How to Be More Decisive - Calypso Guo

2018-01-25

We all want to make better decisions. The right decisions. But decision-making is tricky. The best of us are occasionally plagued by doubt. We backtrack and remake decisions we already made. Unmade decisions clog up our minds and corrode our inner peace. We're trapped in overanalysis paralysis. The truth is, we have a finite amount of time in this world. And stewing unnecessarily over a decision is a poor way to spend it. This book will shorten your decision-making time by illuminating the 4 false beliefs of the indecisive mind. It seems like some people were born boldly decisive while others were cursed with a nagging sense of uncertainty. But this is an illusion. Decisiveness is not a gift but a skill - a skill anyone can practice and master. This skill is not taught in school, yet it is the cornerstone of success and personal fulfillment. This book will hone your decision-making skills by providing not only theory, but 20 applicable exercises pertaining to the 5

decisive arts: The Art of Presence
The Art of Intuition
The Art of Momentum
The Art of Immediacy
The Art of Perspective
Never again will you waste your valuable time hesitating, worrying and flip-flopping between options and miss the chance to take action. Your decisiveness will amplify itself: heightening your confidence, inspiring respect from others, and empowering you to tackle the future fearlessly.

The Art of Decision Making - Joseph Bikart
2019-07-09

Drawing insights from philosophy, psychology, literature, and theology, a longtime executive business coach explores how and why we make the decisions we do. What is it that makes some of us better—or worse—than others at committing to a choice? What are the forces that hold us back, and how can we successfully overcome them? Every facet of our lives depends

on the decisions we make. Yet, how often do we pause to reflect on our ability to make the best and smartest choices? The key is how we confront and refine the decision-making process. Here, Joseph Bikart explores the intricacies of decision making, challenging us to understand why we make the choices we do. He explores how the true power of decisions, especially the toughest among them, help us to face our fears and may in turn change how we think about ourselves. Breaking his study into four clear parts and short practical essays, Bikart presents a lively and compelling exploration of the process of decision making. He covers: • Indecision, Indecision: What makes us indecisive? What holds us back and why? • Where Art Thou?: How and where we get stuck and the importance of relaxing one's grip. • The Momentum of Decisiveness: Keeping our focus and proactivity. • The Deciding Mind: Making our smartest choices. Drawing from such different fields as philosophy, psychology,

neurology, literature, art history and theology, *The Art of Decision Making* takes us on a journey from the depths of procrastination to the elation of decision making. Presenting a fresh perspective on what to do at the proverbial fork in the road, Bikart's unique philosophy is insightful, thought provoking, and potentially life-changing.

2020-11-04

What if, the desires and dreams you hold in your heart to be or do something more in life are the very reason you're here? "In society, in the mass consciousness, practicing fear and limitation is socially acceptable. Practicing faith in ourselves and following our inner compass has been trained out of us in our domestication. We live in exile from our true self. Living a kickass life is a return to your true self, to trusting your inner knowing and living freely and wildly into the life you are called to live." -from *3 Secrets to a Kickass Life*

The Science of Successful Living - Raymond Charles Barker 2018-12-01

“FEW PEOPLE think of life as a creative experiment. Most of us are so busy with routines that we take life for granted. We expect an endless routine of work, a hectic social life each weekend and two weeks’ vacation each year. I trust that the readers of this book will derive from it a new interest in life, a zest for doing what needs to be done, and a technique to live with joyous enthusiasm. “Looking at life from an inspired viewpoint you can see those things which are on the side of greatness and cease resisting the petty and the unimportant. Life is a process of intelligence. It always acts intelligently. Problems are the result of living life

unintelligently. “The universe is actually a mental system. Its primary nature is the process of ideas becoming form. Every fact in your world is also an idea in your mind. To get new things in your world you must have new ideas in your consciousness. Few people do enough abstract thinking to create new ideas in their minds. They continually think about what they already know and have known for years. This explains the monotony of their lives. “Select the idea of some new experience you want and then think it without ceasing. Mind will deliver to you everything you need in order to accomplish your demonstration. This is far from being impossible. The great, the wise, and the true have proven this to be so. You have done it and so have your friends. You may not have thought of the process as being either spiritual or psychological. You intuitively knew a new idea. Your thinking in terms of this idea caused something to happen in your experience. “This book has been written for that large section of today’s population which is

spiritually liberal and psychologically aware. Those bound by traditional beliefs will cast it aside. It is my desire that thousands will be helped and healed by reading these pages.”—Raymond Charles Barker

Create the Life You Want - Raymond Charles

Barker 2013-06-04

"Create the Life You Want" is a collection of writings by Raymond Charles Barker, one of the most popular exponents of New Thought in the mid-20th century. Many of the essays included have been out of print and unavailable for many years. Other material is available here for the first time edited into gender neutral language for the 21st century, making Barker's ideas freshly accessible to a new audience. Barker had a unique ability to explain in a clear and simple way metaphysical ideas like the law of attraction, affirmations, meditation, mental healing of the body, and what he termed "spiritual mind treatment". He inspired many people to take charge of their lives and change in positive ways, emphasizing over and over how the power of thought can be used to heal the body, mind and spirit, and thus eliminate fear, anxiety, worry, nervousness, pessimism and unbelief. Barker was adamant that everyone could benefit from putting these principles into

practice in their lives. By following Barker's advice, we can treat the subconscious blocks that prevent us from attaining our goals. We can create new ideas, eliminate problems, create happiness for ourselves and others, remove the belief of lack and limitation, and learn how to decongest our consciousness and create a fresh mind.

[A Changed Mind](#) - David Bayer 2021-06-29

The story of one man's journey to go beyond self awareness and the science of how to actually change your mind. You know your beliefs are holding you back. But you probably don't know how to actually change them. What if I told you that you could go beyond personal development, beyond self awareness, and actually rewire the way that you think in less than thirty days? And by learning how to do THAT, radically transform who you are, your reality, and your life. Just a little over a decade ago, I was running a venture-backed technology company while hiding a deep, dark secret. I was a drug addict, a sex addict,

and an alcoholic. My inability to control my mind was so strong that my life had become completely unmanageable. I lost everything, and it was in that implosion that I discovered personal development. It wasn't long, however, that I felt stuck in this new world of self-help—acutely aware of the fact that I was holding myself back, but having no idea how to actually change my thinking. I've spent the last ten years looking for the answer to a simple question: how can I change my mind? Having immersed myself in neuroscience, peak performance, biohacking, wisdom teachings, meditation, indigenous technologies, breathwork, metaphysics, and consciousness theory and through the distilling down of everything I've learned into a simple framework, I discovered the answer. And this book is the how-to guide.

The Game of Life and How to Play It -

Florence Scovel Shinn 2017-11-06

Ask for it, Prepare for it; Believing you already have it! This "Universe Version" is an update of the original "The Game Of Life and How To Play It" written in 1925 by Florence Scovel Shinn. Flossie was an extraordinary teacher of prosperity and the power of thoughts. Teaching that life is a game and in order to play it well, we must understand the Universal Laws that govern it. She showed her students and readers how to win at health, prosperity, love and happiness by mastering the game. Simply put her philosophy teaches that we can have all that we desire, we just have ask for it and prepare for it in the absolute belief that what we want is already

ours. These Spiritual Laws really do work . . . if you work them! Julie-Anne Lee Kinney has updated Flossie's original text to make the spiritual principles instead of religion the focal point. Many of her clients had religious triggers, so in an effort to meet their needs and expand this amazing book's reach, she has adapted most of the religious language and references and replaced them with "The Universe." She also edited the male pronouns out to make it inclusive to both men and women as well as adding in a summary of the steps, giving you the "How" to put it all into action. To practice the principles beyond the reading of this book Julie-Anne created www.holdingyourvision.com. Here you can put these principles into tangible action with guided steps, tools and daily actions. With a place to privately store all of your work and a community of like minded peeps to put their positive energy towards your dreams!

The Power of Decision - Raymond Charles Barker 2011-01-06

Introducing the first book in a powerful new series, The Tarcher Master Mind Editions: Essential Books of Inspiration, Instruction, and Motivation. What mind can conceive, man can achieve. Our decisions impact every area of our lives. Making better decisions means living a better life. But how can we develop the habit of making great decisions? Every noteworthy

achievement the world has ever seen was born with a single thought; and every great man who ever lived has been a man of decision. Raymond Charles Barker's The Power of Decision reveals this principle of success and illustrates the process of choice that all of us must take-and that all of us are capable, this very second, of taking-to change our lives and make our dreams come true. Indecisive people are failure prone, and Dr. Barker examines this basic truth while exploring the decision-making process in the individual, and the role of the subconscious mind in either abetting or thwarting each of our conscious decisions. He provides specific steps to shift the balance of decision-making power in your favor, and he brings to light the constant, ever-present power of will to change a situation-and yourself-for the better. Picking up The Power of Decision is the moment; and reading it is the decision that will change your life forever. Standard Handbook of Machine Design - Joseph Edward Shigley 1996
