lidia Stanton 2017-07-07

For page samples, follow the link:

<https://books.lidiastanton.com/whichway> This colourful and highly engaging resource is written for children as young as 4-5 years old but also those in Key Stage 2 of primary school (up to 9 years old) who continue to feel confused by letter and digit shapes. The latter group might become so discouraged that they avoid writing, or write very little, despite having great imaginations. They start doubting their ability to simply 'know' the correct way when writing b/d, p/q, p/g, 9/g, 6/9, s/z, 5/S, S/3, etc. Most teachers and parents are very good at playing down the reversals and encouraging the child to have another go. They say, "It's fine, it's still good writing. I love what you've written here." Yet, after so many attempts and after so many teacher corrections on the page, the child begins to think, "This writing game might not be for me after all". Those with dyslexia will have additional phonological difficulties to manage alongside poor memory for graphic shapes. This workbook is for children who can trace well at speed, thus appear to have developed adequate motor memory in their fingers, yet struggle to remember 'which way' to write the letter or digit. It is very likely that they will be ready to integrate this type of linear visual-spatial information at a later time. For now, they have no real-life representation, or model, of a handful of graphic shapes in their brains, and this, in turn, can affect their confidence in writing independently. This resource offers practical and long-term 'tricks' that will trigger the child's memory at the right moment. It adopts a complementary approach to traditional letter formation teaching to bridge the gap between children who are proficient graphic writers and those whose brains make different sense of graphic information. Many children with dyslexia and dysgraphia will particularly benefit from completing the workbook. How to use the resource The child doesn't need to work through the entire book. Choose sections that are relevant to their needs. Younger children (aged 4-6) will almost certainly need assistance when working with the resource, although older ones will no doubt choose to work independently, showing their practised strategies and completed

activities to teachers and parents. It is recommended that section 7 (Use your whole body) is attempted with the help of an older helper or adult. There are more than one method to help distinguish between b/d/p and s/z in this workbook. Introduce the child to only one method at a time, evaluate the child's progress, and decide whether there is a need to move on to the next one. Some children are more practical than visual - the 'Use your hands' strategy might be sufficient for them. Other children might enjoy more visual strategies in sections 4, 5 and 6. In my experience, section 7 (Use your whole body) works well with children who need to 'experience' concepts in a multi-sensory manner. Pay attention to the child's initial response to a particular method. It will guide you along. You can mix and match strategies. Some children don't confuse b/d as much but struggle with p/9. Some activities can be completed independently of the section the child is currently working through. For example, Activity 7 can be attempted after completing the 'Use your hands' section. Flick through the book to decide which activities appear to be suitable to the child's current progress.

Memoirs of a Security Contractor - Paul Yurkin 2015-09-09

Paul "Chuck Norris" Yurkin has never been one to give up. A product of the inner city projects, he pulled himself up by the bootstraps and enlisted in the Marine Corps-serving proudly in Desert Storm before beginning a fifteen-year career with the Myrtle Beach police force. But when he saw the efforts of his policing failing to create any positive change, it wasn't long before Yurkin became jaded by the system as a whole. Seeking a new life for himself and his daughters, he met up with a private contracting firm and began training for a trip to sunny Afghanistan, where he would work on training the fledgling Afghan National Police. In the midst of two weeks of training in Virginia, he earned the nickname that would stick with him for years to come-and met three best friends that remained by his side through dangerous missions, misadventures, and the frustrations of being stationed abroad. In *Memoirs of a Security Contractor*, Yurkin tells the true story of his time as a security contractor in Afghanistan in candid detail-in an eye-opening tale of determination, friendship, and never giving up.

Fortress of Deceit - Bogdan John Dzakovic 2016-07-21

A gonzo book about whistleblowing is long overdue. Bogdan Dzakovic's story overflows with experiences that make a reader want to laugh, cry and yes scream at the same time. This is the professional autobiography of an everyman trying to serve the public in the too often insane world of

government national security bureaucracies. It is as darkly entertaining as it is educationally insightful. While reading and rereading it, I could not help but flash back to Kafka's *THE TRIAL*, Monty Python's movie *BRAZIL*, and all of Hunter Thompson's *FEAR AND LOATHING*. Tom Devine Legal Director Government Accountability Project
+++++ FORTRESS OF DECEIT is the authors thirty-two year adventure in the federal government wonderland, whose growing cynicism compelled him to work with other like-minded colleagues in a desperate effort to prevent the 9/11 terror attacks. Far from culminating with the attacks, the book continues with the poorly thought out knee-jerk reactions of the government and its nefarious aftermath which continues to this day.

He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Foster, the National Chairman of the Communist Party, USA, published his book, *Toward Soviet America*. In his book Foster revealed the Communist plan to build a Soviet America, or an American version of the Soviet Union. Foster provided the reader with a general plan along with many specific details. In 1958 former FBI agent W. Cleon Skousen published his book, *The Naked Communist*. In his 1962 edition Skousen listed 45 goals Communists planned to achieve in building a Communist America. Super Investing - Bill Bodri 2012-11-01

Yes, you can beat the market — by a wide margin. The proof is in these five investing strategies that have already produced multi-million fortunes for real life investors who have used them. You won't hear about these strategies from Wall Street because these methods put money in

your pocket, not theirs. As the old saying goes, "Wall Street needs dummies so it can make monies." If you're an active thinking investor - the kind who prefers real-world truths over "too good to be true" financial fantasies, then this book is for you because it's the first to compile these five proven super investing strategies in one place. Super investing strategies like... Benjamin Graham's little-known "OTHER" investing method. You won't find this in his classic works *Security Analysis* or *The Intelligent Investor* because he discovered it AFTER writing those books. Graham concluded that the method shared in this book BEAT everything he did before. PLUS, he said individual investors don't need Wall Street to implement it and get rich. The Interest Rate Market Climate Model that continually beats the market all the way BACK TO 1929! No simple timing model works longer, and you can easily duplicate it using FREE information on the internet. The Ultimate Momentum Method returning 20% per year that gets you into -- and keeps you in -- the SAFEST assets MOVING THE MOST right now. The Monthly Income Solution using options that beats dividend checks hands down, and which every stock investor desiring an extra 10-15% per year must know about in this age of zero interest rates. If you want your stocks to "work for you" generating income, you must learn this technique. The Modified Method for Seasonal Timing that puts most Wall Street fund managers to shame. It absolutely blows "Sell in May and go away" out of the water, too. It's simple. It's easy. And it BEATS THE MARKET with far less risk. This book gives you the history, the analysis, and the exact rules to follow if you want to use each of these five Super Investing strategies that humiliate passive buy and hold strategies with their returns. These five Super Investing techniques are the basis of the poor man's way to retire wealthy without a lot of complicated work, and they protect your wealth through all sorts of difficult economic environments. Military Recruiting in the United States - Pat Elder 2016-12-08

Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. A Hoser's Guide to Canadian History - Kirt Purdy 2016-03

The great thing about being Canadian is simply this: we don't take ourselves too seriously, which works out pretty well because no one else on the planet takes us seriously, either. If you're reading this book, there's a good chance you're a Canadian. But what does that mean? There are the stereotypical nods, such as politeness and apologizing, but there's so much more! To be honest, you've probably taken part in (or at least talked about) hockey, poutine, curling, canoes, health care, snowshoes, parkas, camping, beer, road work, Canadian Tire, Slurpees, moose, maple syrup, and Tim Hortons in the last 24 hours. "A Hoser's Guide to Canadian History" is your ticket to even more things "Canadian" that you may have missed during your water-cooler discussions, online chats, or your seventeen-hour wait in the local emergency room. As you read this book, you'll discover new and exciting facts about Canada that simply weren't taught in school. As a History teacher, I found the need to spread the unvarnished truth of this great nation's past. People like Sir John "Eh" MacDonald, Tommy Douglas, and Pierre Trudeau all had a

distinct impact on this great country of ours, and part of their stories are included in these pages. Even less-famous folks who helped to shape Canada got a mention: John Humphrey, Laura Secord, and Egerton Ryerson. (Yes, "Egerton" is a real name.) Canada has an exciting past, full of events that have brought us to where we are now. Like all countries, we have some things we'd like to forget, but most of those unpleasant moments happened because we had morons in Parliament, something that doesn't happen anymore. Canadians have no need to apologize for being nice, honest, and caring people. So, please enjoy this book, and if you don't, well, I'm sorry.
